Shamanic Psychopomp:

Death Walkers David Kowalewski PhD, 2015-08-19 It may be one of the most complex questions ever asked What really happens to the soul after death Some discarnate souls may cross over others may stay in the earthy realm to help or protect family members and other earthbound souls may need to work through psychospiritual dilemmas before being escorted to the Other Side with help from a shaman psychopomp Dr David Kowalewski relies on personal experiences and his studies with shamans of many continents to illuminate the mysterious worlds of life death and afterlife and share an inside look at the ancient craft of psychopomping While presenting over ninety cases of psychopomp work Dr Kowalewski offers statistics that explain why souls become earthbound relay how often unfamiliar spirits show up during journeys and provide reasons why shamanic protocols practices and adventures with the dead in daily life can help the task along Included are other fascinating examples of psychopomp practices of indigenous peoples from around the world Death Walkers shares compelling stories and evidence for why there are ghosts around us and the important role shamans play in guiding these earthbound souls to their final resting places Drawing on first hand accounts and cross cultural research David Kowalewski offers us an engaging Western perspective on the art and methods of the psychopomp Bill Plotkin PhD author of Soulcraft This is an important book for the times we live in for as people die more consciously the more conscious the earth becomes Sandra Ingerman MA author of Soul Retrieval

Shamanic Psychopomp F. J. Fritz, 2003-07-01 Throughout time the shaman has carried the responsibility of escorting the souls of kindred members to the realms of beyond Today this service is still greatly needed Although the knowledge of how to accomplish this task has faded as the close knit tribal community has given way to modern civilization shamanic practitioners are discovering the call to guide souls or to act as a psychopomp inadvertently through their ecstatic journeys Legendary works such as *Pert em hur* *Bardo Th dol* and *Ars Moriendi* provided a map of the afterlife But what is the destiny of those who have not been exposed to these manuals of post mortem navigation Without this directional knowledge many souls become stuck in the liminal space between realms Thus the need of a guide to assist in completing the crossing Presented in an effort to provide the seasoned practitioner familiar with the basic concepts of shamanism with a guide I provide first hand accounts to assist the reader with examples of how to accomplish the sacred task of psychopomp Additionally I explore why some spirits are unable to complete the crossing and how the shamanic practitioner deals with the trauma entailed in performing the role of psychopomp

Divination and the Shamanic Story Michael Berman, 2009-03-26 Stories have traditionally been classified as epics myths sagas legends folk tales fairy tales parables or fables However the definitions of the terms have a tendency to overlap making it difficult to classify and categorize material For this reason a case can be made for the introduction of a new genre termed the shamanic story a story that has either been based on or inspired by a shamanic journey a numinous experience in non ordinary reality or one that contains a number of the elements typical of such a journey Other characteristics include the way in which the stories all

tend to contain embedded texts often the account of the shamanic journey itself how the number of actors is clearly limited as one would expect in subjective accounts of what can be regarded as inner journeys and how the stories tend to be used for healing purposes Within this new genre it is proposed that there exists a sub genre shamanic stories that deal specifically with divination and examples are presented and analysed to support this hypothesis By means of textual analysis it can be shown they all share certain attributes in common the identification of which forms the conclusion of the work

The Nature of Shamanism and the Shamanic Story Michael Berman, 2009-03-26 The book makes out a case for the introduction of a new genre of tale the shamanic story which has either been based on or inspired by a shamanic journey or contains a number of the elements that are typical of such a journey The stories featured are the Book of Jonah from the Old Testament two traditional stories from the Republic of Georgia The Earth will take its Own and Davit a contemporary German tale Bundles and the Korean story of Shimchong the Blindman's Daughter By making use of textual material from a number of different cultures and times the intention is to highlight the pervasive influence shamanism has had and to show how the new genre being proposed is a universal one The research questions addressed include 1 defining what shamanism is deciding whether it should be classified as a religion a methodology or a way of life 2 considering whether a case can be made out for the introduction of a new genre of tale and if so what its characteristics are It is hoped the book will be of interest not only to those involved in the study of shamanism but also to those whose interest is in the study of literary texts Since the old bearers of shamanic traditions quite often were and even today are illiterate the study of their folklore epic songs laments narratives undoubtedly provides a rich source for research

Soul Loss and the Shamanic Story Michael Berman, 2009-03-26 Stories

from various cultures and periods of time can be identified which deal with a concept of soul loss that is essentially shamanic. In shamanism soul loss is the term used to describe the way parts of the psyche become detached when we are faced with traumatic situations. In shamanic terms these split off parts can be found in non ordinary reality and are only accessible to those familiar with its topography. Case studies are presented to show how the way soul loss is dealt with by indigenous shamans differs from the way it is treated by neo shamanic practitioners. Stories have traditionally been classified as epics, myths, sagas, legends, folk tales, fairy tales, parables, and fables. However, the definitions of the terms have a tendency to overlap, making it difficult to classify and categorize material. For this reason, a case can be made for the introduction of a new genre termed the shamanic story, a story that has either been based on or inspired by a shamanic journey, a numinous experience in non ordinary reality, or one that contains a number of the elements typical of such a journey. Within this new genre, it is proposed that there exists a sub genre shamanic stories that deal specifically with soul loss, and examples are presented and analysed to support this hypothesis.
