Religion And Politics In Turkey:

Religion and Politics in Turkey Barry Rubin, Ali Carkoglu, 2013-09-13 Over the last decade the once marginal extreme right of the Turkish ideological spectrum has grown in size as well as in influence and has effectively reshaped party competition in Turkey Policy mandates and electoral bases of the rising extreme right rely on potentially explosive social cleavages in the country One such confrontation is between the secularist and pro Islamist forces which has always been one of the centrepieces of modern Turkish politics The rise of pro Islamist electoral forces from a marginal to an undeniably imposing position in Turkish electoral politics has led many to worry that a deep rooted schism has come to the forefront of Turkish politics The frontline of this secularist vs pro Islamist confrontation is quite widespread ranging from a debate around the ban of turban and headscarves in universities to religious education in the country from Islamic principles in the economy to Turkish foreign policy towards the Middle Eastern countries This volume was previously published as a special issue of the journal *Turkish Studies*

Religious Politics in Turkey Ceren Lord, 2018-11-08 Since the elections of 2002 Erdogan s AKP has dominated the political scene in Turkey This period has often been understood as a break from a secular pattern of state building But in this book Ceren Lord shows how Islamist mobilisation in Turkey has been facilitated from

within the state by institutions established during early nation building Lord thus challenges the traditional account of Islamist AKP's rise that sees it either as a grassroots reaction to the authoritarian secularism of the state or as a function of the state's utilisation of religion Tracing struggles within the state Lord also shows how the state's principal religious authority the Presidency of Religious Affairs Diyanet competed with other state institutions to pursue Islamisation Through privileging Sunni Muslim access to state resources to the exclusion of others the Diyanet has been a key actor ensuring persistence and increasing salience of religious markers in political and economic competition creating an amenable environment for Islamist mobilisation

Political Islam and the Secular State in Turkey

Evangelia Axiarlis, 2014-06-20 How safe is Turkey's liberal democracy The rise to power in 2002 of the right leaning Islamic Justice and Development Party ignited fears in the West that Turkey could no longer be relied upon to provide a buffer against the growth of Islamic fundamentalism in the Middle East Once hailed by the West as a model of secularism and moderation in the Muslim world Turkey is now seen to be under the influence of the creeping Islamisation of the JDP or AKP as it is known in Turkey Yet to what extent has this affected the lives of Turkish citizens Evangelia Axiarlis here explores the contribution of the JDP to civil liberties and basic freedoms long suppressed by secular and statist Kemalist ideology and how this has remained unexamined despite more than a decade in government In this the first detailed study of the policies and ideology of Prime Minister Recep Tayyip Erdogan's government the author examines the extent to which the JDP has worked to improve civil life in Turkey and critically addresses whether a government built on Islamic principles can champion political reform Exploring how Islam and democracy are neither monoliths nor mutually exclusive this is a timely contribution to the wider understanding of political Islam

Political Islamists in Turkey and the Gülen Movement Recep Dogan, 2019-10-28 This book explores the struggle and differences between the current governmental power the AKP and the Gülen movement the leading civic Islamic movement in Turkey It discusses the history of relations between the AKP and the Gülen movement and analyzes the reasons that caused tensions and eventually a radical rupture between them In order to help readers to better understand the difference between

