Opitz, 1970 This book deals with the problem of the proper ordering of our economic affairs within the framework supplied by Christian values introduction **Conservatives and the Constitution** Ken I. Kersch, 2019-03-28 Since the 1980s a ritualized opposition in legal thought between a conservative originalism and a liberal living constitutionalism has obscured the aggressively contested tradition committed to and mobilization of arguments for constitutional restoration and redemption within the broader postwar American conservative movement *Conservatives and the Constitution* is the first history of the political and intellectual trajectory of this foundational tradition and mobilization By looking at the deep stories told either by identity groups or about what conservatives took to be flashpoint topics in the postwar period Ken I Kersch seeks to capture the developmental and integrative nature of postwar constitutional conservatism challenging conservatives and liberals alike to more clearly see and understand both themselves and their presumed political and constitutional opposition *Conservatives and the Constitution* makes a unique contribution to our understanding of modern American conservatism and to the constitutional thought that has in critical ways informed and defined it **Religion and Cooperative Economics** Jamin Andreas Hübner, 2025-07-09 This volume looks at the intersection between religion and cooperative economics through the lens of economic justice It covers world religious traditions and gives particular focus to cooperative organization the social and economic problems of capitalism and the earliest Christian tradition of the Jesus movement It also examines religious and theological discourse in contemporary defenses of neoliberal capitalism and contemporary advocates of cooperatives The book serves to unfold both how and why cooperative economics can and should supplant traditional employer employee relationships a pillar of modern capitalism and revive interest in cooperation worker solidarity and significant social and political reforms [The Conservative Intellectual Movement in America Since 1945](#) George H.
