An Encyclopedia of Shamanism Volume 1 Christina Pratt, 2007-08-01 Shamanism can be defined as the practice of initiated shamans who are distinguished by their mastery of a range of altered states of consciousness Shamanism arises from the actions the shaman takes in non ordinary reality and the results of those actions in ordinary reality It is not a religion yet it demands spiritual discipline and personal sacrifice from the mature shaman who seeks the highest stages of mystical development

Women Who Fly Serinity Young, 2018-01-02 From the beautiful apsaras of Hindu myth to the swan maidens of European fairy tales stories of flying women some carried by wings others by clouds rainbows floating scarves and flying horses reveal the perennial fascination with and ambivalence about female power and sexuality In *Women Who Fly* Serinity Young examines the motif of the flying woman as it appears in a wide variety of cultures and historical periods in legends myths rituals sacred narratives and artistic productions She considers supernatural women like the Valkyries of Norse legend who transport men to immortality winged deities like the Greek goddesses Iris and Nike figures of terror like the Furies witches and succubi airborne Christian mystics and wayward dangerous women like Lilith and Morgan le Fay Looking beyond the supernatural Young examines the modern mythology surrounding twentieth century female aviators like Amelia Earhart and Hanna Reitsch Throughout Young demonstrates that female power has always been inextricably linked with female sexuality and that the desire to control it is a pervasive theme in these stories This is vividly depicted for example in the twelfth century *Nibelungenlied* in which the proud warrior queen Brunnhilde loses her great physical strength when she is tricked into surrendering her virginity Even in the twentieth century the same idea is reflected in the exploits of the comic book and film character Wonder Woman who Young suggests retains her physical strength only because her love for fellow aviator Steve Trevor goes unrequited The first book to systematically chronicle the figure of the flying woman in myth literature art and pop culture *Women Who Fly* offers a fresh look at the ways in which women have both influenced and been understood by society and religious traditions throughout the ages and around the

world *Myth and Meaning* J. D. Lewis-Williams, 2016-07-01 J D Lewis Williams one of the leading South African archaeologists and ethnographers excavates meaning from the complex mythological stories of the San Bushmen to create a larger theory of how myth is used in culture He extracts their nuggets the far reaching but often unspoken words and concepts of language and understanding that are opaque to outsiders to establish a more nuanced theory of the role of these myths in the thought world and social circumstances of the San The book draws from the unique 19th century Bleek Lloyd archives more recent ethnographic work and San rock art includes well known San stories such as The Broken String Mantis Dreams and Creation of the Eland extrapolates from our understanding of San mythology into a larger model of how people create meaning from myth *Practicing Islam* David W. Montgomery, 2016-11-23 David W Montgomery presents a rich ethnographic study on the practice and meaning of Islamic life in Kyrgyzstan As he shows becoming and being a Muslim are based on knowledge acquired from the surrounding environment enabled through the practice of doing Through these acts Islam is imbued in both the individual and the community To Montgomery religious practice and lived experience combine to create an ideological space that is shaped by events opportunities and potentialities that form the context from which knowing emerges This acquired knowledge further frames social navigation and political negotiation Through his years of on the ground research Montgomery assembles both an anthropology of knowledge and an anthropology of Islam demonstrating how individuals make sense of and draw meanings from their environments He reveals subtle individual interpretations of the religion and how people seek to define themselves and their lives as good within their communities and under Islam Based on numerous in depth interviews bolstered by extensive survey and data collection Montgomery offers the most thorough English language study to date of Islam in post Soviet Kyrgyzstan His work provides a broad view into the cognitive processes of Central Asian populations that will serve students researchers and policymakers alike *Being Scioto Hopewell: Ritual Drama and Personhood in Cross-Cultural Perspective* Christopher Carr, 2022-01-05 This book in two volumes breathes fresh air empirically methodologically and theoretically into understanding the rich ceremonial lives the philosophical religious knowledge and the impressive material feats and labor organization that distinguish Hopewell Indians of central Ohio and neighboring regions during the first centuries CE The first volume defines cross culturally for the first time the ritual drama as a genre of social performance It reconstructs and compares parts of 14 such dramas that Hopewellian and other Woodland period peoples performed in their ceremonial centers to help the soul like essences of their deceased make the journey to an afterlife The second volume builds and critiques ten formal cross cultural models of personhood and the self and infers the nature of Scioto Hopewell people s ontology Two facets of their ontology are found to have been instrumental in their creating the intercommunity alliances and cooperation and gathering the labor required to construct their huge multicomunity ceremonial centers a relational collective concept of the self defined by the ethical quality of the relationships one has with other beings and a concept of multiple soul like essences that compose a human

