Religions and Development Emma Tomalin, 2013-07-03 Religion has been excluded from development studies for decades Religious traditions have contributed greatly towards development work yet major international players have tended to ignore its role Recent years have shown a

Beaman,2007-10-30 This volume brings together over 25 articles by many of

the most important authors who have worked on issues directly related to the theme of religion and globalization. An additional emphasis on culture flags the inclusion of the relation of religion to its wider social context and also permits questioning the boundaries of religion so as to avoid a strong bias in favour of the analysis of institutionalized religion. The key emphasis of the book however is the focus specifically on religion, a topic that is still largely ignored in the burgeoning literature on globalization. The articles are divided into five subthemes: theoretical issues, historical approaches to religion and globalization, forms and boundaries of religion, key issues such as ecology and gender, and regional perspectives.

A Greener Faith Roger S. Gottlieb, 2009-10. World making political agenda that far exceeds interest group politics applied to forests and toxic incinerators. Rather, religious environmentalism offers an all-inclusive vision of what human beings are and how we should treat each other and the rest of life. Gottlieb analyzes the growing synthesis of the movement's religious, social, and political aspects as well as the challenges it faces in consumerism, fundamentalism, and globalization.

Religious Tourism and the Environment Kiran A. Shinde, Daniel H. Olsen, 2020-09-30. The remarkable growth in religious tourism across the world has generated considerable interest in the impacts of this type of tourism. Focusing here on environmental issues, this book moves beyond the documentation of environmental impacts to examine in greater depth the intersections between religious tourism and the environment. Beginning with an in-depth introduction that highlights the intersections between religion, tourism, and the environment, the book then focuses on the environment as a resource or generator for religious tourism and as a recipient of the impacts of religious tourism. Chapters included discuss such important areas as theological views, environmental responsibility, and host perspectives.
