Whitney Lackenbauer, 2019-10-28 This book examines emerging forms of governance in the Arctic region exploring how different types of state and non state actors promote and support rules and standards The authors argue that confining our understandings of Arctic governance to Arctic states and a focus on the Arctic Council as the primary site of circumpolar governance provides an incomplete picture Instead they embrace the complexity of governance in the Arctic by systematically analyzing and comparing the position interventions and influence of different actor groups seeking to shape Arctic political and economic outcomes in multiple sites of Arctic politics both formal and informal This book assesses the potential that sub national governments corporations civil society organizations Indigenous peoples and non Arctic states possess to develop norms and standards to ensure a stable rule based Arctic region It will be of interest to all scholars and students working in the fields of Arctic Sovereignty Security Studies Global Governance and International Political Economy      People's Republic of China-Hong Kong Special Administrative Region International Monetary Fund. Monetary and Capital Markets Department, 2014-07-16 This Financial Sector Assessment Program report on People's Republic of China Hong Kong Special Administrative Region highlights that it has developed a sound framework for the regulation of securities markets which exhibits a high level of implementation of the International Organization of Securities Commissions Principles Both the Securities and Futures Commission SFC and the Hong Kong Monetary Authority HKMA are sophisticated regulators and have been able to leverage from domestic and international expertise to develop sound supervisory practices Further while traumatic the Lehman minibond experience has led to

material improvements in conduct supervision that have permeated both the SFC and the HKMA Continuing efforts by the SFC to build up its capacity to identify and monitor emerging risks should increase the SFC's ability to react in a timely manner to an evolving landscape marked by an increased interconnection with the Mainland China an active presence by international players and increased regional competition as an international finance center It is important to consider translating the operational independence that the regulators have enjoyed into de jure independence through modifications in the current legal governance arrangements for both SFC and HKMA
