published in 2003 **Reconfiguring Families in Contemporary Vietnam** Danièle Bélanger, Magali Barbieri, 2009-03-18
 Reconfiguring Families in Contemporary Vietnam chronicles and analyzes the most significant change for families in Vietnam's recent past: the transition to a market economy referred to as Doi Moi in Vietnamese and generally translated as the renovation. Two decades have passed since the wide-ranging institutional transformations that took place reconfigured the ways families produce and reproduce. The downsizing of the socialist welfare system and the return of the household as the unit of production and consumption redefined the boundaries between the public and private. This volume is the first to offer a multidisciplinary perspective that sets its gaze exclusively on processes at work in the everyday lives of families and on the implications for gender and intergenerational relations. By focusing on families, this book shifts the spotlight from macro transformations of the renovation era orchestrated by those in power to micro-level transformations experienced daily in households between husbands and wives, parents and children, grandparents and other family members. **Women of Color in U.S. Society** Maxine Baca Zinn, Bonnie Thornton Dill, 1994
 Women of color articulate shared experiences of subordination and survival. **Immigration Policy and Immigrant Families** Jennifer Van Hook, Valarie King, 2024-09-13
 This book examines how immigration law impacts U.S. immigrant families. It addresses how admission and border policies shape family formation and contribute to prolonged family separation; how immigration enforcement affects parenting practices; and how immigrants' unique challenges spill over to influence broader kinship support networks. Chapters describe family reunification and separation policies; return migration and binational family life; how young immigrants reconnect with family abroad and navigate romantic relationships in the United States; parents' engagement with surveilling actors and institutions; the impact of immigration policy on parenting, including during the pandemic; the health and well-being of DACA (Deferred Action for Childhood Arrivals) eligible adults and their children; aging and family dynamics among Asian immigrant families; and the impact of immigrant legal status across generations. Finally, the volume offers recommendations for family researchers on ways to advance our understanding of the short and longer-term effects of immigration law and policies on the formation, structure, and functioning of immigrant families. Key areas of coverage include immigrant laws and policies that shape the formation and separation of immigrant families; immigrant parenting in the context of immigration enforcement; effects of DACA and other immigrant policies on child and adult health and well-being; long-term impacts of immigration policy over time and across generations; opportunities for family research to better understand how immigration policies and practices shape families; parenting and child health and well-being. **Immigration Policy and Immigrant Families** is a must-have resource for researchers, professors, and graduate students, as well as clinicians, therapists, and other professionals in developmental psychology, family studies, sociology, and such interrelated disciplines as demography, social work, prevention science, public health, educational policy, political science, and economics. **How Ideal Worker Norms Shape Work-Life for Different Constituent Groups in Higher Education** Lisa Wolf-Wendel, Kelly Ward, Amanda M.
