## **Regulation Of Trading Systems On Financial Markets:**

Regulation of Trading Systems on Financial Markets Jean-Baptiste Zufferey, Margaret Tschanz-Norton, 1997-07-23

Profound changes in the financial markets have caused many lawmakers to modernise their legislation This work provides a fundamental analysis of the questions raised by the laws ruling trading systems In doing so it defines such terms as stock exchange analogous system protection of investors protection of the market function It also offers answers to questions such as What trading rules do the financial intermediaries banks have to observe What objectives should be pursued by lawmakers What role is to be left to competition What should be left to self regulation This work takes both a critical and comparative approach looking in particular at Anglo Saxon Continental and European legislation it provides a comparative analysis of each subject covered including the advantages and disadvantages that exist in the diverse legal solutions envisaged As well as the current state of the various controversies in the existing doctrine      **Commodity Exchange Act** Thomas J. McCool, Cecile O. Trop, 2000-11

The application of technology to derivatives trading has resulted in the development and use of electronic systems that are changing the way derivatives are traded What is the appropriate regulation of electronic trading systems for exchange traded futures ETF and OTC derivatives This report answers these questions how is technology being used in the ETF market and what concerns does this use raise under the CEA how is technology being used in the OTC derivatives market and what concerns does this use raise under the CEA and what alternatives have been suggested for addressing the concerns by the use of technology in the derivatives markets      **Technology and the Regulation of**
