## **Relativism Knowledge And Faith:**

*Relativism, Knowledge, and Faith* Gordon D. Kaufman, 1960      **Relativism, Knowledge and Faith** Gordon D. Kaufman, 1995      **Two Different Worlds** Charles E. Garrison, 1988 Challenging the assumption that the biblical text is absolutist this study renders the wall of division between Christian absolutism and cultural relativism indefensible Its encouraging argument draws upon sociology anthropology and analysis of the biblical text      **Disruptive Grace** George Hunsinger, 2000 Among the studies of Karl Barth s thought no other work covers as this one does the areas of political doctrinal and ecumenical theology in single compass Written by a leading Barth scholar Disruptive Grace is unique not only for its range of study depth of insight and accuracy of presentation but also for the way it displays the heart as well as the mind of the great Swiss pastor and theologian Each of the book s three main sections consists of five major essays Part 1 relates Barth to contemporary issues of social justice war and peace Part 2 covers christology pneumatology the Trinity scriptural interpretation and the question of universal salvation Part 3 discusses the Reformed tradition as Barth understood it in relation to Roman Catholicism Lutheranism modern liberalism evangelical conservatism and the postliberal theology of the contemporary Yale school The book concludes with a meditation on the saving significance of Christ s death a theme that runs throughout the book The result of more than twenty five years of intensive Barth research this volume provides scholars teachers and students with a thorough discussion of the twentieth century s most significant Christian thinker      **A Judeo-Christian Appraisal of Major Theories of Truth** Joseph B. Onyango Okello, 2025-05-22 What is truth How should we define it Should we define it christologically as Jesus did when he revealed himself to Thomas as the embodiment of truth or should we appeal to philosophy for help This book explores possible answers to these questions More specifically the book offers a brief survey of how different philosophical theories have attempted to define truth After finding them somewhat incomplete the book shows how an adequate account of truth is given by the Judeo Christian tradition s view of omniscience By drawing from the rich tradition of the church fathers the book notes how naturalistic views of truth fail to account for the existence of truth prior to the evolution of the human mind This problem however is a non issue for a theistic account of truth and makes a strong case for the existence of objective truth even before the human mind was designed      Knowledge, Science and Relativism P. K. Feyerabend, 1999-05-27 This collection of Feyerabend s philosophical papers gathers together work originally published between 1960 and 1980      Reason Relativism And God Joseph Runzo, 1986-05-19      *Religion and the Sociology of Knowledge* Barbara Hargrove, 1984 This is a collection of 17 essays presented at a seminar on the sociology of knowledge and religion at Iliff School of Theology The central theme of the volume is that one s particular place in society shapes the ways in which one thinks learns and responds to religion as to other factors in life      *In the Beginning--Creativity* Gordon D. Kaufman, NAME      **The Theory of Relativity and a Priori Knowledge** Hans Reichenbach, Maria Reichenbach,      **Religious Discovery, Faith, and Knowledge** James Kellenberger, 1972 The purpose of this book is to

raise the possibilities of religious knowledge and religious discovery By religious knowledge and discovery I mean knowledge and discovery of God and by possibility I mean a viable possibility the kind that a new look under a new light finds I do not mean a minimal or a logical possibility Introduction      **Towards a Theory of Relativity of Truth in Morality and Religion**

Charles Goossens,1990 This study argues for a model in which moral truth is presented as truth in the perspective of certain social commitments while religious truth is interpreted as truth in the perspective of religious experience It theorizes that relativity need not conflict with universality Truth from the perspective of the outsider is therefore truth without qualification      **The Spirit of American Liberal Theology** Gary Dorrien,2023-09-05 The Spirit of American Liberal Theology is an interpretation of the entire U S American tradition of liberal theology A highly condensed and far more accessible summary of Gary Dorrien s three volume trilogy The Making of American Liberal Theology Westminster John Knox Press 2001 2003 and 2006 Dorrien here presses the argument that the most abundant diverse and persistent tradition of liberal theology is the one that blossomed in the United States and is still refashioning itself While discussions of English and German liberalism persist new material includes expanded treatment of the Black social gospel the Universalists developments into early 2020s and a robust expression of the author s post Hegelian liberal liberationist perspective

**Theology and the University** David Ray Griffin,Joseph C. Hough Jr.,1991-03-21 This book explores the relationship between theology and the modern university Most of the essays were written specifically for this volume and all of them are published here for the first time David Ray Griffin Gordon Kaufman Hans K ng Schubert Ogden and Wolfhart Pannenberg address the question of whether theology belongs in the university at all Essays by Joseph Hough Catherine Keller and Marjorie Suchoki argue that theology has a vital role in helping the university recover its central mission that of educating for the sake of the common good Thomas Altizer William Beardslee and Jack Verheyden provide historical analyses of the interactions between theology and the university with Altizer focusing on the modern divorce between faith and reason Beardslee on the relevance of the renewed emphasis upon rhetoric and Verheyden on the ideal of knowledge As a whole Theology and the University presents an impressive case against the position that theology is inappropriate in the university It argues not only that theology has a rightful place in the university but also that the university needs theology just as theology needs the university      **Prayer and the Knowledge of God** Graeme Goldsworthy,2004-08-10 Graeme

Goldsworthy explores the reality of God the ministry of Jesus Christ and our experience of being his redeemed people as the grounds for prayer which he defines as talking to God      **The Making of American Liberal Theology** Gary J.

