## **Shaping Your Child's Sexual Identity:**

*Shaping Your Child's Sexual Identity* George Alan Rekers, 1982      Fit to Teach Jackie M. Blount, 2006-07-03 Examines the construction of gender in public school employment      **Family Bonds** Ellen K. Feder, 2007-08-06 Feminist and critical race theorists alike have long acknowledged the intersection of gender and race difference it is by now a truism that the ways we become boys and girls men and women cannot be disentangled from the ways we become white or Black men and women Asian or Latino boys and girls And yet even as many have sought to attend to this intersection of difference most critical treatments focus finally either on the production of gender or the production of race Family Bonds proposes a new way to think about the categories of gender and race together It first explicates and then puts to work Foucault's archaeological and genealogical methods to advance the main argument of the book Gender is best understood primarily as a function of disciplinary power operating within the family while race is primarily a function of a regulatory power acting upon the family Each of the book's central chapters is an individual story or history the founding of Levittown the definitive suburb after the Second World War 1950s and 60s the development of the diagnosis of Gender Identity Disorder 1970s and 1980s and the federal coordination of scientific research on violence 1980s and 1990s Together they make up a larger story about the construction of race and gender in the U S in the second half of the twentieth century and demonstrate the centrality of the family in these constructions Rather than a formal study of Foucault's own work Family Bonds is an effort to produce genealogies of the sort that Foucault himself hoped his work would prompt      Transsexualism Colette Chiland, 2003-01-01 Transsexualism is a stimulating proactive and important book Colette Chiland does not back away from difficult issues She forces all of us to look at our assumptions about transsexualism and to re-examine what gender and sex really mean Christine Ware author of *Where Id Was* Challenging Normalization in Psychoanalysis In a nutshell the book offers a much needed alternative view of transsexuality from a psychiatric and European point of view Chiland's interesting and well presented book is a valued reminder of how different the same topic can appear in an alternative perspective *Transgender Tapestry* Colette Chiland exhibits a masterful and encyclopedic knowledge of transsexualism drawing together the insights of depth psychology psychoanalysis history anthropology and sociology for rethinking transsexualism in terms of identity subjectivity and the wider socio-historical world This book is written with considerable precision on complex technical issues whilst at the same time keeping the broader question of the relationship between transsexualism and society firmly in mind      **Queer Science** Simon LeVay, 1996-05-14 What makes people gay lesbian bisexual or heterosexual And who cares Written by one of the leading scientists in the research of sexual orientation Queer Science looks at how scientific discoveries about homosexuality influence society's attitude toward gays and lesbians beginning with the theories of the German sexologist and gay rights pioneer Magnus Hirschfeld and culminating with the latest discoveries in brain science genetics endocrinology and cognitive psychology      **How and When to Tell Your Kids about Sex** Stan Jones, Brenna

both the Global South and Global North that spans figures works and eras from antiquity to our late modern present These readings demonstrate that race gender and sex are performed in the Global South radically differently from in the Global North These three notions as markers of identity are fluid open and expansive and Kiros brilliantly shows this through inquiry into thought rooted in Egypt Ethiopia India and China By the time that the Global North forges possibilities of the self in the modern period race gender and sex become fixed Biology and anatomy become understood as destinies and the possibilities of the self are deeply constrained This book approaches case studies of key figures and movements chronologically and thematically and in doing so Kiros highlights the tensions between the openness of the Global South and the rigidity of the Global North through which human possibilities as exercises of self definition become clear under conditions of freedom Our views of self definition will forever be transformed after reading this important text

**Professing Selves** Afsaneh Najmabadi, 2014-03-14 Since the mid 1980s the Islamic Republic of Iran has permitted and partially subsidized sex reassignment surgery In *Professing Selves* Afsaneh Najmabadi explores the meaning of transsexuality in contemporary Iran Combining historical and ethnographic research she describes how in the postrevolutionary era the domains of law psychology and psychiatry Islamic jurisprudence and biomedicine became invested in distinguishing between the acceptable true transsexual and other categories of identification notably the true homosexual an unacceptable category of existence in Iran Najmabadi argues that this collaboration among medical authorities specialized clerics and state officials which made transsexuality a legally tolerated if not exactly celebrated category of being grew out of Iran s particular experience of Islamicized modernity Paradoxically state regulation has produced new spaces for non normative living in Iran since determining who is genuinely trans depends largely on the stories that people choose to tell on the selves that they profess
