Shared Dream Kathleen Ann Goonan, 2011-07-19 Kathleen Ann Goonan introduced Sam Dance and his wife Bette and their quest to alter our present reality for the better in her novel *In War Times*, winner of the John W Campbell Memorial Award for Best Novel and ALA's Best Science Fiction Novel of 2008 Now in *This Shared Dream* she tells the story of the next generation The three Dance kids, seemingly abandoned by both parents when they were younger, are now adults and are all disturbed by memories of a reality that existed in place of their world The older girl, Jill, even remembers the disappearance of their mother while preventing the assassination of John F Kennedy Goonan has created a new kind of utopian Science Fiction novel in which the changes in history have created a present world that is in many ways superior to our own while in other worlds people strive to prevent their own erasure by restoring the ills to ours *This Shared Dream* is certainly the most provocative Science Fiction speculation of the year and perhaps the decade At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied **Entertainment Computing - ICEC 2010** Hyun Seung Yang, Rainer

Malaka, Junichi Hoshino, Jung Hyun Han, 2010-08-26 The 9th International Conference on Entertainment Computing (ICEC 2010) was held in September 2010 in Seoul, Korea After Pittsburgh 2008 and Paris 2009, the event returned to Asia The conference venue was the COEX Exhibition Hall in one of the most vivid and largest cities of the world This amazing mega city was a perfect location for the conference Seoul is, on the one hand, a metropolitan area with modern industries, universities

and great economic power On the other hand it is also a place with a very fascinating historical and cultural background It bridges the past and the future as well as east and west Entertainment computing also aims at building bridges from technology to leisure education culture and work Entertainment computing at its core has a strong focus on computer games However it is not only about computer games The last ICEC conferences have shown that entertainment computing is a much wider field For instance in games technology developed for games can be used for a wide range of applications such as therapy or education Moreover entertainment does not necessarily have to be understood as games Entertainment computing finds its way to stage performances and all sorts of new interactive installations
