Shattered Bonds The Color Of Child Welfare:

Shattered Bonds Dorothy Roberts, 2002-12-25 *Shattered Bonds* is a stirring account of a worsening American social crisis the disproportionate representation of black children in the U S foster care system and its effects on black communities and the country as a whole Tying the origins and impact of this disparity to racial injustice Dorothy Roberts contends that child welfare policy reflects a political choice to address startling rates of black child poverty by punishing parents instead of tackling poverty s societal roots Using conversations with mothers battling the Chicago child welfare system for custody of their children along with national data Roberts levels a powerful indictment of racial disparities in foster care and tells a moving story of the women and children who earn our respect in their fight to keep their families intact **Shattered**

Bonds Dorothy E. Roberts, 2002 Identifies a disproportionate representation of African American children in the U S foster care system noting racial disparities and political policies that negatively impact black communities contribute to child poverty rates and adversely separate families Reprint 15 000 first printing **Shattered Bonds** Dorothy

Roberts, 2009-02-23 The story of foster care in the United States is the story of the failure of the social safety net to aid poor largely black parents in their attempt to make a home for their children *Shattered Bonds* tells this story as no other book has before from the perspective of a prominent black female legal theoretician The current state of the child welfare system in America is a well known tragedy Thousands of children every year are removed from their parents homes often for little reason other than the endemic poverty that afflicts women and children more than any other group in the United States Dorothy Roberts an acclaimed legal scholar and social critic reveals the racial politics of child welfare in America through extensive legal research and original interviews with Chicago families in the foster care system She describes the racial imbalance in foster care the concentration of state intervention in certain neighborhoods the alarming percentages of children in substitute care the difficulty that poor and black families have in meeting state s standards for regaining custody of children placed in foster care and the relationship between state supervision of families and continuing racial inequality

Shattered Bonds Dorothy E. Roberts, 2002 Printbegr nsninger Der kan printes kapiteltvis *Foreword* Jane M. Spinak, Nancy D. Polikoff, 2023 The 2001 book *Shattered Bonds The Color of Child Welfare* by Dorothy Roberts called out the racism of the child welfare system and the harms that system perpetrates on families and communities Twenty years later despite numerous reform efforts the racism and profound harms endure It is time for transformative change In this foreword to the symposium *Strengthened Bonds Abolishing the Child Welfare System and Re Envisioning Child Well Being* honoring the 20th anniversary of *Shattered Bonds* we highlight Professor Roberts articulation of her development as a family policing abolitionist and summarize the articles and comments contributed from scholars in numerous disciplines and well as impacted parents family defense advocates and system change activists These contributions help us learn from history and political theory focus on the unique and shared circumstances of Native American families critique and call for repeal of

much of current law condemn the punitive and racially disproportionate surveillance of families and demand a new approach that diverts the massive funding of the foster care industrial complex into support services and healing for families tribes and communities We call for abolition of the family regulation system the term we use as a more accurate description of what is commonly called the child welfare or child protection system We situate this call in the context of the more developed movement for prison abolition The current system is predicated on seeing individual parents as a risk to their children It fails to see the strengths and resilience of parents and families the harms of surveillance and removal and the structural forces that harm children by failing to invest in adequate housing income child care health and mental health services and educational opportunities for all families Abolition provides the transformative mind set that will enable loving and strengthened families to raise happy healthy safe educated and imaginative children

The Impossible Imperative Jill Duerr Berrick,Erika Altobelli,2018 *The Impossible Imperative* brings to life the daily efforts of child welfare professionals working on behalf of vulnerable children and families Stories that highlight the work written by child welfare staff on the front lines speak to the competing principles that shape everyday decisions The book shows that rather than being a simple task of protecting children the field of child welfare is shaped by a series of competing ideas The text features eight principles that undergird child protection practice all of which are typically in conflict with others These principles guide practice and direct the course of policymaking but when liberated from their aspirational context and placed in the real world they are fraught with contradiction *The Impossible Imperative* is designed to inspire a lively debate about the fundamental nature of child welfare and about the principles that serve as the foundation for the work It can be used as a teaching tool for aspiring professionals and as motivation to those looking to social work to make a difference in the world

Reproductive Justice, Adoption, and Foster Care Tanya Saroj Bakhru,Krista L. Benson,2024-02-26 Understanding practices of family separation and child removal necessitates considering the impacts of globalizing capitalism colonialism empire building and the establishment and normalization of systemic racism In *Reproductive Justice Adoption and Foster Care* the authors situate the colonial legacies of family separation what it means to center the right parent and *Reproductive Justice* and transnational feminist frameworks in conversation with one another in order to elucidate a more nuanced and comprehensive approach to recognizing the significance of contemporary examples of family separation In doing so the book showcases the connections between adoption and foster care within the intellectual and activist frameworks of human rights Critical Adoption Studies *Reproductive Justice* and transnational feminisms Epistemologically *Reproductive Justice* and transnational feminisms meet at the point where both consider and interrogate globalizing capitalism neoliberal economic and political ideologies and the ways that various people mostly people of color poor people women children and Indigenous people are considered disposable Critical Adoption Studies also importantly highlights the ways that adoption and foster care function as forms of family formation and as mechanisms of globalizing capitalism and state formation Thus it is critical that any exploration of

the reproductive experiences of marginalized individuals interrogate and complicate notions of choice to advocate for justice Reproductive Justice Adoption and Foster Care will be of interest to students of sociology psychology and social work as well as scholars activists policymakers and adoption and foster care practitioners **EVERDAY LAW FOR CHILDREN (Q)**

