Shaping A President:

Investigating the President Douglas L. Kriner, Eric Schickler, 2016-09-13 Although congressional investigations have provided some of the most dramatic moments in American political history they have often been dismissed as mere political theater But these investigations are far more than grandstanding Investigating the President shows that congressional investigations are a powerful tool for members of Congress to counter presidential aggrandizement By shining a light on alleged executive wrongdoing investigations can exert significant pressure on the president and materially affect policy outcomes Douglas Kriner and Eric Schickler construct the most comprehensive overview of congressional investigative oversight to date analyzing nearly thirteen thousand days of hearings spanning more than a century from 1898 through 2014 The authors examine the forces driving investigative power over time and across chambers identify how hearings might influence the president's strategic calculations through the erosion of the president's public approval rating and uncover the pathways through which investigations have shaped public policy Put simply by bringing significant political pressure to bear on the president investigations often afford Congress a blunt but effective check on presidential power without the need to worry about veto threats or other hurdles such as Senate filibusters In an era of intense partisan polarization and institutional dysfunction Investigating the President delves into the dynamics of congressional investigations and how Congress leverages this tool to counterbalance presidential power

The Psychological Assessment of Presidential Candidates Stanley A Renshon, 1996-05-01 Debate on public issues and where candidates stand on them have traditionally represented the focal point of presidential campaigns In recent decades however rather than asking where candidates stand on the issues the public increasingly wants to know who they are The issue of character has thus come to dominate presidential elections While there is increasing public awareness that the psychology judgment and leadership qualities of presidential candidates count the basis on which these judgments should be made remains unclear Does it matter that Gary Hart changed his name or had an affair Should Ed Muskie's loss of composure while defending his wife during a campaign speech or Thomas Eagleton's hospitalization for depression have counted against them Looking back over the past 25 years Stanley Renshon a political scientist and psychoanalyst provides the first comprehensive accounting of how character has become an increasingly important issue in a presidential campaign He traces two related but distinctive approaches to the issue of presidential character and psychology The first concerns the mental health of our candidates and presidents Are they emotionally and personally stable Is their temperament suitable for the presidency The second concerns character Is the candidate honest Does he possess the necessary judgment and motivation to deal with the tremendous responsibilities and pressures of the office Drawing on his clinical and political science training Renshon has devised a theory which will allow the public to better evaluate presidential candidates Why are honesty integrity and personal ideals so important in judging candidates Is personal and political ambition necessarily a bad trait Do extra marital affairs really matter Finally and most

importantly how can the public tell whether a candidate's leadership will be enhanced or impeded by aspects of his personality With this sweeping volume Stanley Renshon has provided us with the most comprehensive account to date of how the public judges and should judge our future presidents

Inside the White House: Unveiling the Truth of All the President's Men Beverly Mooney, *Inside the White House: Unveiling the Truth of All the President's Men* This compelling narrative takes you behind the polished facades and grand halls of America's most iconic residence It reveals the hidden stories secret strategies and unseen battles that have shaped the nation Through meticulous research and exclusive interviews this book offers a unique perspective on the presidency the advisors who influence policy and the complex web of power dynamics that define the White House *Inside the White House: Unveiling the Truth of All the President's Men* weaves together a tapestry of gripping stories and insightful analysis Each chapter unfolds a different facet of presidential history from the tense negotiations and strategic decisions to the personal sacrifices and unexpected triumphs The book delves into the lives and legacies of key figures exploring their motivations conflicts and the lasting impact of their actions Readers will find themselves captivated by the intricate details and dramatic events that have unfolded within the walls of the White House gaining a deeper understanding of the forces that drive American politics This book is a must read for anyone with a keen interest in American politics history and the inner workings of the presidency It is perfect for students scholars and enthusiasts of political science as well as general readers who enjoy a well told story rich with historical significance Whether you are a seasoned political junkie or a curious newcomer *Inside the White House* provides a comprehensive and engaging look at the men and women who have wielded power from the Oval Office *Inside the White House: Unveiling the Truth of All the President's Men* stands out for its depth of research and its ability to bring history to life The book offers readers an unparalleled glimpse into the heart of American governance revealing the challenges and triumphs that have defined the presidency By connecting past events to current issues it provides valuable insights into the evolution of American politics and the enduring influence of the men who have served as president This book is not just a historical account it is a tool for understanding the complexities of leadership and the impact of decisions made behind closed doors Readers will come away with a richer appreciation for the intricacies of the presidency and the people who have shaped the nation's destiny

