**Including People with Disabilities in Faith Communities** Erik W. Carter, 2007 Filled with anecdotes vignettes

thought provoking quotes from experts and community members and specific examples of successful strategies this innovative guide helps faith communities become places of welcome and belonging for people with a wide range of disabilities. *Religion, Disability, and Sustainable Development in Africa* Chioma Ohajunwa, Kudakwashe 'AK' Dube, Ezra Chitando, 2025-02-14 This book investigates the interplay between disability and religion in Africa and what this means in the context of the Sustainable Development Goals. The importance of meeting the needs of people with disabilities is highlighted specifically in several Sustainable Development Goals as well as being emphasised as a cross cutting issue across all the goals. Over 1 billion people are estimated to be living with disabilities and 80% of this population live in the Global South many within Africa. This book argues that within this context religion must be considered as people with disabilities often turn to religion for solace in confronting the daily struggles and pains that they face. Drawing on multiple disciplinary lenses this book reflects on how traditional indigenous Abrahamic and other African minority religions and philosophies interact with disability and how this relates to the Sustainable Development Goals. The book demonstrates how religions in Africa conceptualise, imagine or re-imagine disability in the context of key themes such as gender, ecological justice, health, poverty, education, employment, entrepreneurship and migration. Overall the book invites researchers from across the social sciences to consider how African religious, theological and philosophical ideas can help towards the inclusion of people with disabilities in the 2030 development agenda in Africa.

**A Transformatory Ethic of Inclusion** Jayne Clapton, 2009-01-01 Inclusion is a topical notion which underpins contemporary human service practices and policies within Western Judeo-Christian societies. Inclusion is most often considered within socio-historical and socio-political contexts whereby technical and legislative responses are sought. However this book explores the question: How ethically defensible is the notion of inclusion in relation to people with intellectual disability? The book contends that inclusion is a multifaceted complex concept in a dualistic and dichotomous relationship with exclusion. It is argued that historical and contemporary conceptualisations of exclusion for people with intellectual disability have been constructed from various philosophical and theological matrices imbued with particular values about personhood. Furthermore it is proposed that the ethical significance of inclusion and exclusion in the context of intellectual disability is defined and perpetuated by expressions of a particular socio-symbolic order underpinned by patriarchy and kyriarchy and subjected to two controlling ethics: an Ethic of Normalcy and an Ethic of Anomaly. Inclusion and exclusion are conceived as phenomena relating to how membership is defined, legitimated or repelled by concealed, occluding boundaries acting within a patriarchal socio-ethical fabric. The book argues that Ethical Inclusion is only possible through the rupture of these boundaries by a conceptual tool: A Transformatory Ethic of Inclusion. This conceptual instrument of rupture embraces the scholarship of feminist ethics and feminist theology. Such a rupture requires examining the ways traditional ethical frameworks themselves have conceptually diminished and devalued the authenticity of people with intellectual disability. A concept of integrality becomes imaginable. Conceptual analysis is framed using a crafting metaphor of

a patchwork quilt which is infused with narrative and by which such an ethical exploration is undertaken and impaired traditional ethical theorising is confronted and transformed

**The Routledge Handbook of Disability in Southern Africa** Tsitsi Chataika, 2018-07-27 This comprehensive ground breaking southern African centred collection spans the breadth of disability research and practice Reputable and emerging scholars together with disability advocates adopt a critical and interdisciplinary stance to prove challenge and shift commonly held social understanding of disability in traditional discourses frontiers and practices in prominent areas such as inter national development disability studies education culture health religion gender sports tourism ICT theatre media housing and legislation This handbook provides a body of interdisciplinary analyses suitable for the development of disability studies in southern Africa Through drawing upon and introducing resources from several disciplines theoretical perspectives and personal narratives from disability activists it reflects on disability and sustainable development in southern Africa It also addresses a clear need to bring together interdisciplinary perspectives and narratives on disability and sustainable development in ways that do not undermine disability politics advanced by disabled people across the world The handbook further acknowledges and builds upon the huge body of literature that understands the social cultural educational psychological economic historical and political facets of the exclusion of disabled people The handbook covers the following broad themes Disability inclusion ICT and sustainable development Access to education from early childhood development up to higher education Disability employment entrepreneurship and community based rehabilitation Religion gender and parenthood Tourism sports and accessibility Compelling narratives from disability activists on societal attitudes toward disability media advocacy accessible housing and social exclusion Thus this much awaited handbook provides students academics practitioners development partners policy makers and activists with an authoritative framework for critical thinking and debates that inform policy and practice in incomparable ways with the view to promoting inclusive and sustainable development

