doctrine of supranationalism has been most evident in Europe but has become increasingly a global tour de force Supranationalism is the ideological driving force behind the process of European integration and so the European Union the first supranational regional regime SRR But the same doctrine has bequeathed other gifts to the world and to posterity The EU is evolving as a prominent global player and as a result appears to have become an inspiration and model for the proliferation of other SRRs and proto SRRs However as SRRs acquire greater power relative to traditional global players such as nation states a further state of development has ensued entailing the creation of supranational global regimes SGRs signalled by the progress of the United Nations and the World Trade Organisation *The Jurisprudence of the Caribbean Court of Justice and Regional Integration* Indira Rampersad, Anthony Gafoor, 2024-12-06 The book is a joint publication with equal contributions by Dr Indira Rampersad and Justice Dr Anthony Gafoor It presents the first comprehensive analysis of the jurisprudence of the Caribbean Court of Justice in both its original and appellate jurisdictions from 2005 to 2020 It seeks to address the central issue of whether the jurisprudence of the CCJ has the capacity to foster regional integration Through a series of semi structured interviews primary and secondary sources the book harnesses the dynamic interplay between the disciplines of International Relations and Law It claims that by attempting to uphold the rule of law and promote both

The New Nationalism Louis Snyder, 2017-07-05 Nationalism the state of mind in which the individual's supreme loyalty is owed to the nation state remains the strongest of political emotions As a historical phenomenon it is always in flux changing according to no preconceived pattern In *The New Nationalism* Louis L Snyder sees various forms of nationalism and categorizes them as a force for unity a force for the status quo a force for independence a force for fraternity a force for colonial expansion a force for aggression a force for economic expansion and a force for anti colonialism In Snyder's opinion nationalism should be differentiated from Theodore Roosevelt's New Nationalism a phrase he borrowed from Herbert D Croly's *The Promise of American Life* Croly warned that giving too much power to big industry and finance would lead to the degradation of the masses and that state and federal intervention must be pursued on all economic fronts Roosevelt expanded upon this concept and saw the flourishing of democratic government as a means of reviving the old pioneer sense of individualism and opportunity Snyder in contrast extends the work of the two major pioneers in the study of modern nationalism Carlton J H Hayes and Hans Kohn in exploring this most powerful sentiment of modern times and showing how it relates to the political economic and psychological tendencies of historical development

Contested Ideas of Regionalism in Asia Baogang He, 2016-09-13 Deepening regionalism in Asia demands new leadership Strong elites who are committed to a supranational identity are a minimum requirement of successful regionalism Regional leaders are increasingly seen as a new set of leaders in Europe Currently Asian regional leaders largely come from the diplomacy community or trade and economic sectors Yet further regionalization demands a new type of leadership from civil society and citizens In this context it is important to cultivate new regional leadership through the development of regional citizenship This book examines contested ideas of regionalism in Asia with a particular focus on two competing ideas of pan Asianism and Pacificism It also identifies a new trend and contestation the fundamental shift from a civilization understanding of regionalism to a technocratic and functional understanding of regionalism in the form of regulatory regionalism It also examines the other contested imaginations of regionalism in Asia including elitist versus participatory approaches to regionalism and democracy centric versus nationalism

Conclusions of the Special Event of Sahel and West Africa Club, May 2002 OECD, Sahel and West Africa

Club, 2004-03-23 This book presents the conclusions of a meeting of the Sahel and West Africa Club in Accra Ghana in May 2002 on the following topic Towards a Better Regional Approach to Development in West Africa *Regional and Global Regulation of International Trade* Francis Snyder, 2002-07-05 The processes of legal and economic integration at a regional and global scale have created powerful legal and economic dilemmas They challenge the paradigms of constitutionalism including the State's monopoly of constitutionalism the autonomy of national political communities and the traditional forms of participation and representation The phenomena of globalisation and regional forms of governance have promoted the interdependence of national political communities and destroyed the artificial boundaries upon which national constitutional democracies are found and from which they derive their legitimacy Furthermore it is inevitable that the development of international trade and economic integration will raise claims for some form of global distributive justice to complement the wealth maximisation arising from free trade This will come from the gradual development of global forms of political discourse and law making challenging State constitutionalism and requiring some of the instruments and theories of constitutionalism The essays in this collection written by leading scholars in international trade law argue the pros and cons of greater regional and global regulation They conclude that whatever the final framework for international trade the critical decisions about institutional form and content will be decided in an emerging global political arena They help to identify this political arena who governs it and according to which rules and identify the different institutional alternatives in that global political arena **Handbook on Global Governance and Regionalism** Jürgen Rüland, Astrid Carrapatoso, 2022-11-18 This Handbook expertly explores the profound transformations in international relations in recent decades Proliferating cross border challenges including global financial crises climate change environmental degradation irregular migration and COVID 19 require governance structures that transcend the nation state and take both global and regional interplay as well as problem solving capacities into account Contributing authors investigate the effectiveness of international cooperation and performance in a diverse range of policy fields **Regional Policy in the Southern African Development Community** J.
