**Regreso al Eden , Famines and the Making of Heritage** Marguérite Corporaal,Ingrid de Zwart,2024-06-05

Famines and the Making of Heritage is the first book to bring together groundbreaking research on the role of European famines in the nineteenth and twentieth centuries in relation to heritage making museology commemoration education and monument creation. Featuring contributions from famine experts across Europe and North America the volume adopts a pioneering transnational perspective and discusses issues such as contestable and repressed heritage materiality dark tourism education on famines oral history multidirectional memory and visceral empathy. Questioning why educational curricula and practices in schools and on heritage sites are region or nation oriented or transnational chapters also consider whether they emphasise conflict or mutual understanding. Contributions also consider how present issues of European concern such as globalisation commodification human rights poverty and migration intersect with the heritage and memory of modern European famines. Lastly the book considers what role emigrant and diasporic communities within and outside Europe play in the development of famine heritage and educational practices and whether famine heritage is accessible to them. Famines and the Making of Heritage provides a crucial resource for museum and heritage scholars students and professionals working on or with difficult or dark heritages as well as those interested in the study of famines and legacies of troubled pasts

**War in Spain** David Jorge, 2020-11-26 This work covers the international importance of the War in Spain through the two organizations that marked the multilateral action towards the conflict The League of Nations and the Non Intervention Committee France and the United Kingdom diverted both deliberations as well as decision making processes and mechanisms from Geneva Non intervention was appeasement s specific variable applied to Spain Despite its name it meant an intervention depriving the Spanish government from its own defense while the fascist governments provided massive and regular support to the rebels The League was damaged in its authority through the violation of its Covenant in Manchuria and Abyssinia Once the War in Spain began non intervention was articulated with the main objective to confine the conflict to the Spanish borders To this end the designation of the conflict as a civil war not a mere nominal nor anecdotal issue in both London and Geneva was essential By abandoning the Spanish democracy and foreclosing the collective security system European democracies were also removing all that stood between their own societies and another world war The failure of the collective security system that the League was supposed to safeguard prompted by the impossibility of reconciling the British led policy of appeasement with active anti fascism led to a climate of collective insecurity during which arose a Second World War This was precisely the main objective to avoid in the international order established in 1919 after the major collective catastrophe on a worldwide scale soon to be overcome as that The scholarship herein will prove essential for scholars of the interwar years crisis twentieth century Spanish history and international relations
