Releasing An Independent Record By Hustwit Gary:

Releasing an Independent Record Gary Hustwit, 1993 *Punk Record Labels and the Struggle for Autonomy* Alan O'Connor, 2008-04-30 This book describes the emergence of DIY punk record labels in the early 1980s Based on interviews with sixty one labels including four in Spain and four in Canada it describes the social background of those who run these labels Especially interesting are those operated by dropouts from the middle class Other respected older labels are often run by people with upper middle class backgrounds A third group of labels are operated by working class and lower middle class punks who take a serious attitude to the work Using the ideas of French sociologist Pierre Bourdieu this book shows how the field of record labels operates The choice of independent or corporate distribution is a major dilemma Other tensions are about signing contracts with bands expecting extensive touring and using professional promotion There are often rivalries between big and small labels over bands that have become popular and have to decide whether to move to a more commercial record label Unlike approaches to punk that consider it as subcultural style this book breaks new ground by describing punk as a social activity One of the surprising findings is how many parents actually support their children s participation in the scene Rather than attempting to define punk as resistance or as commercial culture this book shows the dilemmas that actual punks struggle with as they attempt to live up to what the scene means for them [Making a Living in Your Local Music Market](#) Dick Weissman, 2006 You can survive happily as a musician in your local music market This book shows you how to expand and develop your skills as a musician and a composer right in your own backyard Making a Living in Your Local Music Market explores topics relevant to musicians of every level Why should a band have an agreement How can you determine whether a personal manager is right for you Are contests worth entering What trade papers are the most useful Why copyright your songs Also covers Developing and packaging your artistic skills in the marketplace Dealing with contractors unions club owners agents etc Producing your own recordings Planning your future in music Music and the Internet Artist operated record companies The advantages and disadvantages of independent and major record labels Grant opportunities for musicians and how to access them College music business programs Seminars and trade shows Detailed coverage of regional music markets including Austin Atlanta Denver Miami Seattle and Portland Oregon *The Musician's Guide to the Internet* Todd Souvignier, Gary Hustwit, 2002 This book was the first internet guide specifically written for musicians Now fully revised and updated the second edition is loaded with even more practical information on how to take full advantage of all the information age has to offer Topics covered include equipment requirements getting online e mail chat IRC and instant messaging MP3s and compressed audio how to build your first website internet radio and streaming audio file sharing selling music online building web traffic and more A musician and software executive Todd Souvignier is co founder and CTO of Exploit Systems Inc His writing has appeared in Mix and Electronic Musician magazines Gary Hustwit is the author of Releasing an Independent Record and Getting Radio Airplay He has written for Billboard and Guitar World