Dorrien,2006-01-01 In this first of three volumes Dorrien identifies the indigenous roots of American liberal theology and demonstrates a wider longer running tradition than has been thought The tradition took shape in the nineteenth century motivated by a desire to map a modernist third way between orthodoxy and rationalistic deism atheism It is defined by its openness to modern intellectual inquiry its commitment to the authority of individual reason and experience its conception of

Christianity as an ethical way of life and its commitment to make Christianity credible and socially relevant to modern people Dorrien takes a narrative approach and provides a biographical reading of important religious thinkers of the time including William E Channing Ralph Waldo Emerson Horace Bushnell Henry Ward Beecher Elizabeth Cady Stanton and Charles Briggs Dorrien notes that although liberal theology moved into elite academic institutions its conceptual foundations were laid in the pulpit rather than the classroom

Dictionary Of Modern American Philosophers John R. Shook, 2005-05-15 The Dictionary of Modern American Philosophers includes both academic and non academic philosophers and a large number of female and minority thinkers whose work has been neglected It includes those intellectuals involved in the development of psychology pedagogy sociology anthropology education theology political science and several other fields before these disciplines came to be considered distinct from philosophy in the late nineteenth century Each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading While all the major post Civil War philosophers are present the most valuable feature of this dictionary is its coverage of a huge range of less well known writers including hundreds of presently obscure thinkers In many cases the Dictionary of Modern American Philosophers offers the first scholarly treatment of the life and work of certain writers This book will be an indispensable reference work for scholars working on almost any aspect of modern American thought

*In Face of Reality* Thomas A. James, 2011-04-01 This study of the work of noted liberal theologian Gordon Kaufman tracks his career from his first published book *Relativism Knowledge and Faith* 1960 through his 2006 book *Jesus and Creativity* in light of recent conversations about divine action and modern scientific knowledge James interprets Kaufman's mature position as a sophisticated reconstruction of divine activity that makes use of recent scientific theory and its naturalistic assumptions in order to revitalize a theocentric frame of reference rooted in classical theological tradition Though there are costs to be paid in the construction of a theology of radical naturalism particularly with respect to the relation between divine action and the human good Kaufman's program offers a distinctive way forward After developing a critical analysis of the limitations and possibilities of Kaufman's mature position James suggests that a christological reconsideration of the meaning of human flourishing offers the prospect of an even more radically naturalistic and theocentric theology

**Faith's Knowledge** Paul Tyson, 2013-05-02 Can we know truth even though certain proof is unattainable Can we be known by Truth Is there a relationship between belief and truth and if so what is the nature of that relationship Do we need to have faith in reason and in real meaning to be able to reason towards truth These are the sorts of questions this book seeks to address In *Faith's Knowledge* Paul Tyson argues that all knowledge that aims at truth is always the knowledge of faith If this is the case then against our modernist cultural assumptions about knowledge truth cannot be had by proof Yet if this is true then mere information and simply objective facts do not for us as knowers exist Knowledge is always embedded in belief and knowledge and belief is always expressed in relationships histories narratives shared meanings and power Hence a theological sociology

of knowledge emerges out of these explorations in thinking about knowledge as a function of faith

**Religion and Knowledge** Mathew Guest, Elisabeth Arweck, 2016-04-15 Religions have always been associated with particular forms of knowledge often knowledge accorded special significance and sometimes knowledge at odds with prevailing understandings of truth and authority in wider society New religious movements emerge on the basis of reformulated often controversial understandings of how the world works and where ultimate meaning can be found Governments have risen and fallen on the basis of such differences and global conflict has raged around competing claims about the origins and content of religious truth Such concerns give rise to recurrent questions faced by academics governments and the general public How do we treat statements made by religious groups and on what basis are they made What authorities lie behind religious claims to truth How can competing claims about knowledge be resolved Are there instances when it is appropriate to police religious knowledge claims or restrict their public expression This book addresses the relationship between religion and knowledge from a sociological perspective taking both religion and knowledge as phenomena located within ever changing social contexts It builds on historical foundations but offers a distinctive focus on the changing status of religious phenomena at the turn of the twenty first century Including critical engagement with live debates about intelligent design and the new atheism this collection of essays brings recent research on religious movements into conversation with debates about socialisation reflexivity and the changing capacity of social institutions to shape human identities Contributors examine religion as an institutional context for the production of knowledge as a form of knowledge to be transmitted or conveyed and as a social field in which controversies about knowledge emerge
