Shattered World The:

The Man with a Shattered World A. R. Luria, 1987-04-30 Luria presents a compelling portrait of a man's heroic struggle to regain his mental faculties. A soldier named Zasetsky, wounded in the head at the battle of Smolensk in 1943, found himself unable to recall his recent past or speak, read or write without difficulty. Woven throughout his first person account are interpolations by Luria himself.

The Shattered World Michael Reaves, 1985-03 A millennium ago magicians fought a war and smashed the world into a thousand pieces. In partial expiation of these same sorcerers cast spells to set the fragments floating about each other in the Abyss to inform them with a proper gravity and to supply them and the space that separates them with an atmosphere that men and beasts may breathe. But that was long ago in a thousand years even sorcerers grow old and so do their spells. Now the doom that was forestalled is at hand. Already pieces of the Shattered World begin to collide. Soon all will meet and coalesce and melt into molten chaos.

Indigenous Prosperity and American Conquest

Susan Sleeper-Smith, 2018-05-11. *Indigenous Prosperity and American Conquest* recovers the agrarian village world Indian women created in the lush lands of the Ohio Valley. Algonquian-speaking Indians living in a crescent of towns along the Wabash tributary of the Ohio were able to evade and survive the Iroquois onslaught of the seventeenth century to absorb French traders and Indigenous refugees to export peltry and to harvest riparian wetland and terrestrial resources of every description and breathtaking richness. These prosperous Native communities frustrated French and British imperial designs, controlled the Ohio Valley, and confederated when faced with the challenge of American invasion. By the late eighteenth century, Montreal silversmiths were sending their best work to Wabash Indian villages. Ohio Indian women were setting the fashions for Indigenous clothing, and European visitors were marveling at the sturdy homes and generous hospitality of trading entrepreneurs such as Miami Town. Confederacy agrarian abundance and nascent urbanity were however both too much and not enough. Kentucky settlers and American leaders like George Washington and Henry Knox coveted Indian lands and targeted the Indian women who worked them. Americans took women and children hostage to coerce male warriors to come to the treaty table to cede their homelands. Appalachian squatters, aspiring land barons, and ambitious generals invaded this settled agrarian world, burned crops, looted towns, and erased evidence of Ohio Indian achievement. This book restores the Ohio River valley as Native space.

Yellowstone to Yukon

Florian Schulz, 2008-03-01. It's not only a feast for the eye. Florian Schulz is a fine young nature wildlife photographer but a challenge to those of us who live in a not yet used corner of the planet. Seattle. P I A grizzly bear emerges, one small detail in an immense vista of field and mountains and sky. A shoreline still and empty but for the telltale tracks of passing wildlife. Golden peaks that roll to the horizon, starkly beautiful in the morning light. This kind of space of solitude of simple wildness still exists in North America outside the boundaries of any park. Photographer Florian Schulz documents the landscape, plants, animals, and people of an eco system that is surprisingly intact up and down the spine of the Rocky Mountains. There is still time to make a difference to direct the path of encroaching development and establish connections between the national and provincial parks on this course. Essay contributors including David Suzuki, David Quammen, Rick Bass, Ted Kerasote, and Roberts F. Kennedy Jr. tell of their travels through the region and their experience of the land. They explain the need for Y2Y based on new findings that reveal isolated nature sanctuaries to be a recipe for extinction. They set the Y2Y conservation program in context, a grand vision grounded on science, a practical plan that provides for economic as well as environmental sustainability, a blueprint designating critical wildlife habitat. Environmental conservation does not mean that humans must be excluded from the land, but we must act thoughtfully.
