Regionale Und Soziale Erscheinungsformen Des Britischen Und Amerikanischen

Raymond Hickey

Regionale Und Soziale Erscheinungsformen Des Britischen Und Amerikanischen:

Regionale und soziale Erscheinungsformen des britischen und amerikanischen Englisch Wolfgang Viereck, 1975 **A**
Bibliography of Writings on Varieties of English, 1965-1983 Wolfgang Viereck, Dr Edgar Schneider, Manfred Görlach, 1984-01-01 After the growth of English and American dialectology since the 1930 s and the expansion of sociolinguistics since the 1960 s the study of world English has emerged in recent years to join these other disciplines This bibliography is intended to reflect what has been achieved in this area and to serve as an indispensable research tool for further investigations The bibliography is divided into three parts each one is preceded by a preface which explains the procedures followed and each of the sections is followed by an index It classifies the items according to specific areas ethnic groups or similar topics *An Index to Dialect Maps of Great Britain* Andreas Fischer, Daniel Ammann, 1991-01-01 The results of the dialect surveys of Great Britain have been published in the form of hundreds of single and collected maps but so far there has been no actual handbook to the charted material The Index to Dialect Maps of Great Britain containing a full introduction an alphabetical word list and a comprehensive bibliography fills this gap As a compendious directory to mapped words it provides not only a lexical compass in a cartographic jungle but serves as a guide to the major dialect surveys Survey of English Dialects Survey of Anglo Welsh Dialects Linguistic Survey of Scotland and the numerous publications they have spawned All atlases as well as the maps in the many individual studies and scattered articles are fully documented Each of the over 2000 lexical entries identifies the original survey by questionnaire number and gives a detailed list of all the references to printed maps in which these words and phrases are contained The present volume will prove an indispensable guide for all researchers in the field of dialectology and linguistic variation enabling its users to gain quick access to the various sources of maps In this way the Index while still a simple work of reference may also furnish the materials for more thorough studies of map making and its implications *Approaches to Teaching the History of the English Language* Mary Hayes, Allison Burkette, 2017-08-29 The History of the English Language has been a standard university course offering for over 150 years Yet relatively little has been written about teaching a course whose very title suggests its prodigious chronological geographic and disciplinary scope In the nineteenth century History of the English Language courses focused on canonical British literary works Since these early curricula were formed the English language has changed and so have the courses In the twenty first century instructors account for the growing prominence of World Englishes as well as the English language s transformative relationship with the internet and social media *Approaches to Teaching the History of the English Language* addresses the challenges and circumstances that the course s instructors and students commonly face The volume reads as a series of master classes taught by experienced instructors who explain the pedagogical problems that inspired resourceful teaching practices Although its chapters are authored by seasoned teachers many of whom are preeminent scholars in their individual fields the book is designed for instructors at any career stage beginners and veterans

alike The topics addressed in Approaches to Teaching the History of the English Language include the unique pedagogical dynamic that transpires in language study the course s origins and relevance to current university curricula scholarly approaches that can offer an abiding focus in a semester long course advice about navigating the course s formidable chronological ambit ways to account for the language s many varieties and the course s substantial and pedagogical relationship to contemporary multimedia platforms Each chapter balances theory and practice explaining in detail activities assignments or discussion questions ready for immediate use by instructors

Legacies of Colonial English Raymond Hickey,2005-02-24 As a result of colonization many varieties of English now exist around the world Originally published in 2005 Legacies of Colonial English brings together a team of internationally renowned scholars to discuss the role of British dialects in both the genesis and subsequent history of postcolonial Englishes Considering the input of Scottish English and Irish dialects they closely examine a wide range of Englishes including those in North and South America South Africa Asia Australia and New Zealand and explain why many of them still reflect non standard British usage from the distant past Complete with a checklist of dialect features a detailed glossary and set of general references on the topic of postcolonial Englishes this book will be an invaluable source to scholars and students of English language and linguistics particularly those interested in sociolinguistics historical linguistics and dialectology

