Black Conservatives in the United States Godfrey Mwakikagile, 2006 This work is an examination of the black conservative phenomenon in the United States in contemporary times The author looks at the role black conservatives play in American politics and at their attempts to have an impact on the lives of black Americans also known as African Americans Subjects covered include perspectives black conservatives share on issues such as affirmative action racism poverty self reliance welfare drugs crime and illegitimacy among blacks the criminal justice system and how it affects blacks and why black conservatives differ with other blacks on those issues It is also a critique of *The Bell Curve* a book that has inflamed passions especially among blacks and of the views some black conservatives have expressed on racial IQ differences which have fueled debate on this highly explosive subject The author also looks at the policy and philosophical differences and at differences in perceptions between black conservatives and their brethren in the black community Why do black conservatives oppose affirmative action Why do they support the Republican party Why don't they have much support in the black community Those are just some of the issues addressed in this book The author writes from personal experience after living and interacting with African Americans of all ideological stripes for more than 30 years His interest in Black America spans the ideological spectrum and covers other aspects of life including relations between Africans and African Americans He has written a book about those relations in which he also addresses the black conservative phenomenon in the United States Like all his others books *Black Conservatives in the United States* is intended for members of the general public and the academic community

A Long, Long Way Greg Garrett, 2020 The American cinema is one of the great myth making machines of the last century and has been used to craft defining narratives of race Films like *Birth of a Nation* and *Gone with the Wind* have promoted racist stereotypes and films like *Get Out* and *BlacKkKlansman* have worked to tear those same stereotypes down Greg Garrett's new book suggests that looking to religious traditions can help us discern and correct our national narratives of race and ultimately lead to reconciliation in a meaningful and lasting way
