**The Human Intellect** Noah Porter, 1869

Human Intellect Noah Porter, 2020-09-22 Reprint of the original first published in 1869

FDR's 12 Apostles Hal Vaughan, 2006-10-01 Nineteen months before the attack on Pearl Harbor FDR sent twelve vice consuls to Algeria Morocco and Tunisia on a secret mission Their objective To prepare the groundwork for what eventually became Operation TORCH the Allied invasion of North Africa that repelled the Nazis and also enabled the liberation of Italy This spy

network included an ex Cartier jewel salesman and wine merchant a madcap Harvard anthropologist a Parisian playboy who ran with Hemingway ex French Foreign Legionnaires and Paris bankers and a WWI hero Based on recently declassified foreign records as well as the memoirs of Ridgeway Brewster Knight one of the twelve apostles this fast paced historical account gives the first behind the scenes look at FDR s top secret plan      **The Debate Over the Origin of Genius During the Italian Renaissance** Noel L. Brann,2002 This study explores a prominent Italian Renaissance theme the origin of genius revealing how the coalescence of a Platonic theory of divine frenzy and an Aristotelian theory of melancholy genius eventually disintegrated under the force of late Renaissance events      Félix Ravaisson Mark Sinclair,2016-10-20 This reader makes the key essays of 19th century French philosopher Félix Ravaisson available in English for the first time In recent years Ravaisson has emerged as an extremely important and influential figure in the history of modern European philosophy The volume contains the classic 1838 dissertation *Of Habit* studies of Pascal Stoicism and the wider history of philosophy together with the Philosophical Testament that he left unfinished when he died in 1900 The volume also features Ravaisson s work in archaeology the history of religions and art theory and his essay on the Venus de Milo which occupied him over a period of twenty years after he noticed when hiding the statue behind a false wall in a dingy Parisian basement during the Franco Prussian war that it had previously been presented in a way that deformed its original bearing and meaning Félix Ravaisson *Selected Essays* contains an introductory intellectual biography of Ravaisson which contextualises each of the essays in the volume It also features an annotated bibliography of suggested further reading This book will grant scholars and students alike wider access to his distinctive contribution to the history of philosophy      **Reid Studies** ,1998

**Common Sense** Sophia Rosenfeld,2011-09-02 *Common Sense* reveals a political ideal so fundamental to American politics that we are unaware of its power and its myriad uses Sophia Rosenfeld shows how common sense the wisdom of ordinary people self evident truths has been used to justify all political extremes with a history that is anything but commonsensical      **The Cambridge History of Eighteenth-century Philosophy** Knud Haakonssen,2006 This two volume set presents a comprehensive and up to date history of eighteenth century philosophy The subject is treated systematically by topic not by individual thinker school or movement thus enabling a much more historically nuanced picture of the period to be painted      *Optiques* Andrea Goulet,2013-04-05 Andrea Goulet takes the study of the novel into the realm of the visual by situating it in the context of nineteenth century scientific and philosophical discourse about the nature of sight She argues that French realism detective fiction science fiction and literature of the fantastic from 1830 to 1910 reflected competition between two modern visual modes a not yet outdated idealism and an empiricism that located truth in the body More specifically the book argues that key narrative forms of the nineteenth century were shaped by a set of scientific debates between idealism and materialism in Honor Balzac s *Com die humaine* between deduction and induction in early French detective fiction and between objective vision and subjective vision in the optogram fictions of Jules Verne and others Goulet

aims to revise critical views on the modern novel in a number of ways For instance although many literary studies focus on the impact of cinema photography and painting *Optiques* asserts the materialist bases of realism by establishing a genealogy of popular fictional genres as fundamentally optical that is as articulated according to bodily notions of sight With its chronological and interdisciplinary scope *Optiques* stands to contribute an important chapter to the study of literary modernity in its scientific context

**Conjectures of Order** Michael O'Brien, 2004-03-01 In this magisterial history of intellectual life Michael O'Brien analyzes the lives and works of antebellum Southern thinkers and reintegrates the South into the larger tradition of American and European intellectual history O'Brien finds that the evolution of Southern intellectual life paralleled and modified developments across the Atlantic by moving from a late Enlightenment sensibility to Romanticism and lastly to an early form of realism Volume 1 describes the social underpinnings of the Southern intellect by examining patterns of travel and migration the formation of ideas on race gender ethnicity locality and class and the structures of discourse expressed in manuscripts and print culture In Volume 2 O'Brien looks at the genres that became characteristic of Southern thought Throughout he pays careful attention to the many individuals who fashioned the Southern mind including John C Calhoun Louisa McCord James Henley Thornwell and George Fitzhugh Placing the South in the larger tradition of American and European intellectual history while recovering the contributions of numerous influential thinkers and writers O'Brien's masterwork demonstrates the sophistication and complexity of Southern intellectual life before 1860
