Perkinson, 2005-07-07 Shamanism Racism and Hip Hop Culture is a groundbreaking collection of essays exploring the five hundred year history of white Christian hegemony that has so profoundly shaped American society James W Perkinson explores the idea that American identity and history are profoundly informed by an on going interweaving of white entitlement and black disenfranchisement that constrains other forms of cultural struggle

Historical Dictionary of Shamanism Graham Harvey, Robert J. Wallis, 2015-12-15 A remarkable array of people have been called shamans while the phenomena identified as shamanism continues to proliferate This second edition of the Historical Dictionary of Shamanism contains with examples from antiquity up to today and from Siberia where the term shaman originated to Amazonia South Africa Chicago and many other places Many claims about shamans and shamanism are contentious and all are worthy of discussion In the most widespread understandings terms seem to refer particularly to people who alter states of consciousness or enter trances in order to seek knowledge and help from powerful other than human persons perhaps spirits But this says only a little about the artists community leaders spiritual healers or hucksters travelers in alternative realities and so on to which the label shaman has been applied This second edition contains a chronology an introduction and extensive bibliography The dictionary contains over 500 cross referenced dictionary entries on individuals groups practices and cultures that have been called shamanic This book is an excellent access point for students researchers and anyone wanting to know more about Shamanism

The A to Z of Shamanism Graham Harvey, Robert J. Wallis, 2010-04-01 Few religious traditions have generated such diversity and stirred imaginations as shamanism In their engagements with other worlds shamans have conversed with animals and ancestors and have been empowered with the knowledge to heal patients advise hunters and curse enemies Still other shamans aided by rhythmic music or powerful plant helpers undertake journeys into different realities where their actions negotiate harmony between human and other than human communities Once relegated to paintings on cave walls today Shamanism can be seen in performances at rave clubs and psychotherapeutic clinics The A to Z of Shamanism has the dual task of exploring the common ground of shamanic traditions and evaluating the diversity of both traditional indigenous communities and individual Western seekers This is done in an introduction a bibliography a chronology and hundreds of cross referenced dictionary entries which explore the consistent features of a variety of shamans the purposes shamanism serves the function and activities of the shaman and the cultural contexts in which they make sense

form rap music to address issues affecting black lives while also exploring subjects fundamental to the human experience such as religious belief This book is the first to provide an interdisciplinary academic analysis of the impact of Lamar's corpus In doing so it highlights how Lamar's music reflects current tensions that are keenly felt when dealing with the subjects of race religion and politics Starting with Section 80 and ending with DAMN this book deals with each of Lamar's four major projects in turn A panel of academics journalists and hip hop practitioners show how religion in particular black spiritualities take a front and center role in his work They also observe that his astute and biting thoughts on race and culture may come from an African American perspective but many find something familiar in Lamar's lyrical testimony across great chasms of social and geographical difference This sophisticated exploration of one of popular culture's emerging icons reveals a complex and multi faceted engagement with religion faith race art and culture As such it will be vital reading for anyone working in religious African American and hip hop studies as well as scholars of music media and popular culture

Religion, Race, and COVID-19 Stacey M. Floyd-Thomas, 2022-02-15 This book analyzes how the particular dynamics and effects emerging from the COVID 19 crisis both impact and are perceived by its most vulnerable yet visionary populations based on their pragmatic and prescient analysis of the American experiment of freedom with regards to race and religion Without a doubt this book addresses the various ways the COVID 19 crisis marks not merely a moment in time but also a world historical event that threatens to leave its imprint on lives and cultures for decades to come Political Spirituality in the Face of Climate Collapse James W. Perkinson, 2024-07-08 This book takes its motive force from our contemporary climate crisis It seeks to reorient human and especially Christian understanding towards a more ecologically focused indigenously informed way of living James W Perkinson argues that our current eco climatic and socio political emergency is the culmination of a 5 000 year history of supremacist settlement in which city states first emergent in Mesopotamia and Egypt not only begin coercively organizing labor into surplus production and ecosystems into inordinate and destructive yields of goods but in the process also simultaneously deform the Spirit World haloing of natural phenomenon into outsized service of imperial reach Perkinson recognizes globalized humanity as an emerging monstrosity destroying both human culture and the world How we re envision and revalue at our critical juncture our inescapable interdependence with the more than human world as peer and teacher and even elder is the central theme that throbs below the surface of the very disparate topics commanding attention in each chapter **Interrupting White Privilege** Laurie M. Cassidy, Alexander Mikulich, 2007 More than twenty five years have passed since the publication in 1979 of *Brothers and Sisters to Us* the U S Bishops statement against racism and during this time white Catholic theologians have remained relatively silent on this topic In this hard hitting study prominent Roman Catholic theologians address white privilege and the way it contributes to racism They maintain that systems of white privilege are a significant factor in maintaining evil systems of racism in our country and that most white theologians and ethicists remain ignorant of their negative impact The Handbook of Critical Intercultural