Political Islam and civil Islam the project explains the political theology of each group and compares them to each other The author explains the human rights violations restrictions on the media and the destruction of democratic institutions in Erdogan s New Turkey project This is an ideal monograph for scholars interested in the Middle East sociology and political Islam Secularism and Muslim Democracy in Turkey M. Hakan Yavuz,2009-02-19 In 2002 the Islamist Justice and Development Party AKP swept to power in Turkey Since then it has shied away from a hard line ideological stance in favour of a more conservative and democratic approach In this book M Hakan Yavuz negotiates this ambivalence asking whether it is possible for a political party with a deeply religious ideology to liberalise and entertain democracy or whether as he contends radical religious groups moderate their practices and ideologies when forced to negotiate a competitive and rule based political system The author explores the thesis through an analysis of the rise and evolution of the AKP and its more recent 2007 election victory The book which tackles a number of important issues including political participation economics and internal security provides a masterful survey of modern Turkish and Islamic politics which will be of interest to a broad range of readers from students to professionals and policymakers Secularism and State Religion in Modern Turkey Emir Kaya,2017-05-30 The Diyanet the official face of Islam in Turkey is the Presidency of Religious Affairs a governmental department established in 1924 after the break up of the Ottoman Empire and the abolition of Caliphate In this book Emir Kaya offers an in depth multidisciplinary analysis of this vital institution Focusing on the role of the Diyanet in society Kaya explores the balance the institution has to strike between the Muslim traditions of the Turkish population and the secular creed of the Turkish state By examining the various laws that either bolstered or hindered the Diyanet s budgets and activities Kaya highlights the institutional mindsets of the Diyanet membership He also evaluates its successes and failures as a state department that must consistently operate within the context of the religiosity of Turkish society By situating all of this within the two competing but often complimentary concepts of religion and secularism Kaya offers a book that is important for those researching the interplay of Islam and the state in Turkey and beyond *Politics and Gender Identity in Turkey* Umut Korkut,Hande Eslen-Ziya,2017-10-17 The creation of Turkish nationhood citizenship economic transformation the forceful removal of minorities and national homogenisation gender rights the position of armed forces in politics and the political and economic integration of Kurdish minority in Turkish polity have all received major interest in academic and policy debates The relationship between politics and religion in Turkey originating from the early years of the Republicanism has been central to many if not all of these issues This book looks at how centralized religion has turned into a means of controlling and organizing the Turkish polity under the AKP Justice and Development Party governments by presenting the results from a study on Turkish hutbes mosque sermons analysing how their content relates to gender roles and identities The book argues that the political domination of a secular state as an agency over religion has not suppressed but transformed religion into a political tool for the same agency to organise the polity and the society along its own ideological

tenets It looks at how this domination organises gender roles and identities to engender human capital to serve for a neoliberal economic developmentalism The book then discusses the limits of this domination reflecting on how its subjects position themselves between the politico religious authority and their secular lives Written in an accessible format this book provides a fresh perspective on the relationship between religion and politics in the Middle East More broadly it also sheds light on global moral politics and illiberalism and why it relates to gender religion and economics

Women, Religion, and the State in Contemporary Turkey Chiara Maritato, 2020-05-28 Tracing the centrality of women in the definition of Turkish secularism this study investigates the 2003 decision to increase the number of women officers employed by the Presidency of Religious Affairs Diyanet It explores how as professional religious officers the female Diyanet preachers epitomize a pious modern and highly educated woman whose role in society has been raised to prominence Based on extensive fieldwork in Turkey and drawing on a rich ethnography of the activities conducted by Diyanet women preachers in Istanbul Chiara Maritato disentangles the state's attempt to standardize a multifaceted female religious participation In using the feminization of the Diyanet as a prism through which to understand the significance of a renewed presence of Islam in the Turkish public realm she casts light on a broader reformulation of religious services for women and families in Turkey and pinpoints how this pervasive moral support has been able to penetrate and reshape even secular spaces

Rethinking Islam and Liberal Democracy Yeşim Arat, 2012-02-01 In Turkey no secular party has approximated the high levels of membership and intense activism of women within the Islamist Refah Welfare Party Rethinking Islam and Liberal Democracy examines the experiences of these women who represented an unprecedented phenomenon within Turkish politics Using in

depth interviews Ye im Arat reveals how the women of the party broadened the parameters of democratic participation and challenged preconceived notions of what Islam can entail in a secular democratic polity The women of the party successfully mobilized large groups of allegedly apolitical women by crossing the boundaries between the social and the political reaching them through personal networks cultivated in private spaces The experiences of these women show the contentious relationship between liberal democracy and Islam where liberalism that prioritizes the individual can transform coexist or remain in tension with Islam that prioritizes a communal identity legitimized by a sacred God

