**The Hidden Spirituality of Men** Matthew Fox,2010-09-24 It is no secret that men are in trouble today From war to ecological collapse most of the world's critical problems stem from a distorted masculinity out of control Yet our culture rewards the very dysfunctions responsible for those problems To Matthew Fox our crucial task is to open our minds to a deeper understanding of the healthy masculine than we receive from our media culture and religions Popular religion forces the punitive imagery of fundamentalism on us pushing most men away from their natural yearning for spirituality and toward intolerance and domination Meanwhile many men particularly young men are looking for images of healthy masculinity to emulate and finding nothing To awaken what Fox calls the sacred masculine he unearths ten metaphors or archetypes ranging from the Green Man an ancient pagan symbol of our fundamental relationship with nature to the Grandfatherly Heart to the Spiritual Warrior He explores archetypes of sacred marriage showing how partnership becomes the ultimate expression of healthy masculinity By stirring our natural yearning for healthy spirituality Fox argues these timeless archetypes can inspire men to pursue their higher calling to reinvent the world

**The Hidden Side of Things** Charles Webster Leadbeater,2023-01-31 The term occultism is one which has been much misunderstood In the mind of the ignorant it was even recently synonymous with magic and its students were supposed to be practitioners of the black art veiled in flowing robes of scarlet covered with cabalistic signs sitting amidst uncanny surroundings with a black cat as a familiar compounding unholy decoctions by the aid of satanic evocations Even now and among those whom education has raised above such superstition as this there still remains a good deal of misapprehension For them its derivation from the Latin word *occultus* ought to explain at once that it is the science of the hidden but they often regard it contemptuously as

nonsensical and unpractical as connected with dreams and fortune telling with hysteria and necromancy with the search for the elixir of life and the philosopher's stone Students who should know better perpetually speak as though the hidden side of things were intentionally concealed as though knowledge with regard to it ought to be in the hands of all men but was being deliberately withheld by the caprice or selfishness of a few whereas the fact is that nothing is or can be hidden from us except by our own limitations and that for every man as he evolves the world grows wider and wider because he is able to see more and more of its grandeur and its loveliness

**Energy Transition** Margot P. C. Weijnen, Zofia Lukszo, Samira Farahani, 2021-06-24 This open access book makes a case for a socially inclusive energy transition and illustrates how engineering and public policy professionals can contribute to shaping an inclusive energy transition building on a socio-technical systems engineering approach Accomplishing a net zero greenhouse gas emissions economy in 2050 is a daunting challenge This book explores the challenges of the energy transition from the perspectives of technological innovation public policy social values and ethics It elaborates on two

particular gaps in the design of public policy interventions focused on decarbonization of the energy system and discusses how both could be remedied First the siloed organization of public administration fails to account for the many interdependencies between the energy sector the mobility system digital infrastructure and the built environment Cross sector coordination of policies and policy instruments is needed to avoid potentially adverse effects upon society and the economy which may hamper the energy transition rather than accelerate it Second energy and climate policies pay insufficient attention to the social values at stake in the energy transition In addressing these gaps this book intends to inspire decision makers engaged in the energy transition to embrace the transition as an opportunity to bring a more inclusive society into being
