Building Communities of Engaged Readers Teresa Cremin,Marilyn Mottram,Fiona M. Collins,Sacha Powell,Kimberly Safford,2014-06-20 Reading for pleasure urgently requires a higher profile to raise attainment and increase children s engagement as self motivated and socially interactive readers Building Communities of Engaged Readers highlights the concept of Reading Teachers who are not only knowledgeable about texts for children but are aware of their own reading

identities and prepared to share their enthusiasm and understanding of what being a reader means. Sharing the processes of reading with young readers is an innovative approach to developing new generations of readers. Examining the interplay between the will and the skill to read the book *distinctively* details a reading for pleasure pedagogy and demonstrates that reader engagement is strongly influenced by relationships between children, teachers, families, and communities. Importantly, it provides compelling evidence that reciprocal reading communities in school encompass a shared concept of what it means to be a reader in the 21st century. Considerable teacher and child knowledge of children's literature and other texts, pedagogic practices which acknowledge and develop diverse reader identities, spontaneous inside text talk on the part of all members, a shift in the focus of control, and new social spaces that encourage choice and children's rights as readers. Written by experts in the literacy field and illustrated throughout with examples from the project schools, it is essential reading for all those concerned with improving young people's enjoyment of and attainment in reading. United States. Congress. Senate. Committee on Labor and Human Resources. Subcommittee on Education, Arts, and Humanities, 1989. Reading Kant's Lectures Robert R. Clewis, 2015-09-14. This important collection of more than twenty original essays by prominent Kant scholars covers the multiple aspects of Kant's teaching in relation to his published works. With the Academy edition's continuing publication of Kant's lectures, the role of his lecturing activity has been drawing more and more deserved attention. Several of Kant's lectures on metaphysics, logic, ethics, anthropology, theology, and pedagogy have been translated into English, and important studies have appeared in many languages. But why study the lectures? When they are read in light of Kant's published writings, the lectures offer a new perspective of Kant's philosophical development, clarify points in the published texts, consider topics there unexamined, and depict the intellectual background in richer detail. And the lectures are often more accessible to readers than the published works. This book discusses all areas of Kant's lecturing activity. Some essays even analyze in detail the content of Kant's courses and the role of textbooks written by key authors such as Baumgarten, helping us understand Kant's thought in its intellectual and historical contexts.
