**Course Correction** Paul W. Gooch, 2019-03-14 Course Correction engages in deliberation about what the twenty first century university needs to do in order to re find its focus as a protected place for unfettered commitment to knowledge not just as a space for creating employment or economic prosperity The university s business Paul W Gooch writes is to generate and critique knowledge claims and to transmit and certify the acquisition of knowledge In order to achieve this a university must have a reputation for integrity and trustworthiness and this in turn requires a diligent and respectful level of autonomy from state religion and other powerful influences It also requires embracing the challenges of academic freedom and the effective governance of an academic community Course Correction raises three important questions about the twenty first century university In discussing the dominant attention to student experience the book asks Is it now all about students Secondly in questioning What knowledge should undergraduates gain it provides a critique of undergraduate experience advocating a Socratic approach to education as interrogative conversation Finally by asking What and where are well placed universities the book makes the case against placeless education offered in the digital world in favour of education that takes account of its place in time and space
