Shattered Lives Finding Hope In The Midst Of Alzheimers And Other Related Dementia:

Shattered Lives Ellen Childress, Paulette Erkenbrack, 2001 **The Spectrum of Hope** Gayatri Devi, 2017-10-31 Imagine finding a glimmer of good news in a diagnosis of Alzheimer's. And imagine how that would change the outlook of the 5 million Americans who suffer from Alzheimer's disease and other dementias not to mention their families' loved ones and caretakers. A neurologist who's been specializing in dementia and memory loss for more than 20 years, Dr. Gayatri Devi rewrites the story of Alzheimer's by defining it as a spectrum disorder like autism. Alzheimer's is a disease that affects different people differently. She encourages people who are worried about memory impairment to seek a diagnosis because early treatment will enable doctors and caregivers to manage the disease more effectively through drugs and other therapies. Told through the stories of Dr. Devi's patients, *The Spectrum of Hope* humanizes the science and offers equal parts practical advice and wisdom with skillful ease along with real hope. Here are chapters on how to maintain independence and dignity, how to fight depression, anxiety, and apathy, how to communicate effectively with a person suffering from dementia. Plus chapters on sexuality, genetics, going public with the diagnosis, even putting together a bucket list because through her practice, Dr. Devi knows that the majority of Alzheimer's patients continue to live and work in their communities. They babysit their grandkids, drive to the store, or own the store, serve their clients, or otherwise live fulfilling lives. That's news that 5 million people are waiting to hear.

Broken Beauty Sarah B. Smith, 2019-01-15 In the world of Early onset Alzheimer's, here is a book all about life, love, and hope. *Broken Beauty* is the story of Sarah Smith's mother, known as Beauty to her family, and her family's journey through the devastating world of Early onset Alzheimer's. Smith was a young mother in her thirties when her own mother's illness struck, so the family's shock and pain at the disease's manifestations is nearly unbearable. Not only is Beauty still young and fit, she is also Sarah's best friend. This powerful and personal story about a daughter facing the unthinkable and the love she found to carry her through will touch the hearts of everyone who reads it. Sarah Bearden Smith is a housewife, mother of three, and a woman of deep faith who has lived in Texas all her life. Sarah was born and raised in the Houston area and remained there until her departure for the University of Texas at Austin, where she was a speech communications major, varsity cheerleader, and a member of Tri Delta sorority. After her marriage to Thad Smith in 2002, the couple moved to Dallas, Texas. During their years in Dallas, Sarah and her husband have served on various boards and committees, including the Greer Garson Gala, Presbyterian Hospital Healthcare Foundation, East West Ministries, AWARE Dallas, and Providence Christian School of Texas. They actively serve with their children in assisted living and memory care facilities and support organizations such as the Council for Life, Alzheimer's Association, Women's Alzheimer's Movement, and Community Bible Study. Sarah and her family are members of Watermark Community Church.

A Deeper Perspective on Alzheimer's and other Dementias Megan Carnarius, 2015-02-23 Soul searing life testing situations have what some call fall out blessings The book is about understanding some of the deeper lessons we are exposed to through caring for individuals with Alzheimer s and other types of dementia We all want a cure But in the meantime while this illness is still with us how can we create a quality of life for each person in each stage of the disease How can we look deeper into situations that at first glance look hopeless and destructive in order to find opportunities for insight inspiration and great understanding of ourselves and those we love How can we allow the full measure of the experience to unfold and be felt with as much of ourselves as we can bring to bear This book will help people caring for those going through the difficult dementia journey find a way through the tumultuous waves to remain awake and open to the blessing of a journey that opens the heart nurtures compassion and ultimately enables each of us to be better human beings It is also for those brave individuals living with memory loss illnesses so that they be supported and allowed to live their experience fully in their own unique way to express themselves to love and be loved and to be sheltered from harm that with each stage of the progression those around the person with dementia find ways to emphasize the loved one s remaining strengths rather than spotlight their weaknesses A person with dementia has a whole and well spirit and in the broadest sense their brain is a vehicle of self expression it does not define their essence Finally this book addresses head on the final stage of the disease

when the brain has exhausted all its compensatory ability and the individual is no longer able to take part in regular day to day life At this advanced stage of the disease process people with dementia are in a deep internal state that caregivers generally cannot access and share It can be a very disheartening time This internal state separates the person with dementia from those around them however rather than thinking of it as a prison wall separating the person with dementia from the caregiver it may be more helpful to think of the person having retreated into a cloistered existence for a while affording them the time needed by the soul to attend to deeper aspect of the self on a spiritual level This phase also allows those around the person to honor the vessel or body that has housed the loved in in this life and prepare to let them go When ready the individual will know the time to leave and if allowed will let go Coming from a rich professional background in caring Megan Carnarius clearly outlines the different stages of dementia and highlights many practical aspects of dementia care suggesting accessible tools for family and professionals alike She also addresses the more subtle spiritual dimensions of this illness with much compassion and understanding offering new insights into areas that have not been explored in other books on the disease

Day is Ending Richard W. Zalar, Walter Gerard Meyer, 2003 Description Doctor Richard Zalar and Trude become more and more real as *Day Is Ending* evolves from its opening on a dreary and tragic December 7 1941 to December 7 2000 the day of Trude's death This romance is so moving and meaningful because in many ways it is about those normal life events that are common to most of us the first kiss the roller coaster of courtship the proposal marriage new life growth joy success and then a shadow an inkling a doubt that insidiously grows into a heartbreaking tragedy There is no facile resolution offered here Dr Zalar simply asks if he would ever have been able to appreciate the depth of this love affair with Trude if they had been spared the torment of Alzheimer's disease **Love Kept Hope Alive** Freda Harrison, 2010-02-27 The aim of this book is to enlighten anyone who reads it what dementia and Alzheimers can do to the family if it is not prepared and do not work together and get outside support from sources willing to help like the Alzheimers Association Also with new Hippa laws if not wrote down exactly how you want to be taken care most likely it wont be done and there is nothing that can be done about it The old saying about not looking into the future is so wrong because you should plan if something bad like this was to strike Your health and well being is so important God lets us stay alive so let us thank Him for each moment and be grateful for each moment we are granted to spend with our loved one and cherish all the good memories This is my story and my struggle with moms Alzheimers