Religion and the Political Imagination Ira Katznelson, Gareth Stedman Jones, 2010-10-07 The theory of secularisation became a virtually unchallenged truth of twentieth century social science First sketched out by Enlightenment philosophers then transformed into an irreversible global process by nineteenth century thinkers the theory was given substance by the precipitate drop in religious practice across Western Europe in the 1960s However the re emergence of acute conflicts at the interface between religion and politics has confounded such assumptions It is clear that these ideas must be rethought Yet as this distinguished international team of scholars reveal not everything contained in the idea of secularisation was false Analyses of developments since 1500 reveal a wide spectrum of historical processes partial secularisation in some spheres has been accompanied by sacralisation in others Utilising new approaches derived from history philosophy politics and anthropology the essays collected in Religion and the Political Imagination offer new ways of thinking about the urgency of religious issues in the contemporary world

Islam and Political Development in Turkey Toprak, 2022-04-19

Identity, Conflict and Politics in Turkey, Iran and Pakistan Gilles Dorronsoro, Olivier Grojean, 2018-06-15 Ethnic and religious identity markers compete with class and gender as principles shaping the organization and classification of everyday life But how are an individual s identity based conflicts transformed and redefined Identity is a specific form of social capital hence contexts where multiple identities obtain necessarily come with a hierarchy with differences and hence with a certain degree of hostility The contributors to this book examine the rapid transformation of identity hierarchies affecting Iran Pakistan and Turkey a symptom of political fractures social economic transformation and new regimes of subjectification They focus on the state s role in organizing access to resources with its institutions often being the main target of demands rather than competing social groups Such contexts enable entrepreneurs of collective action to exploit identity differences which in turn help them to expand the scale of their mobilization and to align local and national conflicts The authors also examine how identity based violence may be autonomous in certain contexts and serve to prime collective action and transform the relations between communities

The Politics of Secularism in International Relations Elizabeth Shakman Hurd, 2009-01-10 Conflicts involving religion have returned to the forefront of international relations And yet political scientists and policymakers have continued to assume that religion has long been privatized in the West This secularist assumption ignores the contestation surrounding the category of the secular in international politics The Politics of Secularism in International

Relations shows why this thinking is flawed and provides a powerful alternative Elizabeth Shakman Hurd argues that secularist divisions between religion and politics are not fixed as commonly assumed but socially and historically constructed Examining the philosophical and historical legacy of the secularist traditions that shape European and American approaches to global politics she shows why this matters for contemporary international relations and in particular for two critical relationships the United States and Iran and the European Union and Turkey The Politics of Secularism in International Relations develops a new approach to religion and international relations that challenges realist liberal and constructivist assumptions that religion has been excluded from politics in the West The first book to consider secularism as a form of political authority in its own right it describes two forms of secularism and their far reaching global consequences

Freedom of Religion and Belief in Turkey Mine Yıldırım,Özgür Heval Çınar,2014-08-20 The protection of the right to freedom of thought conscience and religion is one of the most basic tenets of a democratic society This right is not only crucial for those who believe but is also so for atheists agnostics and sceptics who have no religious beliefs It is also considered a cornerstone of a democratic society and is closely linked to pluralism tolerance and open mindedness Turkey has been involved in an accession process in order to become a full member of the European Union EU since 2005 The Justice and Development Party Adalet ve Kalkınma Partisi AKP which first formed a government after its election victory of 2002 pledged to introduce reforms and lift prohibitions Hence although the AKP has made significant progress towards meeting the political norms required for EU membership in its twelve years in power there are many outstanding restrictions regarding the right to freedom of thought conscience and religion which remain in place This book provides an overview of recent developments pertaining to the protection of the right to freedom of religion and belief in Turkey a country that in its constitution is defined as a democratic and secular state As it is not feasible to examine all questions in one book this study will confine itself to the most topical and urgent issues