David J. Herring, 2015-12-03 Everyday Law for Children provides an accessible introduction to laws that affect children and families and the dominant public debates that surround and drive these laws Using real world examples the book exposes the tension between reliance on the private autonomous family and the public's desire to secure child well being A look at some public systems such as child welfare and juvenile delinquency shows that an initial public aspiration to assist children and families is often frustrated by a lack of resolve and resources In other areas such as education and healthcare the public shrinks from a commitment to comprehensive child well being Everyday Law for Children makes a case for the improvement of public systems by focusing on pragmatic goals related to child well being More immediately it makes a case for zealous advocates for children who can have a dramatic impact on children's everyday lives Accordingly the book provides an annotated list of resources and contact information for parents and for service providers who need help addressing specific problems within complex public systems **Abolition in Social Work and Human Services** Ian Kelvin Hyslop, Bob

Pease, 2025-09-11 The first to apply abolitionist theory from international perspectives to social work this book explores whether social work has a future as a profession that challenges the perpetuation of unjust social structures It questions whether it is possible for social work to become radical while it is located within the state **Restorative and Responsive Human Services** Gale Burford, John Braithwaite, Valerie Braithwaite, 2019-03-04 In Restorative and Responsive Human Services Gale Burford John Braithwaite and Valerie Braithwaite bring together a distinguished collection providing rich lessons on how regulation in human services can proceed in empowering ways that heal and are respectful of human relationships and legal obligations The human services are in trouble combining restorative justice with responsive regulation might redeem them renewing their well intended principles Families provide glue that connects complex systems What are the challenges in scaling up relational practices that put families and primary groups at the core of health education and other social services This collection has a distinctive focus on the relational complexity of restorative practices How do they enable more responsive ways of grappling with complexity than hierarchical and prescriptive human services Lessons from responsive business regulation inform a reimagining of the human services to advance wellbeing and reduce domination Readers are challenged to reexamine the perverse incentives and contradictions buried in policies and practices How do they undermine the capacities of families and communities to solve problems on their own terms This book will interest those who harbor concerns about the creep of domination into the lives of vulnerable citizens It will help policymakers and researchers to refocus human services to fundamental outcomes at the foundation of sustainable democracies This book is available for free in PDF format as Open Access from the individual product page at www.routledge

Addressing Racial Disproportionality and Disparities in Human Services Rowena Fong, Alan Dettlaff, Joyce James, Carolyn Rodriguez, 2014-11-11 The issue of racial disproportionality in the child welfare system particularly as it impacts African American children and families has long been a concern to practitioners and policymakers. However, disproportionality is not limited to the African American community. Latino, Native American, Asian American, and Pacific Islander populations experience inequities in treatment. From leading voices on culturally competent care comes a cutting edge book that examines disproportionalities across all of these racial and ethnic groups. *Eliminating Racial Disproportionality and Disparities* examines a wide range of systems that often affect and interact with child welfare. Chapters are devoted to the juvenile justice system, mental health, the courts, education, and healthcare, making it the only book to offer a multisystemic approach to disparities and disproportionality. Filled with in depth case studies, key terms, study questions, and resources, and written to reflect CSWE mandated competencies, this expansive book gives students, educators, policymakers, practitioners, and administrators new knowledge for providing culturally competent services while simultaneously addressing disproportionality across various systems of care.

Routledge International Handbook of Critical Gang Studies David Brotherton, Rafael Gude, 2021-07-28 *Routledge International Handbook of Critical Gang Studies* is rooted in the instability, inequality, and liquidity of the post industrial era. It understands the gang as a complex and contradictory phenomenon, a socio historical agent that reflects, responds to, and creates a certain structured environment in spaces which are always in flux. International in scope and drawing on a range of sociological, criminological, and anthropological traditions, it looks beyond pathological, ahistorical, and non transformative approaches and considers other important factors that produce the phenomenon, whether the historically entrenched racialized power structure and segregation in Chicago, the unconstrained state abandoned development of favelas in Brazil, or the colonization, displacement, and dependency of people in Central America. This handbook reflects and defines the new theoretical and empirical traditions of critical gang studies. It offers a variety of perspectives, including: A view of gangs that takes into consideration the global context and appearance of the gang in its various forms and stages of development; An appreciation of the gang as a socio cultural formation; A race, ethnic, and class analysis of the gang that problematizes domain assumptions such as the underclass; Gender variations of the gang phenomenon with a particular emphasis on their intersectional properties; Relations between gangs and the political economy that address the dominant mode of production and exchange; Treatments that demonstrate the historically contingent nature of gangs and their changes across time; The contradictory impact of gang repressive policies, institutions, and practices as part of a broader discussion on the nature of the state in specific societies; and Critical methodologies on gangs that involve discussions of visual and textual representations and the problematics of data collection and analysis. Authoritative, multi disciplinary, and international, this book will be of interest to criminologists, sociologists, and anthropologists alike, particularly

those engaged with critical criminology sociology youth crime delinquency and global social inequality The Handbook will also be of interest to policy makers and those in the peacebuilding field
