Relationship Between Disarmament And Development In The Current International Context The Disarmament Study Series 31:

Quarterly Essay 27 Reaction Time Ian Lowe, 2007-09-01 Australia is at a crossroads if we are to halt global warming do we need to stride resolutely into a nuclear future In this engrossing and persuasive essay Ian Lowe discusses his one time belief in the benefits of nuclear power and explains why that belief has faltered He engages with the leading environmentalists like James Lovelock who advocate going nuclear as well as with the less savoury aspects of the Australian politicking He discusses whether other countries might need to use nuclear power even if Australia doesn't and offers an authoritative survey of Australia's energy alternatives from solar and wind power to clean coal Above all he explains why taking up the nuclear option would be a decisive step in the wrong direction economically environmentally politically and socially Promoting nuclear power as the solution to climate change is like advocating smoking as a cure for obesity That is taking up the nuclear option will make it much more difficult to move to the sort of sustainable ecologically healthy future that should be our goal Ian Lowe *Reaction Time* **American Book Publishing Record**, 2005 *The Stationery Office Agency Catalogue* Stationery Office (Great Britain), 2005 **HMSO Agency Catalogue** Great Britain.
