Conradie, 2006-10-01 There has been a proliferation of publications in the field of Christian ecological theology over the last three decades or so These include a number of recent edited volumes each covering a range of topics and consolidating many of the emerging insights in ecological theology The call for Christian churches to respond to the environmental crisis has been reiterated numerous times in this vast corpus of literature also in South Africa *Oriental Enlightenment* J.J. Clarke, 2002-09-11 Style and level of discussion makes this an ideal intro to Western thought and the East not philosophically dense Said's classics *Orientalism* only discusses Islam this covers all Eastern thought Author has written extensively on Jung and the East also taught in Singapore Will appeal to non specialists due to history of ideas approach broad sweep *Tibetan and Zen Buddhism in Britain* David N Kay, 2007-02-12 This book analyses the transplantation development and adaptation of the two largest Tibetan and Zen Buddhist organizations currently active on the British religious landscape the New Kadampa Tradition NKT and the Order of Buddhist Contemplatives OBC The key contributions of recent scholarship are evaluated and organised thematically to provide a framework for analysis and the history and current landscape of contemporary Tibetan and Zen Buddhist practice in Britain are also mapped out A number of patterns and processes identified elsewhere are exemplified although certain assumptions made about the nature of British Buddhism are subjected to critical scrutiny and challenged **Tantric Revisionings** Geoffrey Samuel, 2005 Relating to Tibetan Buddhism and Indian religion this work is a collection of articles These articles are linked by their subject matter and they are also linked by a common approach to religion **The Guru Principle** Lama Shenpen Hookham, 2021-08-17 A clear headed and relatable guidebook for navigating the student teacher relationship by one of the first female Buddhist teachers in the West All major forms of Buddhism stress the need for a teacher However the importance of having a guide or guru is sometimes a source of cultural and spiritual confusion as Buddhism expands in the West A clear understanding of the Buddhist view of the guru is essential for the student teacher relationship to be beneficial for one's spiritual growth Collecting over fifty years of personal experiences as both a student and a teacher Shenpen Hookham writes candidly of the opportunities and challenges facing modern Dharma students in the West who wish to study with a teacher Traditional texts often do not reflect how the student teacher relationship manifests in practice which leaves many pressing questions and a great deal of confusion in communities taking root in the West With honesty and clarity Hookham discusses the roles of the teacher practices related to the guru and commonly asked questions she receives as a teacher This handbook is the first of its kind breaking down in a pragmatic and relatable way everything you need to know to enter a student teacher relationship with open eyes and an open heart