Theologising Brexit Anthony G. Reddie, 2019-06-03 This book offers a comprehensive analysis of the theological challenge presented by the new post Brexit epoch The referendum vote for Britain to leave the European Union has led to a seismic shift in the ways in which parts of the British population view and judge their compatriots The subsequent rise in the reported number of racially motivated incidents and the climate of vilification and negativity directed at anyone not viewed as authentically British should be a matter of concern for all people The book is comprised of a series of essays that address varying aspects of what it means to be British and the ways in which churches in Britain and the Christian faith could and should respond to a rising tide of White English nationalism It is a provocative challenge to the all too often tolerated xenophobia as well as the paucity of response from many church leaders in the UK This critique is offered via the means of a prophetic postcolonial model of Black theology that challenges the incipient sense of White entitlement and parochial nativism that pervaded much of the referendum debate The essays in this book challenge the church and wider society to ensure justice and equity for all not just a privileged sense of entitlement for some It will be of keen interest to any scholar of Black political and liberation theology as well as those

involved in cultural studies from a postcolonial perspective Decolonizing Ecotheology S. Lily Mendoza, George Zachariah, 2022-02-18 Decolonizing Ecotheology Indigenous and Subaltern Challenges is a pioneering attempt to contest the politics of conquest commodification and homogenization in mainstream ecotheology informed by the voices of Indigenous and subaltern communities from around the world The book marshals a robust polyphony of reportage wonder analysis and acumen seeking to open the door to a different prospect for a planet under grave duress and a different self assessment for our own species in the mix At the heart of that prospect is an embrace of soils and waters as commons and a privileging of subaltern experience and marginalized witness as the bellwethers of greatest import Of course decolonization finds its ultimate test in the actual return of land and waters to precontact Indigenous who yet have feet on the ground or paddles in the waves and who conjure dignity and vision in the manifold of their relations in spite of ceaseless onslaught and dismissal Their courage is the haunt these pages hallow like an Abel never entirely erased from the history May the moaning stop and the re creation begin **Black Theology in Britain** Michael N. Jagessar, Anthony G. Reddie, 2016-04-08 Black theology as a discipline emerged in 1960s America growing out of the experiences of Black people of the African Diaspora as they sought to re interpret the central ideas of Christianity in light of struggle and oppression However a form of Black theology has been present in Britain since the time of slavery Black Theology in Britain offers the first comprehensive survey of Black theology tracing its development in Britain from the eighteenth century to today The essays cover a wide range of topics Black Liberation drama as a medium for Black theology the perspective of Black women Black theology in the pulpit and pastoral care and the work of Robert Beckford and Anthony Reddie Black Theology in Britain is a key resource for students of British history cultural studies Black theology and religious studies **The Souls of Jewish Folk** James M. Thomas, 2023-10 The Souls of Jewish Folk argues that late nineteenth century Germany s struggle with its Jewish question what to do with Germany s Jews served as an important and to date underexamined influence on W E B Du Bois s considerations of America s anti Black racism at the turn of the twentieth century Du Bois is wellknown for his characterization of the twentieth century s greatest challenge the problem of the color line This proposition gained prominence in the conception of Du Bois s The Souls of Black Folk 1903 which engages the questions of race racial domination and racial exploitation James M Thomas contends that this conception of racism is haunted by the specter of the German Jew In 1892 Du Bois received a fellowship for his graduate studies at the University of Berlin from the John F Slater Fund for the Education of Freedmen While a student in Berlin Du Bois studied with some of that nation s most prominent social scientists What The Souls of Jewish Folk asks readers to take seriously then is how our ideas and indeed intellectual work itself are shaped by and embedded within the nexus of people places and prevailing contexts of their time With this book Thomas examines how the major social political and economic events of Du Bois s own life including his time spent living and learning in a late nineteenth century Germany defined in no small part by its violent anti Semitism constitute the soil from which his most serious ideas about race racism
