Shaping The Easter Feast:

Shaping the Easter Feast Anscar J. Chupungco, 1992 Explore how Easter is a celebration intrinsically linked to nature

Passover and Easter Paul F. Bradshaw, Lawrence A. Hoffman, 2000-02-15 Passover and Easter constitute for Jews and Christians respectively the most important festivals of the year Although sharing a common root the feasts have developed in quite distinct ways in the two traditions in part independently of one another and in part in reaction against the other Following the pattern set in earlier volumes in this series these two volumes bring together a group of distinguished Jewish and Christian scholars to explore the history of the two celebrations paying particular attention to similarities and connections between them as well as to differences and contrasts They not only present a convenient summary of current historical thought but also open up new perspectives on the evolution of these annual observances Volume 5 in the series focuses especially on the origins and early development of the feasts and on the way that established practices have changed in recent years Volume 6 also in the series focuses on the contexts in which they occur the periods of preparation for the feasts in the respective calendars and their connection to Shavuot Pentecost as well as to their traditional expression in art and music At the same time the essays raise some fundamental questions about the future Have modern human beings so lost the sense of sacred time in their lives for instance that these great feasts can never again be what they once were for former generations of believers And what about recent attempts by some Christians to enter into their heritage by celebrating a Jewish Seder as part of their annual Holy Week and Easter services Specialists and general readers alike will find much to interest and challenge them within these two additions to what has become a highly regarded series in the world of liturgical scholarship

Re-Forming the Liturgy Paul Galbreath, 2019-04-18 Christian worship is always undergoing change as it adapts to particular contexts and concerns This collection of essays explores ways 1 that liturgical change happened to address particular historical and theological concerns 2 that worship and preaching are currently undergoing transition and 3 that aspects of worship are in need of transformation in order to address primary issues of our time with a focus on environmental and ecological concerns Spacial attention is paid to the role of the Sacraments and to preaching with an emphasis on the need to connect worship with daily life These essays show readers ways that liturgical renewal worked in the past as well as offer a persuasive case for continual renewal that responds to key issues in our contemporary lives
