Redemptive Dreams Jason S. Sexton,2023-11-10 An essential piece in California Studies Redemptive Dreams Engaging Kevin Starr s California offers the first critical engagement with the vision of California s most ambitious interpreter While Starr s multifaceted and polymathic vision of California offered a unique gaze synthesizing central features big themes and incredible problems with the propitious golden dream his eight volume California Dream series along with several other

books and thousands of published articles and essays often puzzled historians and other scholars. Historians in the contemporary school of critical historiography often found Starr's narrative approach seeking to tell the internal drama of the California story to be less attuned to the most important work happening in the field. Such a perspective fails to acknowledge key developments in historical subfields like Black and African American Studies, Chicana/o Studies, Asian Studies, Native Studies, and others that draw from the narrative in their critical work and how this relates to Starr's contribution. But it also neglects Starr as a theological interpreter. Along with being a major figure in California institutional life with literary output spanning genres from journalism to critical cultural and political commentary to history and memoir, Starr's unique contribution to California Studies as a distinctly Catholic historian has yet to be adequately understood. Through his lived experience as a devout Catholic to the particular theological features of this faith tradition that animated his views, this critical sociological perspective sheds new light on his project. With contributions from sociology, history, and theology akin to investigations appearing in *Theology and California: Theological Refractions on California's Culture* (Routledge), *Redemptive Dreams* offers interdisciplinary perspectives that highlight key features inherent in interdisciplinary theological reflection on place and illuminates these diverse disciplinary discourses as they appear in Starr's articulation of the California Dream. Such a vision remains important for reckoning with California's place in the world.

Queer Sites

David Higgs, 2002-01-04. There are areas which can be described as gay space in that they have many lesbians and gays in the population. *Queerspace: A History of Urban Sexuality* edited by David Higgs offers a history of gay space in the major cities from the early modern period to the present. The book focuses on the changing nature of queer experience in London, Amsterdam, Rio de Janeiro, San Francisco, Paris, Lisbon, and Moscow. This book provides an interdisciplinary analysis of extensive source material including diaries, poems, legal accounts, and journalism. By concentrating on the importance of the city and varied meeting places such as parks, river walks, bathing places, the street bars, and even churches, the contributors explore the extent to which gay space existed, the degree of social collectiveness felt by those who used this space, and their individual histories.

Historic San Francisco

Rand Richards, 2007. No American city has a more colorful history than San Francisco. In this unique book, author Rand Richards not only provides a vivid narrative of this special city from its very beginnings all the way through to the modern era but also tells where to find the historic buildings, sites, museums, and artifacts that make that history come alive. Just a few of the things you will find in *Historic San Francisco* are the locations of and the fascinating histories behind: A 1623 Spanish cannon that once guarded the entrance to the Golden Gate; A gold nugget discovered by James Marshall at Coloma in January 1848; The last surviving Nob Hill mansion; Relics from the 1906 earthquake and fire including clusters of melted dimes and pennies found in the ruins. Shanghaiing Sailors Mark Strecker, 2014-05-19 Shanghaiing or forcing a man to join the crew of a merchant ship against his will plagued seafarers the world over between 1849 and 1915 Perpetrators were known as crimps and they had no respect for a man's education social status race religion or seafaring experience The merchant ships were involved in the opium tea and gold trades and the practice was spurred by the opening of the Suez Canal A major reason for it was a shortage of sailors and the unwillingness of seamen to sail on certain types of ships They suffered from great deprivations all for a paltry sum usually squandered during shore leave Navies and pirates had their own form of shanghaiing called impressment This work explores the rich history of shanghaiing and impressment with a focus on victims and also considers the 19th century seafarer and the circumstances that made shanghaiing so lucrative