**Disability's Challenge to Theology** Devan Stahl, 2022-08-15 Disability's Challenge to Theology uses insights from disability studies to understand in a deeper way the ethical implications that genetic technologies pose for Christian thought Theologians have been debating genetic engineering for decades but what has been missing from many theological debates is a deep concern for persons with genetic disabilities In this ambitious and stimulating book Devan Stahl argues that engagement with metaphysics and a theology of nature is crucial for Christians to evaluate both genetic science and the moral use of genetic technologies such as human genetic engineering gene therapy genetic screenings preimplantation genetic diagnosis and gene editing Using theological notions of creation ex nihilo and natural law alongside insights from disability studies Stahl seeks to recast the debate concerning genetic well being Following the work of Stanley Hauerwas Stahl proposes the church as the locus for reimagining disability in a way that will significantly influence the debates concerning genetic therapies Christianity has all too frequently been complicit in excluding degrading and marginalizing people with disabilities but the new Christian

metaphysics developed here provides normative theological guidance on the use of genetic technologies today Only by heeding the voices of people with disabilities can Christians remain faithful to the call to find Christ in the least of these and from there draw closer to God *Reaching out and Bringing In* David W Anderson, 2013-04-17 *Reaching Out and Bringing In* is designed to help pastors and church leaders develop a biblical perspective on disability and the church's role in ministering to individuals and families affected by disability a must read for those who minister to and with persons with disabilities and even as a Bible study for all Christians Dana Croxton founder of Enable Ministries Dr Anderson's book challenges the church community to reach out to people and families affected by disability and to consider ways the church can minister to and with people with disabilities The book includes insightful and relevant questions at the end of each chapter making it perfect for reading and discussion by church staff church boards and in small group or Sunday school settings Brian Funk area director Joni and Friends Eastern Pennsylvania Lancaster Dr Anderson sounds a wakeup call to the church The book's call for personal heart change is coupled with a challenge to the church to greater action and intentional outreach Vonn Dornbush DMin pastor of missions and outreach Calvary Church Roseville Minnesota

**Religion and Disability** Marilyn Bishop, 1995 In the opening essay noted scripture scholar Donald Senior identifies certain themes often associated with scripture such as the distinction between clean and unclean and the notion that sin and guilt somehow cause sickness and disability that contribute to non-welcoming attitudes to the disabled

**Disability and Christian Theology** Deborah Beth Creamer, 2009-01-05 This book provides a framework for a new theology of disability which begins with the notion that limits are an unsurprising element of human life This profoundly challenges common sense categories of disabled and non-disabled and offers significant new images and possibilities for theological reflection and action

**The Hermeneutical Spirit** Amos Yong, 2017-11-06 In the contemporary biblical studies climate proposals regarding the theological interpretation of Scripture are contested particularly but not only because they privilege encourage and foster ecclesial or other forms of normative commitments as part and parcel of the hermeneutical horizon through which scriptural

texts are read and understood Within this context confessional approaches have been emerging including some from within the nascent pentecostal theological tradition This volume builds on the author s previous work in theological method to suggest a pentecostal perspective on theological interpretation that is rooted in the conviction that all Christian reading of sacred Scripture is post Pentecost meaning after the Day of Pentecost outpouring of the Spirit on all flesh in anticipation of the coming reign of God In that respect such a pentecostal interpretative perspective is not parochially for those within the modern day movement bearing that name but is arguably apostolic in following after the scriptural imagination of the earliest disciples of Jesus the messiah and therefore has ecumenical and missional purchase across space and time The Hermeneutical Spirit thus provides close readings of various texts across the scriptural canon as a model for Christian theological interpretation of Scripture suitable for the twenty first century global context     Spirituality in Nursing Mary O'Brien,2010-10-25 This book explores the relationship between spirituality and the practice of nursing providing students and professionals with invaluable insights from a variety of perspectives Although an effort has been made to include examples of patient needs supported by both data and literature relative to other religious affiliations the overall orientation of the work is derived primarily from the Judeo Christian tradition Preface     *Journal of Moral Theology, Volume 6, Special Issue 2* Miguel J.
