Shedding The Veil: Mapping The European Discovery Of America And The World Thomas Suarez,1994-04-29

Shedding the Veil is a highly original overview of Europe's exploration and discovery beyond her own confines. It tackles the subject via an analysis of maps dating from circa 1434 to 1865 with an emphasis on the period before 1600. The book begins with an appraisal of the peculiar circumstances which led late medieval Europe to pursue long distance travel both overland and by sea, introduces cosmographic traditions inherited from classical times and investigates pre-Columbian excursions into the western ocean. Finally the great voyages and mappamundi of the early sixteenth century are described in depth. After 1600 the focus begins to narrow North America and particularly to the colonization of the American Northeast. All maps discussed in detail are illustrated: 40 full page b/w plates, 25 full page color plates. Shedding the veil: mapping the

European discovery of America and the world Thomas Suarez,1992 **New Feminist Discourses** Isobel Armstrong,2012

This collection of new feminist essays represents the work of young critics researching and teaching in British Universities. Aiming to set the agenda for feminist criticism in the nineties, the essays debate themes crucial to the development of feminist thought: among them, the problems of gendered knowledge and the implications of accounts of gendered language, cultural restraints on the representation of sexuality, women's agency, cultural and political change, a feminist aesthetics and new readings of race and class. This variety is given coherence by a unity of aim: to forge new feminist discourses by addressing conceptual and cultural questions central to problems of gender and sexual difference. The topics of discussion range from matrilinear thought to seventeenth-century prophecy, the poetry of Amelia Lanyer to Julia Margaret Cameron's photographs, from Dorothy Richardson and Virginia Woolf to eighteenth-century colonial painting of the South Pacific, from medieval romance to feminist epistemology. The essays utilise and question the disciplines of literary criticism, art history, photography, psychoanalysis, Marxist history and post-structuralist theory. *Transition, Infinity, and Ecstasy* Suresh

Hariramsait,2016-01-15 Though modern astronomers and astrophysicists like Stephen Hawking have their doubts about interstellar travel, there are countless references to interdimensional travel in mostly ancient Indian texts. The *Kandha Puranam*, nearly 17 million years ago, mentions that the Asura Titan King Sooran ruled over 1008 universes and had vimanas or flying crafts that could in an instant travel all over space, cutting across dimensions at tremendous speed that could hover in mid-air, over water, disappear and reappear all of a sudden, and had a host of stealth weapons, even nuclear. Winter is mentioned for it is said that the entire world was enveloped in darkness caused by Sooran during the war. Lord Muruga possessed the Peacock Craft that could circumvent the 14 worlds and fly beyond in a micro-second, and his missile with the lengthy flame, *Nedunchudar Vel*, was voice-activated and reusable and was so powerful that it blew up into smithereens the *Kraunja* mountain, which even our modern-day nuclear weapons cannot do. According to scientists, the *Ramayana*, 17 million years ago, mentions that Emperor Ravana's *Pushpaka vimana*, which he captured from Kubera, the Lord of riches in heaven,

could host as many passengers as it takes there were stun weapons and stealth technology In the Mahabharata war 3500 b c nuclear weapons like the brahmastra were used and there is mention of numerous flying crafts of the Lords Angels of Asuras Titans and Rakshasas Demons who all travelled to and fro from the upper and lower worlds The Sri Linga Purana mentions that Lord Brahma s Swan Craft flew and transcended the seven upper worlds while Lord Vishnu s Boar Craft tunneled through the seven lower worlds and went even beyond Baathala the lowest plane which all reminds us of blackholes being portals and shortcuts to parallel universes which is being theoretically proved today More than 2500 years ago the Japanese Royal Family s ancestors met with the Sun God who landed on Mount Fuji and were presented with a sword and an orb which are still in the Imperial Palace in Japan The native Indian s forefathers living on sun Island on lake Titicaca in South America were visited by the Sun God The Dogon tribes of Mali have a tradition that their forefathers had sailed on a great ship that flew down from Sirius the star but what is interesting is that they don spacesuit like gear and celebrate their home coming once every fifty two years which is when sirius comes in direct alignment with our world
