Richard Stakes, Garry Hornby, 1997 This study looks at the legal requirements of the relevant Education Act recommendations made in various reports relating to special education provision in mainstream schools The text examines the changes and the practitioners implementing them and discusses changes in the political and social climate within and outside education The reader is guided through these factors and shown how they have affected provision in secondary schools      **Bad Mouthing** Jenny Corbett, 2013-11-05 The power of language is overwhelming and this is shown in the way in which words are used to define portray and explain people and situations With this in mind then it is interesting to note how the language of special needs has always been composed of words and images which foster fear mistrust loathing and hostility idiot imbecile and moron are frequently used as terms of abuse Whilst there has been considerable theorizing on the psychological and sociological aspects of special education as well as a recognition of the influence of policies and politics there has not yet been a concerted attempt to analyze the way in which language is used to create codes and images This general lack of interest may be because semantics seem peripheral to special education the focus has rather been on individual case studies teaching programmes legislation and practice Jenny Corbett however has a particular interest in the language of special needs Over the past few years she has explored the ways in which new discourses have emerged to challenge those of enlightened modernity the political correctness of special needs language in the mid 1990s and the ways in which imagery is changing as proud labels displace the legacy of negativity In this book the author brings together the findings of these explorations as she looks at where the language of special needs has emerged from where it seems to be going at present and what is likely to become of it in the near future In order to more fully understand why some learners are marginalised and given an inferior status says Jenny Corbett it is important to explore the way in which language has been used      **Patterns of Educational Integration** Barrie Wade, Maggie Moore, 1992-01-01 The integration of children with special educational needs was a crucial issue for the 1990s Many countries were reassessing and reorganising their systems of provision in the light of legislation to provide entitlement for all There was noticeable worldwide trend away from entirely separate provision for learners with special educational needs At the same time there was no agreement on how exactly they should be integrated with other students The reader will gain a clear understanding of educational provision the societal forces that push for greater integration and the attitudes that promote or hinder educational success      *Trends in Education*, 1975      **The Education of People with Profound and Multiple Handicaps** Judy Sebba, 1988 Designed as a basis for in service courses for staff working with people who have profound and multiple handicaps Topics covered include assessment curriculum teaching methods microelectronics problem behaviour and physiotherapy      **Exceptional Child Education Abstracts**, 1976      *Chicorel Index to Reading and Learning Disabilities* Marietta Chicorel, 1976      **Resources in**
