Reinhart in Love Thomas Berger, 2016-06-14 The Pulitzer Prize nominated author of Little Big Man proves that sometimes war doesn't change a person but the world he lives in Carlo Reinhart returns home from his service in Germany expecting the Ohio he left not too long ago What he finds instead is new technology old attitudes and people he's not sure he can relate to anymore As Reinhart stumbles back into life as a civilian he finds camaraderie in the most unlikely places A former classmate Splendor Mainwaring a man too smart for his lot in life as a mechanic becomes a new and eccentric friend His boss isn't just the most over eager real estate agent in town he's also a seasoned con man Not even settling down comes easy to the gentle Reinhart Duping him into marriage his new wife Genevieve Raven is a force to be reckoned with Endlessly surprising this funny sharp edged narrative is Pulitzer Prize finalist Thomas Berger at his very best With an over the top cast of characters it's impossible not to fall in love with the exact people that make Reinhart's life impossible Picture Fielding's Tom Jones in a 20th century landscape and you'll have some idea of Reinhart in Love The New York Times

Asymmetrical Concepts after Reinhart Koselleck Kay Junge, Kirill Postoutenko, 2014-03-15 Although the asymmetrical concepts have been well known to scholars across the social sciences and humanities their role in structuring the human world has never been an object of detailed research 35 years ago Reinhart Koselleck sketched out the historical semantics of the oppositions Hellenes barbarians Christians pagans and barmensch Untermensch but his insights though eagerly cited have been rarely developed in a systematic fashion This volume intends to remedy this situation by bringing together a small number of scholars at the crossroads of history sociology literary criticism linguistics political science and international studies in order to elaborate on Koselleck's notion of asymmetric counter concepts and adapt it to current research needs

The French Invention of Menopause and the Medicalisation

of Women's Ageing Alison M. Downham Moore, 2022-10-06 Doctors writing about menopause in France vastly outnumbered those in other cultures throughout the entire nineteenth century The concept of menopause was invented by French male medical students in the aftermath of the French Revolution becoming an important pedagogic topic and a common theme of doctors professional identities in postrevolutionary biomedicine Older women were identified as an important patient cohort for the expanding medicalisation of French society and were advised to entrust themselves to the hygienic care of doctors in managing the whole era of life from around and after the final cessation of menses However menopause owed much of its conceptual weft to earlier themes of women as the sicker sex of vitalist crisis of the vapours and of astrological climacteric years This is the first comprehensive study of the origins of the medical concept of menopause richly contextualising its role in nineteenth century French medicine and revealing the complex threads of meaning that informed its invention It tells a complex story of how women's ageing featured in the demographic revolution in modern science in the denigration of folk medicine in the unique French field of hygiene and in the fixation on women in the emergence of modern psychiatry It reveals the nineteenth century French origins of the still current medical and alternative health approaches to women's ageing as something to be managed through gynaecological surgery hormonal replacement and lifestyle intervention **Body**
