Military Review, 2005 **Looking-Glass Wars: Spies on British Screens since 1960** Alan Burton, 2018-01-31 Looking Glass Wars Spies on British Screens since 1960 is a detailed historical and critical overview of espionage in British film and television in the important period since 1960 From that date the British spy screen was transformed under the influence of the tremendous success of James Bond in the cinema the spy thriller and of the new style spy writing of John le Carr and Len Deighton the espionage story In the 1960s there developed a popular cycle of spy thrillers

in the cinema and on television The new study looks in detail at the cycle which in previous work has been largely neglected in favour of the James Bond films The study also brings new attention to espionage on British television and popular secret agent series such as *Spy Trap* *Quiller* and *The Sandbaggers* It also gives attention to the more realistic representation of spying in the film and television adaptations of *le Carr* and *Deighton* and other dramas with a more serious intent In addition there is wholly original attention given to nostalgic spy fictions on screen adaptations of classic stories of espionage which were popular in the late 1970s and through the 1980s and to historical spy fiction dramas which treated real cases of espionage and their characters most notably the notorious *Cambridge Spies* Detailed attention is also given to the secret state thriller a cycle of paranoid screen dramas in the 1980s which portrayed the intelligence services in a conspiratorial light best understood as a reaction to excessive official secrecy and anxieties about an unregulated security service The study is brought up to date with an examination of screen espionage in Britain since the end of the Cold War The approach is empirical and historical The study examines the production and reception literary and historical contexts of the films and dramas It is the first detailed overview of the British spy screen in its crucial period since the 1960s and provides fresh attention to spy films series and serials never previously considered

The Motherland of Elephants Max Fram,

2015 Russia is the motherland of elephants this phrase from a Soviet era anecdote a peculiar genre of Russian jokes often political or obscene or both takes the mickey out of historical propaganda The phrase is symbolic of the somewhat light hearted approach to history which is quintessential to this book This is not an official history but a series of sketches often humorous on various aspects of Russian life over the centuries of people institutions natural and political phenomena and local products of interest The book also offers glimpses of Russia's

historical relations with the West chequered complex and fraught with chronic mutual misunderstanding **Churchill The Young Warrior** John Harte, 2017-08-22 This is the intriguing chronicle of Winston Churchill's early years as a young soldier fighting in several different types of wars on horseback in the cavalry at Khartoum with saber and lance against the Dervishes at age twenty-two in the South African war against the Boers and finally in the First World War after he resigned as First Lord of the Admiralty to volunteer to lead a Scottish brigade in the trenches of the Western Front as Lieutenant Colonel. The book also covers the failure, bloodshed and disgrace of Gallipoli that was blamed on him which could have led to his downfall as well as the formative relationships he had with the two important women in his young life: his mother Jennie who was an eighteen-year-old woman when she married an English aristocrat and Churchill's young wife Clementine. How did the events of his early life shape his subsequent life and career making him the leader he would become? What is the mystery behind how World War I erupted and what role did Churchill play to end it? Most readers are aware of Churchill's leadership in World War Two but are unaware of his contributions and experiences in World War One. Through engaging narrative non-fiction, this book paints a startlingly different picture of Winston Churchill: not the portly conservative politician who led the UK during World War II but rather the capable young man in his 20s and 30s who thought of himself as a soldier saving Britain from defeat. Gaining experience in battle and developing a killer instinct and a mature worldview would serve him well as the leader of the free world.
