## **Sheep Trails Sheep Ranching In The Land:**

*Sheep Trails* ,2004 This issue explores the regional industry s history through the personal experience of shepherds and ranchers and the historical analysis of societal factors that affected the industry **Organization, Costs, and Returns, Northwest Cattle Ranches, 1960-71** Wylie Daniel Goodsell,1972 *Oregon/Mormon Pioneer National Historic Trails Management Plan* United States. Bureau of Land Management,1986 *Agricultural Economic Report* , **Productive Sheep Husbandry** Walter Castella Coffey,1918 **American Sheep Breeder and Wool Grower** ,1907 **Surprise Field Office** ,2007 The Sandy Knoll Murder, Legacy of the Sheepshooters Melany Tupper,2010-12-23 The Sandy Knoll Murder Legacy of the Sheepshooters is the true story of the high profile 1904 murder of John Creed Conn who disappeared in the midst of central Oregon s bloody range war period That circumstance has always been believed to have precipitated his death Sensational and intriguing the details of the murder held the reading public in rapt attention with articles appearing on the front page of the Oregonian for nine months after Conn s mysterious disappearance It is not very often that a prominent man a celebrity vanishes from the main street of an Oregon town in broad daylight And even less often does a missing man s body reappear on a small sandy knoll outside of that same town seven weeks later This work is the result of six years of painstaking research that encompassed eighty other homicides and suspicious deaths of the period Conn s life and relationships the circumstances of his death and all that was ever written by and about the sheepshooters All of the planning that the killer put into making Conn vanish showed a high level of control and organization on his part But he did unwittingly leave some clues to his identity and they could be traced like fingerprints through the ink of the newspapers of the day Other clues were left like footprints in the soil surrounding the Sandy Knoll and in the behaviors that he exhibited there Conn was the brother of a district attorney and a member of a politically prominent and well connected family He was a local celebrity and a respected figure and there could be no doubt that a massive man hunt and investigation would ensue Every effort has been made to adhere to the facts of the case long held as the legacy of the sheepshooters The Creed Conn murder was then and remains today one of the most sensational in the history of the state of Oregon **Our Public Lands** ,1982 **An Economic Analysis of Wyoming's Sheep Industry (1960, 1964, 1968)** Delwin Moore Stevens,1971 **Your Public Lands** ,1981 **Where Have All the Sheep Gone?** Barbara G. Jaquay,2017-02-03 At one time more than one million sheep roamed the grassy areas of Arizona Herding sheep was a critical component of the economy building Arizona from its early territorial days into statehood Fortunes were made and during economic downturns and other disasters some lost everything By the 1890s sheepherding was a major enterprise in Arizona Today just over 180 000 sheep live in the state Where Have All the Sheep Gone details the untold story of the sheep industry in Arizona starting in the 1500s when the Spanish conquistadors began their push northward from Mexico and brought the first sheep as a food source Arizona s sheep industry is a rich history that has never been comprehensively told until now Author Dr Barbara G Jaquay presents a lively informative

story through historical documents and personal interviews with the remaining sheep ranchers and family members. Depicting the lives of the early shepherds in Arizona and changes that have occurred over the last thirty years, *Where Have All the Sheep Gone* casts a light on this disappearing way of life. It tells the compelling story of the families who worked diligently and proudly through successes and failures including droughts, range wars, and economic hard times due to government regulations and a shrinking workforce. Despite many challenges, the sheep industry managed to grow and make huge strides. Some families are still making their living from sheep today, trying to preserve a way of life that may soon be lost. *Where Have All the Sheep Gone* tells the story of a vital industry to Arizona and more importantly of its people. *Summary of Technical Testimony in the Colorado Water Division 1 Trial* Nancy D. **Loyal to the Land** Billy Bergin, 2006-08-31 This heartfelt and often personal work continues the story of the Big Island's Parker Ranch, one of the largest and most beautiful cattle ranches in the United States. It begins with the dynastic transition in ranch management from the formidable A. W. Carter to his son Hartwell, who would be responsible for bringing the ranch effectively into the twentieth century. Although supervision of the ranch officially changed hands in 1937, A. W.'s wide-ranging influence continued to be felt for at least another decade. Later, Hartwell Carter would also have to contend with the whims of ranch owner Richard Smart, who returned to the Islands in 1959 eager to take direct control of his estate. Under Carter's stewardship, Parker Ranch raised its cow herd size by fifty percent and, through its subsidiary Hawaii Meat Company, converted its beef marketing from a range-finished animal to a feedlot-confined, corn-fed, marbled carcass acceptable to the modern housewife. Hartwell Carter was followed by his assistant Richard Dick Penhallow as ranch manager in 1960. Penhallow's tenure is given a detailed overview that illuminates his ambitious goals for improvements in water, land, livestock, personnel, development, and the economics of the beef industry. Although Penhallow's grand scheme for reorganizing an inefficient and divided industry into a single cooperative using state-of-the-art facilities ultimately failed, the subsequent history of beef marketing in the Islands bears out the soundness and wisdom of his ideas. In 1962, Smart selected Radcliffe Rally Greenwell as Penhallow's successor. The new ranch manager arrived with strong traditional values of stewardship handed down from generations of Kona ranchers. Greenwell's initiatives were clear: to further enhance water development and increase the cow herd by thirty percent. He also instituted research to determine the cause of a scourge among young cattle called yellow calf syndrome. As the nine-year management of Greenwell unfolds, the book offers a close look at the leadership team of the era, which included Harry Kawai, John Kawamoto, Willie Kaniho, Yutaka Kimura, John Lekelesa, and Harry Ah Fong Ah Sam. The author, who became ranch

veterinarian in 1970 also provides personal insights in the later sections of the book into the use of the element copper to greatly enhance the growth and health of cattle and the birth and expansion of the ranch's Animal Health Program. The work concludes with the introduction of the mainland management team of Rubel and Lent whose attempt to return to a pyramidal management structure took Parker Ranch by storm. *Farm Index*, 1973.
