*Sustainability: Sustainable development* Michael Redclift, 2005 Introducing the reader to sustainability as a concept a contested idea and a political goal this book brings together a range of articles and published papers that have influenced the course of thinking in social science It examines the links between the natural and social sciences as well as the public policies     **The Wealth of Nature** Donald Worster, 1994-10-27 Hailed as one of the most eminent environmental historians of the West by Alan Brinkley in The New York Times Book Review Donald Worster has been a leader in reshaping the study of American history Winner of the prestigious Bancroft Prize for his book *Dust Bowl* Worster has helped bring humanity's interaction with nature to the forefront of historical thinking Now in *The Wealth of Nature* he offers a series of thoughtful eloquent essays which lay out his views on environmental history tying the study of the past to today's agenda for change *The Wealth of Nature* captures the fruit of what Worster calls my own intellectual turning to the land History he writes represents a dialogue between humanity and nature though it is usually reported as if it were simple dictation Worster takes as his point of departure the approach expressed early on by Aldo Leopold who stresses the importance of nature in determining human history Leopold pointed out that the spread of bluegrass in Kentucky for instance created new pastures and fed the rush of American settlers across the Appalachians which affected the contest between Britain France and the U S for control of the area Worster's own work offers an even more subtly textured understanding noting in this example for instance that bluegrass itself was an import from the Old World which supplanted native vegetation a form of environmental imperialism He ranges across such areas as agriculture water development and other questions examining them as

environmental issues showing how they have affected and continue to affect human settlement Environmental history he argues is not simply the history of rural and wilderness areas cities clearly have a tremendous impact on the land on which they depend for their existence He argues for a comprehensive approach to understanding our past as well as our present in environmental terms Nostalgia runs all through this society Worster writes fortunately for it may be our only hope of salvation These reflective and engaging essays capture the fascination of environmental history and the beauty of nature lost or endangered underscoring the importance of intelligent action in the present The San Francisco Bay Area -- on Shaky Ground Association of Bay Area Governments,1995 *Six Monologues 1990-2007* Jeff McMahon,2017 SIX MONOLOGUES 1990 2007 by Jeff McMahon collects six of McMahon s works that span across socio political queer and historical frames of discourse DISCONTENTS SCATTER CITY OF GOD HEEL HONORABLE DISCHARGE FAILURE TO THRIVE we small hours Provocative witty daring and compassionate these works are a testament to McMahon s singular vision This edition is part of NoPassport Press Dreaming the Americas Series **Jeff, the Roofer, Reflections of a Double Negative Life** Jeffrey Poppy,2009-11 Writer Jeffrey Poppy writes a stunningly candid book based on his life experiences in Jeff the Roofer Reflections of a Double Negative Life Poppy was born into life with drama as a newborn he had to have a blood transfusion Growing up with an abusive father he relived the abuse by self destruction through his teenage years and into adulthood Poppy played out his destruction in various ways a near death gunshot wound alcoholism drugs three failed marriages six trips to rehab and then homeless All avenues led to the same place his own inner demons until he entered an in house treatment center Upon release Poppy traveled to Amsterdam and met his muse who inspired his creative poetry Poppy entered a song writing contest won second place and traveled back to the United States landing in Nashville Tennessee He recorded 42 of his own songs all inspired by his tenuous and amazing journey that finally released his demons and enabled him to find his own path Jeff the Roofer Reflections of a Double Negative Life begins with the song The Times that illustrates his quests and questions of life s meaning for him and the song Just Another Day takes him on the journey from inner strife to see freedom and triumph over self destructive and abusive ways Interwoven with heart wrenching storytelling are 28 compositions that chronicle his unsteady journey to recovery This beautifully descriptive book is a compelling and inspiring narration of prose and lyrics that expertly encapsulate one man s escape from the cycle of abuse and self destruction Jeffrey Poppy is a writer poet songwriter and craftsman Mr Poppy is currently writing his second novel and lives with his beloved dog in Durant Oklahoma Publisher s website <http://www.strategicpublishinggroup.com> title JeffTheRooferReflectionsOfADouble NegativeLife htm *From #RhodesMustFall Movements to #HumansMustFall Movements* Artwell Nhemachena,Jairos Kangira,2021-05-14 Might it be possible that the world is being migrated into an era where the imperial periphery will be increasingly governed through Artificial Intelligence AI and robotics designed to replace human beings Celebrated as efficient strong unfailing tireless precise and beyond corruption AI and robots are set to replace