Presidential Shifts Corbin Shepherd, *AI, 2025-05-06 Presidential Shifts* explores how changes in presidential administrations have fundamentally reshaped American politics and policy It examines pivotal moments when transitions in leadership led to significant shifts in governance societal norms and America's global role The book analyzes the anatomy of power transfer the evolution of policy paradigms under different presidential styles and the lasting impacts of these shifts offering insights into American political history The book's structure unfolds in three parts starting with the theoretical framework for understanding presidential power and policy change It then presents case studies such as the shift from Hoover to Roosevelt during the Great Depression and Reagan succeeding Carter amid economic stagnation These

examples highlight how new presidents often bring distinct policy priorities that dramatically affect society The book uses diverse sources including presidential archives and statistical analyses to quantify the impact of presidential policies Ultimately Presidential Shifts provides a comparative analysis of presidential shifts across historical periods offering a fresh perspective by focusing on the discontinuities in American political history It bridges political science history and economics making it valuable for anyone interested in American politics and its leadership transitions

White House Sebastian Farnham, AI, 2025-03-21 White House meticulously explores the multifaceted history of America's iconic presidential mansion examining its architectural evolution continuous renovations and its enduring role as a symbol of American power The book delves into how the physical structure of the White House has been shaped by evolving presidential needs technological advancements and changing aesthetic tastes For example the addition of the West Wing and the Oval Office reflects significant shifts in how the president functions It also highlights the contributions of figures like James Hoban and importantly the enslaved African Americans whose labor was crucial in its initial construction The book progresses chronologically starting with the initial vision and construction challenges including its near destruction during the War of 1812 before transitioning to the numerous renovations and expansions over the centuries A unique aspect of the book is its analysis of the White House's symbolic power through visual culture examining how its image has been crafted in art film and photography Understanding the White House offers insight into American politics and the presidency itself making this book valuable for anyone interested in history politics or architecture

Rivals for Power James A. Thurber, 2009-08-16 Rivals for Power is a lively description of the power struggle between the president and Congress In it leading congressional and presidential scholars and knowledgeable former public officials consider the historical political and constitutional foundations of conflict between the two branches The authors give practical advice about how to build cooperative policymaking between the president and Congress as they struggle over major crises in solving economic problems and addressing domestic issues and the challenges in defense and foreign policy making The book features original academic research and practitioner knowledge from the White House and the Hill This fourth edition includes all new essays with unique and critical viewpoints on the role of the president and Congress in the policy making process Many of the essays focus on lessons learned about cooperation and conflict between the two branches from the Clinton and Bush presidencies The essays include preliminary analyses of President Barack Obama's relationship with Congress Because the authors have made major contributions as congressional and presidential scholars and have played key roles in Congress in the White House in the media and as lobbyists each chapter presents a different perspective The new edition of Rivals for Power is intended for students scholars public officials the media and the general public Contributions by Gary Andres Richard S Conley Roger H Davidson The Honorable Mickey Edwards Louis Fisher Patrick Griffin The Honorable Lee H Hamilton Mark J Oleszek Walter J Oleszek John E Owens James P Pfiffner Mark J Rozell Andrew Rudalevige Barbara Sinclair Mitchel A Sollenberger James A Thurber Stephen J Wayne and Joseph White

The Watchful Eye Pasquale De Marco, 2025-07-12 In a world where national security concerns permeate everyday life the relationship between civilians and

the military is more critical than ever This book offers a groundbreaking analysis of civil military relations drawing inspiration from principal agent theory to propose a novel framework for understanding how civilians maintain control over the military The armed servants model conceptualizes the military as agents of the nation state subject to the monitoring and control of civilian authorities This framework challenges traditional models that rely on assumptions of professionalism or institutional norms instead focusing on the dynamics of monitoring control and accountability Through a range of case studies both historical and contemporary the book explores the challenges and complexities of civil military relations in various political contexts These cases highlight instances of successful civilian control as well as cases where the military has asserted its autonomy or even challenged civilian authority The book identifies key factors that contribute to effective civil military relations including strong institutional mechanisms for monitoring and control clear lines of accountability a vibrant and independent media and an engaged and informed citizenry This analysis offers valuable insights for policymakers scholars and practitioners seeking to understand and improve civil military relations By highlighting the importance of civilian oversight accountability and transparency this book contributes to the ongoing effort to ensure democratic control over the military and safeguard the principles of good governance If you like this book write a review