being and can be harnessed strategically to create familial like ethical bonds of cooperation among individuals and communities The archaeological reconstructions of Hopewellian ritual dramas and concepts of personhood and the self and of Hopewell people s strategic uses of these are informed by three large surveys of historic Woodland and Plains Indians narratives ideas and rites about journeys to afterlives the creatures who inhabit the cosmos and the nature and functions of soul like essences coupled with rich contextual archaeological and bioarchaeological taphonomic analyses The bioarchaeological taphonomic method of l anthropologie de terrain new to North American archaeology is introduced and applied In all the research in this book vitalizes a vision of an anthropology committed to native logic and motivation and skeptical of the imposition of Western world views and categories onto native peoples We Heal from Memory C. Steele,2016-04-30 Through an examination of the poetry of Anne Sexton Audre Lorde and Gloria Anzald a We Heal From Memory paints a vivid picture of how our culture carries a history of traumatic violence child sexual abuse the ownership and enforcement of women s sexuality under slavery the transmission of violence through generations and the destruction of non white cultures and their histories through colonization According to Cassie Premo Steele the poetry of Sexton Lorde and Anzald a allows us to witness and to heal from such disparate traumatic events *Ordinary Enchantments* Wendy B. Faris,2004 Ordinary Enchantments investigates magical realism as the most important trend in contemporary international fiction defines its characteristics and narrative techniques and proposes a new theory to explain its significance In the most comprehensive critical treatment of this literary mode to date Wendy B Faris discusses a rich array of examples from magical realist novels around the world including the work not only of Latin American writers like Gabriel Garcia Marquez but also of authors like Salman Rushdie Gunter Grass Toni Morrison and Ben Okri Faris argues that by combining realistic representation with fantastic elements so that the marvelous seems to grow organically out of the ordinary magical realism destabilizes the dominant form of realism based on empirical definitions of reality gives it visionary power and thus constitutes what might be called a remystification of narrative in the West Noting the radical narrative heterogeneity of magical realism the author compares its cultural role to that of traditional shamanic performance which joins the worlds of daily life and that of the spirits Because of that capacity to bridge different worlds magical realism has served as an effective decolonizing agent providing the ground for marginal voices submerged traditions and emergent literatures to develop and create masterpieces At the same time this process is not limited to postcolonial situations but constitutes a global trend that replenishes realism from within In addition to describing what many consider to be the progressive cultural work of magical realism Faris also confronts the recent accusation that magical realism and its study as a global phenomenon can be seen as a form of commodification and an imposition of cultural homogeneity And finally drawing on the narrative innovations and cultural scenarios that magical realism enacts she extends those principles toward issues of gender and the possibility of a female element within magical realism **Descenders to the Chariot** James Davila,2021-11-22 The Hekhalot literature is a

bizarre conglomeration of Jewish esoteric and revelatory texts in Hebrew and Aramaic produced sometime between late antiquity and the early Middle Ages and surviving in medieval manuscripts These texts claims to describe the self induced spiritual experiences of the descenders to the chariot and to reveal the techniques that permitted these magico religious practitioners to view for themselves Ezekiel s Merkavah as well as to gain control of angels and a supernatural mastery of Torah Drawing on epigraphic and archaeological evidence from the Middle East anthropological models and a wide range of cross cultural evidence this book aims to show that the Hekhalot literature preserves the teachings and rituals of real religious functionaries who flourished in late antiquity and who were quite like the functionaries anthropologists call shamans
