acknowledge Architecture and Nationalism in Sri Lanka Anoma Pieris, 2013 The role of the home the domestic sphere and the intimate ethno cultural identities that are cultivated within it are critical to understanding the polemical constructions of country and city tradition and modernity and regionalism and cosmopolitanism The home is fundamental to ideas of the homeland that give nationalism its imaginative form and its political trajectory This book explores positions that are vital to ideas of national belonging through the history of colonial bourgeois self fashioning and post colonial identity construction in Sri Lanka The country remains central to related architectural discourses due to its emergence as a critical site for regional architecture post independence Suggesting patterns of indigenous accommodation and resistance that are expressed through built form the book argues that the nation grows as an extension of an indigenous private sphere ostensibly uncontaminated by colonial influences domesticating institutions and appropriating rural geographies in the pursuit of its hegemonic ideals This ambitious comprehensive wide ranging book presents an abundance of new and original material and many imaginative insights into the history of architecture and nationalism from the mid nineteenth century to the present day

**"Useless to the State"** Zwia Lipkin, 2020-03-17 In 1911 Joseph Bailie a professor at Nanjing University often took his Chinese students to tour Nanjing's shantytowns One student the son of a district magistrate followed Bailie from hut to hut one rainy day and was grateful that Bailie opened his eyes to the poverty in his own city However twenty years later when M R Schafer another Nanjing University professor showed his students a film that included his own photographs of the poor quarters of Nanjing his students were so upset that they demanded his expulsion from China Zwia Lipkin explores the reasons for these starkly different reactions Nanjing in the 1910s was a quiet city compared to 1930s Nanjing which was by that time the national capital Nanjing had become a symbol of national authority

aiming not only to become a model of modernization for the rest of China but also to surpass Paris London and Washington Underlying all of Nanjing s policies was a concern for the capital s image and looks offensive people were allowed to exist as long as they remained invisible Lipkin exposes both the process of social engineering and the ways in which the suppressed reacted to their abuse Like Professor Schafer s movie this book puts the poor at the center of the picture defying efforts to make them invisible     *Slums of the World* ,