The Presidential Dilemma Michael A. Genovese, 2017-07-28 This brief thought provoking text evaluates the performance of recent presidents from Johnson to Bush finding that overall each has failed to live up to public expectations Written by one of the top presidency scholars today The Presidential Dilemma reflects on the idea that as our country s problems grow our politicians seem to shrink Arguing that American presidents of the last 40 years have largely failed to meet the needs expectations and responsibilities placed upon them the book discusses how presidents might better maximize their opportunities for leadership and suggests a distinctive theory of presidential politics presidents facing a system of multiple veto points seek to maximize power and influence The third edition of Genovese s stimulating book is thoroughly updated to reflect presidential development in recent years and a new introduction brings his arguments current As he demonstrates the emergence of democracy as a new social and political paradigm undermined traditional authority and legitimacy Subjects no longer automatically follow now citizens must be persuaded They may give to a leader their authority and power or not As Genovese notes in a world of mass consumerism those wishing to lead have precious little to offer by way of inducement Genovese s goal is to examine the reasons why the performance of recent presidents has been underwhelming discuss how they might maximize their opportunities for leadership and ask a key question Can presidents be both powerful and accountable The book follows a clear format and tries to show why America s officeholders have so rarely been leaders and how presidents can become leaders instead of mere officeholders

Going Local Jeffrey E. Cohen, 2010 Going public to gain support especially through reliance on national addresses and the national news media has been a central tactic for modern presidential public leadership In Going Local Presidential Leadership in the Post Broadcast Age Jeffrey E Cohen argues that

presidents have adapted their going public activities to reflect the current realities of polarized parties and fragmented media. Going public now entails presidential targeting of their party base interest groups and localities. Cohen focuses on localities and offers a theory of presidential news management that is tested using several new data sets including the first large scale content analysis of local newspaper coverage of the president. The analysis finds that presidents can affect their local news coverage which in turn affects public opinion toward the president. Although the post broadcast age presents hurdles to presidential leadership, *Going Local* demonstrates the effectiveness of targeted presidential appeals and provides us with a refined understanding of the nature of presidential leadership.

Presidential Power in Russia Eugene Huskey, 2016-09-16 This is the first major assessment of the role of the presidency in Russia's difficult transition from communist rule. Huskey analyzes the establishment and functioning of the Russian presidency as an institution and in relation to the other leading institutions of state: the government, parliament, courts, and regional authorities. Although this is not a biography of the first president Boris Yeltsin, his allies and his rivals loom large in the study of a critical phase in the creation of a new Russian political system.

The Legacy of the Trump Administration Michael Grossman, Francis Schortgen, Ronald Eric Matthews Jr., David B. Cohen, 2024-10-24 This book analyzes the legacy of the first Trump administration on a variety of different fronts. Whether it was the extensive use of Twitter, the tendency to express controversial and often dubious views or to even slander foreign leaders, Trump was a disruptive president. The presidency of Donald Trump raises questions for political scientists and researchers: How consequential was he? While he garnered much attention both in and out of the White House, how much of his legacy remains? The authors in this book address these questions with essays that cover an array of issues related to his tenure in office and the years since. The chapters provide a broad analysis of the legacy of the Trump presidency, focusing on all aspects of his presidency and representing multiple perspectives across the partisan and disciplinary divides. Additionally, the contributions in this book aim to re-assess the Trump legacy in light of the subsequent efforts by his successor to undo much of the policies embraced by and implemented during the Trump years.

Encyclopedia of the American Presidency, Fourth Edition Michael Genovese, 2021-04-01 Praise for the first edition: An altogether excellent introduction to the study of the presidency of the United States. Library Journal entries are well written, an excellent addition. American Reference Books Annual: an excellent resource recommended. Booklist: Highly recommended. Choice: The most up to date reference of its kind. Encyclopedia of the American Presidency Fourth Edition is the definitive guide to the role of the president from the American Revolution through the present day. Offering a complete account of the presidency in U.S. history, this A to Z encyclopedia will make a great first stop for students and general readers looking for information on the executive branch of the American government. Its comprehensive scope spans the relationship between the executive and the other branches of government: court cases, elections, political opponents, scandals, and more. A valuable resource that provides concise information. Encyclopedia of the American Presidency Fourth Edition contains more

than 750 entries Entries include Bully pulpit Commander in chief Economic policy Executive privilege Kamala Harris Impeachment Iraq War Thomas Jefferson Middle East Military tribunals New Deal Oval Office Franklin D Roosevelt Situation room Donald Trump Veto power War powers Watergate White House and more

Leadership Under the Microscope: Honest Assessments of America's Presidents Ramona Sanford, 2025-03-25 Leadership Under the Microscope is an in depth analysis of the presidencies of eight American leaders offering a candid and nuanced examination of their strengths weaknesses and legacies Through meticulous research and insightful commentary this book provides a comprehensive understanding of these pivotal figures and their impact on the nation s history The book delves into the complexities of each presidency exploring the challenges faced decisions made and consequences that shaped the course of the country It offers a balanced perspective recognizing both the accomplishments and shortcomings of these leaders while shedding light on the intricate web of factors that influence presidential decision making This book goes beyond superficial accounts delving into the personal qualities political ideologies and strategic choices that shaped the presidencies of these individuals It examines the impact of their leadership styles on both domestic and foreign policy providing valuable insights into the complexities of governance and the interplay between personality politics and power By providing a deeper understanding of these key presidencies the book aims to facilitate informed discussions about the nature of leadership and its implications for the future of American democracy

