Reliable Partners How Democracies Have Made A Separate Peace:

Reliable Partners Charles Lipson, 2013 Democracies often go to war but almost never against each other Indeed the democratic peace has become a catchphrase among scholars and even U S Presidents But why do democracies avoid fighting each other Reliable Partners offers the first systematic and definitive explanation Examining decades of research and speculation on the subject and testing this against the history of relations between democracies over the last two centuries Charles Lipson concludes that constitutional democracies have a contracting advantage a unique ability to settle conflicts with each other by durable agreements In so doing he forcefully counters realist claims that a regime s character is irrelevant to war and peace Lipson argues that because democracies are confident their bargains will stick they can negotiate effective settlements with each other rather than incur the great costs of war Why are democracies more reliable partners Because their politics are uniquely open to outside scrutiny and facilitate long term commitments They cannot easily bluff deceive or launch surprise attacks While this transparency weakens their bargaining position it also makes their promises more credible and more durable for democracies are generally stable Their leaders are constrained by constitutional rules independent officials and the political costs of abandoning public commitments All this allows for solid bargains between democracies When democracies contemplate breaking their agreements their open debate gives partners advance notice and a chance to protect themselves Hence agreements among democracies are less risky than those with nondemocratic states Setting rigorous analysis in friendly vigorous prose Reliable Partners resolves longstanding questions about the democratic peace and highlights important new findings about democracies in world politics from rivalries to alliances Above all it shows conclusively that democracies are uniquely adapted to seal enduring bargains with each other and thus avoid the blight of war

Perspectives on International Relations Henry R. Nau,2018-01-03 Perspectives on International Relations Power Institutions and Ideas shows students new to the field how theories perspectives of international affairs realism liberalism constructivism identity and critical theory play a decisive role in explaining every day debates about world affairs Why for example do politicians and political scientists disagree about the causes of the ongoing conflict in Syria even though they all have the same facts Or why do policymakers disagree about how to deal with North Korea when they are all equally well informed The new Sixth Edition of this best seller includes updates on Brexit the rise of Donald Trump and other populist leaders and continuing developments for ISIS Syria and Russia **War on Hate** Henry Kopel,2021-07-12 The UN outlawed

genocide in 1948 and the United States launched a war on terror in 2001 yet still today neither genocide nor terrorism shows any sign of abating This book explains why those efforts have fallen short and identifies policies that can prevent such carnage The key is getting the causation analysis right Conventional wisdom emphasizes ancient hatreds poverty and the impact of Western colonialism as drivers of mass violence But far more important is the inciting power of mass ideological hate propaganda this is what activates the drive to commit mass atrocities and creates the multitude of perpetrators needed to conduct a genocide or sustain a terror campaign A secondary causal factor is illiberal dualistic political culture this is the breeding ground for the extremist us vs them ideologies that always precipitate episodes of mass hate incitement A two tiered policy response naturally follows from this analysis in the short term several targeted interventions to curtail outbreaks of such incitement and in the long term support for indigenous agents of liberalization in venues most at risk for ideologically driven violence
