Patricia Arroyo Calderón, 2012-12-03 El título de este libro describe en cierto modo su contexto de origen un foro de debate y discusión abierto a distintas aproximaciones al campo de los estudios culturales y a la reflexión sobre la validez disciplinaria y la utilidad interpretativa de este tipo de enfoques para el análisis de los fenómenos sociales políticos y culturales de América Latina Dichas reflexiones no obstante fueron hechas desde el contexto académico español un espacio de enunciación que hasta muy recientemente ha sido particularmente reactivo a la introducción de la disciplina que entra a la aproximación intertransdisciplinaria a los fenómenos del campo de la cultura propia de los Estudios Culturales Si bien hoy en día cuenta con un número considerable de partidarios la realidad sigue siendo la de rechazo principalmente por parte de las instituciones que regulan los quehaceres académicos en base a un sistema de puntuación y competencias regladas que no contemplan la posibilidad que ofrecen los estudios que sortean esas barreras disciplinares impuestas condenando al olvido En este sentido el presente volumen pretende ser a la vez un compendio de algunas de las principales aportaciones que los estudios culturales y la teoría postcolonial han hecho al campo de los estudios latinoamericanos en las últimas décadas y también una propuesta y una apuesta a favor de la pertinencia de este tipo de aproximaciones a la hora de abrir nuevos campos de análisis y nuevos debates transdisciplinares en la academia española