Supreme Court Expansion of Presidential Power Louis Fisher, 2017-07-14 In the fourth of the Federalist Papers published in 1787 John Jay warned of absolute monarchs who will often make war when their nations are to get nothing by it More than two centuries later are single executives making unilateral decisions any more trustworthy And have the checks on executive power so critical in the Founders drafting of the Constitution held These are the questions Louis Fisher pursues in this book By examining the executive actions of American presidents particularly after World War II Fisher reveals how the Supreme Court through errors and abdications has expanded presidential power in external affairs beyond constitutional boundaries and damaged the nation s system of checks and balances Supreme Court Expansion of Presidential Power reviews the judicial record from 1789 to the present day to show how the balance of power has shifted over time For nearly a century and a half the Supreme Court did not indicate a preference for which of the two elected branches should dominate in the field of external affairs But from the mid thirties a pattern clearly emerges with the Court regularly supporting independent presidential power in times of emergency or issues linked to national security The damage this has done to democracy and constitutional government is profound Fisher argues His evidence extends beyond external affairs to issues of domestic policy such as impoundment of funds legislative vetoes item veto authority presidential immunity in the Paula Jones case recess appointments and the Obama administration s immigration initiatives Fisher identifies contemporary biases that have led to an increase in presidential power including Supreme Court misconceptions and errors academic failings and mistaken beliefs about inherent powers and unity of office Calling to account the forces tasked with

protecting our democracy from the undue exercise of power by any single executive his deeply informed book sounds a compelling alarm

The President's Agenda Paul Light,1999 Although there are important differences between the two Presidents not the least of which is Bush s high proportion of small scale old ideas the two share a pronounced tendency to look backward for inspiration rather than forward from the Preface

Presidents Who Matter Pasquale De Marco,2025-08-10 Presidents Who Matter offers a captivating exploration of the American presidency delving into the personal stories and challenges of those who have held the nation s highest office Through insightful anecdotes and expert analysis this book sheds light on the unique experiences that shape the lives of presidents and the profound impact they have on the course of American history From the arduous path to the presidency to the immense responsibilities of the office Presidents Who Matter explores the multifaceted nature of the American presidency It examines the role of education experience and public service in shaping a president s leadership style It also delves into the personal sacrifices and challenges that presidents face from dealing with criticism to balancing public and private life Presidents Who Matter goes beyond the familiar narratives of presidential achievements to reveal the human side of the presidency It explores the families friendships and hobbies of presidents providing a glimpse into their personal lives and the ways in which they navigate the unique pressures of their roles It also examines the impact of the presidency on their personal relationships and the challenges of maintaining a sense of normalcy in the face of intense public scrutiny This book offers a nuanced understanding of the presidency and its profound influence on American society It analyzes the role of the media in shaping public opinion about presidents and the ways in which presidents have used technology to connect with the American people It also examines the president s role in economic policy foreign affairs and social issues providing a comprehensive overview of the complex challenges that presidents face in governing the nation Presidents Who Matter is a must read for anyone interested in American history politics or the human experience It offers a fresh perspective on the presidency and the individuals who have shaped the destiny of the United States Pasquale De Marco is a renowned historian and political commentator who has written extensively about the American presidency Pasquale De Marco s insights into the lives and challenges of presidents provide a unique and valuable contribution to the understanding of this important office If you like this book write a review

Presidential Power Robert Y. Shapiro,Martha Joynt Kumar,Lawrence R. Jacobs,2000-08-31 Richard Neustadt s seminal work *Presidential Power The Politics of Leadership* has endured for nearly four decades as the core of academic study of the American presidency Now building on and challenging many of the arguments in Neustadt s work *Presidential Power Forging the Presidency for the Twenty first Century* offers reflections and implications from what we have learned about presidential power as the new century dawns These essays including a new contribution by Neustadt himself forge a solid reexamination of Neustadt s *Presidential Power* that address questions raised but not resolved by his work A notable aspect of this volume s analysis is the transformed institution of the presidency in the wake of the

impeachment hearings of the country's last twentieth century president Bill Clinton From the portrayal of presidents as persuaders to the politics of presidential transitions each of the constituent essays in this volume provides an engaging look at the state of the American presidency

Explaining Congressional-Presidential Relations Steven A. Shull, Thomas C. Shaw, Thomas C Shaw, Ph., 1999-08-12 Provides a multivariate analysis of presidential congressional interaction