Accents of English: Volume 3 J. C. Wells,1982-04-08 Accents of English is about the way English is pronounced by different people in different places Volume 1 provides a synthesizing introduction which shows how accents vary not only geographically but also with social class formality sex and age and in volumes 2 and 3 the author examines in greater depth the various accents used by people who speak English as their mother tongue the accents of the regions of England Wales Scotland and Ireland volume 2 and of the USA Canada the West Indies Australia New Zealand South Africa India Black Africa and the Far East volume 3 Each volume can be read independently and together they form a major scholarly survey of considerable originality which not only includes descriptions of hitherto neglected accents but also examines the implications for phonological theory Readers will find the answers to many questions Who makes good rhyme with mood Which accents have no voiced sibilants How is a Canadian accent different from an American one a New Zealand one from an Australian one a Jamaican one from a Barbadian one What are the historical reasons for British American pronunciation differences What sound changes are currently in progress in New York in London in Edinburgh Dr Wells his written principally for students of linguistics phonetics and English language but the motivated general reader will also find the study both fascinating and rewarding

Focus on England and Wales Wolfgang Viereck,1985 This volume is a wide ranging study in dialectology General surveys appear along with in depth studies of particular problems Some papers describe the present situation in terms of dynamic synchrony others deal with the past and making use of present day dialectal data to help solve certain problems and finally those that draw on the past to explain the present Traditional dialectological methodology is presented here as is modern

quantificational and computative dialectology Moreover regional English and Welsh English are investigated on the phonological morphological and syntactical levels

Linguistics across Historical and Geographical Boundaries Dieter Kastovsky, Aleksander Szwedek, 2011-06-03 TRENDS IN LINGUISTICS is a series of books that open new perspectives in our understanding of language The series publishes state of the art work on core areas of linguistics across theoretical frameworks as well as studies that provide new insights by building bridges to neighbouring fields such as neuroscience and cognitive science TRENDS IN LINGUISTICS considers itself a forum for cutting edge research based on solid empirical data on language in its various manifestations including sign languages It regards linguistic variation in its synchronic and diachronic dimensions as well as in its social contexts as important sources of insight for a better understanding of the design of linguistic systems and the ecology and evolution of language TRENDS IN LINGUISTICS publishes monographs and outstanding dissertations as well as edited volumes which provide the opportunity to address controversial topics from different empirical and theoretical viewpoints High quality standards are ensured through anonymous reviewing

Theory and Practice in Corpus Linguistics ,1990

Accents of English John Christopher Wells, 1982 Accents of English is about the way English is pronounced by different people in different places Volume I provides a synthesizing introduction which shows how accents vary not only geographically but also with social class formality sex and age and in volumes 2 and 3 the author examines in greater depth the various accents used by people who speak English as their mother tongue the accents of the regions of England Wales Scotland and Ireland volume 2 and of the USA Canada and West Indies Australia New Zealand South Africa India Black Africa and the Far East volume 3 Each volume can be read independently and together they form a major scholarly survey of considerable originality which not only includes descriptions of hitherto neglected accents but also examines the implications for phonological theory Publisher description

East Anglian English Peter Trudgill, 2021-10-25 This book is the first full scale scientific study of East Anglian English The author is a native East Anglian sociolinguist and dialectologist who has devoted decades to the study of the speechways of Norfolk Suffolk Cambridgeshire and Essex He examines their relationships to other varieties of English in Britain as well as their contributions to the formation of American English and Southern Hemisphere Englishes

Dialect Emergence in Waumandee English David N. Ehrat, 2008 This book examines how a new dialect emerges It is based on empirical research carried out in Waumandee Wisconsin a small community set in a linguistically uncharted territory in North America Waumandee English is influenced by the native languages of settlers who arrived from different parts of Switzerland Germany Norway Poland Austria and Ireland Traditional dialectology augmented by sociolinguistic and psychological parameters enables the reader to follow the path of current dialect emergence in Waumandee English
