Sharing Power Women In Politics:

Sharing Power Manon Tremblay, 2017-03-02 The representation of women in parliament is a subject of extensive research and a focus for political action in the last decade The wide variation in women's parliamentary presence contradicts the expectation that established or consolidated democracies are more supportive of the presence of women in political life than emerging democracies This volume explains this variation through a series of closely investigated case studies from the post Communist transition democracies of Eastern Europe and emerging democracies in Asia and the Middle East to the long established liberal democratic states The volume examines the history of women's legislative involvement clearly addressing the issue of equal opportunities for women in political life on a cross national basis It also identifies innovative solutions to redress the power sharing balance between women and men Offering a unique comparative perspective **Sharing Power** will appeal to students and scholars of politics women's studies history and legislative studies

Political Empowerment of Women Monique

Leyenaar, 2004-11-01 The problem of ensuring that women are at the heart of political decision making is now very topical in Europe This is because despite all of the international agreements the research the recommendations and the untold other efforts the participation of women in political bodies remains low in most European countries European governance in short still fails to include 50 per cent of women in its political decision making Why do political leaders attach importance to this issue The under representation of women in national parliaments poses a problem in terms of both the practice and the theory of politics In practical terms the under representation of women in political leadership is even more remarkable when one realizes that women have succeeded in gaining access to other sectors of society in many European countries Moreover equality between men and women is now a leading political principle all over Europe Taking part in decision making however in politics as well as in the private sector typically remains a male privilege This book explains the high level of current concern for the under representation of women in politics It explores the reasons behind recent favourable attitudes towards sharing political power with women in the Netherlands and in other European countries It identifies the many obstacles and strategies and it points out future expectations about the representation of women in Europe Under which circumstances can

political players be influenced to change institutions and procedures in favour of newcomers to politics The current crisis of politics opens a window of opportunity for changing the underlying male biased structures

100 Questions about Women and Politics Manon Tremblay, 2018-09-30 Both yesterday's suffragists and today's feminists have battled for women to vote and hold office and their successes have made it possible for countries such as Argentina Brazil Germany Iceland Liberia and the United Kingdom to have female heads of state Despite these notable advances women are still largely underrepresented in parliaments and governments around the world Why after so many years of feminist struggle are women still obstructed from full political citizenship by a glass ceiling Manon Tremblay's *100 Questions about Women and Politics* discusses electoral politics in Canada and abroad focusing on women's rights to vote and run for office in legislative elections political parties voting systems electoral quotas for women and participation in parliaments and governments Against a background of observations taken from academic research Tremblay uses an innovative approach by dividing her book into 100 questions and answers to address a range of important issues Are electorates sexist or lesbophobic Are family responsibilities a real obstacle to women's engagement in politics What strategies are available to increase the number of female politicians Are gender quotas democratic Once elected to office do women represent women How does women's political citizenship in Canada compare to that in other countries A timely book on the unfinished work of representative democracy *100 Questions about Women and Politics* takes a comprehensive yet concise approach to demystifying the major issues dominating the study of gender and government

Powerful Political Women Joan McMahon Flatt, 2012-07-26 From the beginning of time certain women Catherine the Great Golda Meir Nancy Pelosi Margaret Thatcher Eleanor of Aquitaine and others have been beacons inspiring those who followed to fight against injustice and for ultimate equality They often risked their own lives to

shatter barriers and challenge expectations because they believed that they could bring about a change for the better. The circumstances of their times brought out a passion, heroism, determination, talent, and feminine sensibility in these confident women who would stand on the stage of history and fight for the political rights of their sisters. These women often suffered persecution, slander, grief, heartbreak, and imprisonment to achieve their ends. They were laughed at, scorned, ridiculed, and worse. Here the inspirational stories of how these extraordinary women have created and demanded change are gathered in the hopes of inspiring their modern day sisters to follow in their footsteps.

Discourse, Politics and Women as Global Leaders John Wilson, Diana Boxer, 2015-10-15. This book focuses on the discourse practices of women in global political leadership. It provides a series of discursive studies of women in positions of political leadership. Political leadership is defined as achieving a senior position within a political organization and will often indicate a senior role in government or opposition. The volume draws on a diverse collection of studies from across the globe reflecting a variety of cultures and distinct polities. The primary aim is to consider in what ways discursive practice underpins, reflects, or is appropriated in terms of women's political success and achievements within politics. The chapters employ differing theoretical approaches all bound by the discursive insights they provide and in terms of their contribution to understanding the role of language and discourse in the construction of gendered identities within political contexts.

Women's Political Participation in Bangladesh Pranab Kumar Panday, 2013-05-30. This volume offers an understanding of institutional reforms, gender-related policy dynamics, the role of different actors in the policy process, and the impact of a particular policy on the state of women's political participation in Bangladesh. The discussion is set against the background of the Fourth World Conference on Women 1995 in Beijing, in which a Platform for Action signed by heads of governments expressed their countries' commitment to achieve gender equality and empowerment of women through ensuring integration of the gender perspective at all levels. In Bangladesh, notable among the initiatives undertaken was the enactment of the Local Government Union Parishads Second Amendment of 1997 through which one third of seats were reserved for women in the Union Parishad UP and the system of direct election was introduced to elect women members in reserved seats. The Act of 1997 is considered to be a milestone since it has enhanced women's participation in the local

government politics significantly Against this background the specific research questions that have been addressed in this volume include the necessity of reform for enhancing women s participation in politics the context against which the Government of Bangladesh enacted the Act and the reasons such an initiative was not taken earlier the actors behind the reforms and their role in the reform process and the impact of the reform on the state of women s participation at the local level in Bangladesh

Women in Canadian Politics Kathy Megyery, 1991-01-01 Women are the most under represented social group in the elected assemblies of the world. Women everywhere constitute more than one half of the population and rarely are more than a handful of the political elite. The studies in this volume examine women's involvement in political parties both past and present. Empirical studies identify the roles Canadian women play in parties, the opportunities and barriers they face and their progress toward greater representation in the political process. The questions addressed in this volume include: What are the major barriers to women's entry into federal politics? Janine Brodie: Do large numbers of women remain confined to pink collar work at the expense of executive positions? Sylvia Bashevkin: What is the impact of the candidate selection process on the election of women to the House of Commons? Lynda Erickson: How does incumbency affect the number of women elected to federal office? Lisa Young: What is the influence of media coverage on women in politics? Gertrude Robinson and Armande Saint Jean: The authors agree that the under representation of women in politics undermines the democratic credibility of our governing institutions. Nonetheless, they are cautiously optimistic regarding the prospects for the third generation of women entering politics.
