Shakespeare's Compassion Anne Sophie Refskou, 2025-03-20. This book shows that Shakespeare's dramatization of compassion far from expressing a sense of universal empathy stages a conflicted emotion available to be solicited manipulated and at times even monopolized as a discursive vehicle for the exclusion of others. Drawing on the history of emotions and on Shakespearean classical studies Anne Sophie Refskou argues both that Shakespeare's compassion expresses his own historical and cultural moment and is at the same time the product of his close engagement with literature from the classical past. In so doing she traces a set of recurrent strands in Shakespeare's engagement with discourses of compassion throughout his playwriting career situating them in relation to plays written for the early modern stage by contemporaries including Thomas Kyd George Peele Christopher Marlowe Thomas Nashe John Fletcher and Philip Massinger. Individual chapters offer readings of Titus Andronicus Richard III Hamlet and King Lear by way of comparative analysis of key classical texts including Euripides Hecuba and The Trojan Women Vergil's Aeneid and Ovid's Metamorphoses from which Shakespeare and his fellow playwrights drew sustained inspiration. Together the chapters demonstrate how Shakespeare's engagement with the classical literature from which he inherited a spacious understanding of the social efficacy of emotion enables his dramatization of issues that are central to the current critical field including questions of race gender sexuality and the relationship between human beings and nonhuman animals.

The Shakespearean Wild Jeanne Addison Roberts, 1994-01-01. Socrates is said to have thanked the gods that he was born neither barbarian nor female nor animal. His words conjure up the image of a human being a Greek male at the center of the universe surrounded by wild and threatening forces. To the Western imagination the civilized standard has always been masculine and taken for granted as so until recently Shakespeare's works for all their genius and astonishing empathy are inevitably products of a culture that regards women animals and foreigners as

peripheral and threatening to its chief interests We have been so hypnotized by the most powerful male voice in our language interpreted for us by a long line of male critics and teachers that we have seen nothing exceptionable in his patriarchal premises writes Jeanne Addison Roberts If the culture induced hypnosis is wearing off it is partly because of studies like *The Shakespearean Wild* Plunging into a psychological jungle Roberts examines the distinctions in various Shakespeare plays between wild nature and subduing civilization and shows how gender stereotypes are affixed to those distinctions Taking her cue from Socrates Roberts transports the reader to three kinds of Wilds that impinge on Shakespeare's literary world the mysterious female Wild often associated with the malign and benign forces of nature the animal Wild which offers both reassurance of special human status and the threat of the loss of that status and the barbarian Wild populated by marginal figures such as the Moor and the Jew as well as various hybrids The Shakespearean Wild brims with mystery and menace the exotic and erotic with male and female archetypes projections of suppressed fears and fantasies The reader will see how the male vision of culture exemplified in Shakespeare's work has reduced distorted and oversimplified the potentiality of women
