1960s these directors responded with films that were self conscious attempts at keeping pace with the developments in film modernism These films Lang s *The Thousand Eyes of Dr Mabuse* Hitchcock s *Marnie* and Minnelli s *Two Weeks in Another Town* were widely regarded as failures at the time and bolstered critics claims concerning the irrelevance of their directors in relation to contemporary filmmaking However author Joe McElhaney sheds new light on these films by situating them in relation to such acclaimed modernist works of the period as Godard s *Contempt* Fellini s *La dolce vita* Antonioni s *Red Desert* and Resnais s *Last Year at Marienbad* He finds that these modernist films rather than being diametrically opposed in form to the work of Hitchcock Lang and Minnelli are in fact profoundly linked to them *Point of View in the Cinema* Edward Branigan,2012-01-02 Branigan effectively criticizes the communication model of narration a task long overdue in Anglo American circles The book brings out the extent to which mainstream mimetic theories have relied upon the elastic notion of an invisible idealized observer a convenient spook whom critics can summon up whenever they desire to naturalize style The book also makes distinctions among types of subjectivity after this we will have much more precise ways of tracing the fluctuations among a character s vision dreams wishes and so forth Branigan also explains the necessity of distinguishing levels of narration *The RoutledgeFalmer Guide to Key Debates in Education* Dennis Hayes,2005-09-29 Debating is out of fashion No one raises the question of what has gone wrong when the entire political project of a society is seemingly reduced to education education education The aim of this lively and challenging book is to provide the stimulus for further thinking about key educational issues by exposing and explaining the assumptions behind this obsession Over forty contributors all experts in their fields have written short accessible informed and lively articles for students teachers and others involved in education They address broad questions that are central to any understanding of what is really going on in the education system Topics covered include the new relationship of the state to education the changed nature of schools whether teachers are afraid to teach the problems with circle time anti bullying strategies citizenship education and multiple intelligences the retreat from truth and the demise of theory in teacher training and much more Everyone learning to teach in primary and secondary schools and further education colleges will find this book relevant to their programmes In particular the book would be useful for students on Education Studies courses **Feminist Speculations and the Practice of**

Stabler, 2014-06-11 Often seen as the exception to generalisations about Romanticism Byron's poetry and its intricate relationship with a brilliant scandalous life has remained a source of controversy throughout the twentieth century This book brings together recent work on Byron by leading British and American scholars and critics guiding undergraduate students and sixth form pupils through the different ways in which new literary theory has enriched readings of Byron's work and showing how his poetry offers a rewarding focus for questions about the relationship between historical contexts and literary form in the Romantic period Diverse and fresh perspectives on canonical texts such as *Don Juan* *Childe Harold's Pilgrimage* and *Manfred* are included together with stimulating analyses of less well known narrative poems lyrics and dramas A clearly

structured introduction traces key developments in Byron criticism and locates the essays within wider debates in Romantic studies Detailed headnotes to each essay and a guide to further reading help to orientate the reader and offer pointers for further discussion The collection will enable students of English literature Romantic studies and nineteenth century cultural studies to assess the contribution that different critical methodologies have made to our understanding of individual poems by Byron as well as concepts like the Byronic hero and evolving definitions of Romanticism
