Sharing Treasures Reviews By John Holt:

Sharing Treasures Patrick Farenga, Holcomb. Jane Prest, 1990-10 Contains reprints of articles on homeschooling from a wide variety of national newspapers and magazines Free Schools, Free People Ronald J. Miller, 2002-07-17 This first historical account of the free school movement of the 1960s documents the formation of hundreds of small independent schools across the United States that marked a turning point in American education The book revisits and interprets the radical democratic educational vision behind those schools through the works of some of the authors of that time such as John Holt A S Neill Paul Goodman and George Dennison These authors and the thousands of educators parents and young people who took part in the free school movement passionately advocated for students intellectual and psychological freedom and for their autonomy and individuality in a society they saw as increasingly standardized and corporately managed Although free school ideology was renounced during the conservative restoration of the 1970s and 1980s and the once popular literature is now largely forgotten Miller argues that radical educational critique is especially relevant in today s educational climate in light of the standards movement high stakes testing school violence and its suppression and corporate influence over the curriculum John Holt Adam Dickerson, 2019-05-17 This is the first ever book to offer an analytical study of John Holt s philosophy of education It provides a clear analysis and critical evaluation of the key themes in his work considers the main objections to his views and discusses their relation to the contemporary homeschooling movement The book examines Holt s critique of compulsory education and his account of the relationships between learning freedom intelligence and character It argues that Holt s works contain a philosophically rich critique of instrumentalism in education and thus continue to represent a significant challenge to many mainstream views on education today Given its scope the book will be of interest to anyone who wants to understand Holt s work and influence as a critic of compulsory schooling educators and education students philosophers of education and those seeking a better grasp of the ideas behind unschooling and homeschooling **The Home School Source Book** Donn Reed, 1994 **Homeschooling Almanac, 2000-2001** Mary Leppert, Michael Leppert, 1999 How to start where to go who to call the best web sites catalogs support groups homeschooling conferences current state laws complete reference guide to educational supplies Cover **Homeschooling Almanac 2002-2003** Mary Leppert, Michael Leppert, 2001 This guide contains all the information support and resources needed to make homeschooling a positive and rewarding experience for families Includes tips on how to start the legalities of homeschooling materials and supplies support groups and more Illustrations **The Home School Manual** Theodore E.
