Long Road To Reform Restructuring Public Education In Quebec:

Long Road to Reform Henry Milner, 1986-09-01 The Long Road to Reform analyses attempts to change the sectarian nature of schooling in Quebec focusing on the fate of the radical proposals advanced by the Parti qu b cois in their White Paper of June 1982 The then minister of education Camille Laurin proposed to reform the existing system of confessional school boards with its separate networks of schools for Catholics and Protestants replacing it with school boards divided along regional lines Under this plan individual schools would have had considerable organizational autonomy through councils composed of parent and teacher representatives Widespread opposition to this proposal led to its eventual modification and to the substitution of a much scaled down version of these reforms Bill 3 which was declared unconstitutional by the Superior Court of Quebec in May 1985 In reviewing this effort at reform Henry Milner describes the political and historical context in which the Quebec educational system developed and show how existing forces prevented its modification Milner shows that when challenged vested interests were still capable of erecting formidable obstacles to change and that churches were not the only institutions committed maintaining the status quo His study not only examines why this attempt to restructure public education in Quebec failed but also provides a fascinating picture of Quebec s turbulent and often contradictory political evolution during this period The Long Road to Reform Henry Milner, 1986 Although it has often been assumed that the Quiet Revolution represented the triumph of secularism over religion in Quebec important vestiges of ecclesiastical influence have remained among those which have proved to be particularly well entrenched are the structural foundations of the school system Participant/Observer Henry Milner, 2021-10-07 Some engage in politics others observe it but the author of this political memoir is among the few that have had the chance to do both In these pages Henry Milner shares his experiences as a student and community activist an anglophone insider and strategist in the Parti Qu b cois and a close observer over several decades of social democracy in practice in Scandinavia and beyond Milner was born in a bunker in American occupied Germany His parents who had survived the war in the Soviet Union moved the family to Canada where they settled in Montreal Earning a BA from McGill and his MA and PhD at Carleton he spent his teaching career first at Vanier College and then based at the University of Montreal He has also taught extensively in Europe North America Australia and New Zealand Participant Observer is Milner s eleventh book His writings notably in Inroads the Canadian Journal of Opinion which he and John Richards founded in 1991 have led to opportunities to teach and conduct research in Scandinavia Europe Australia and New Zealand Findings from these experiences have found their way into public policy discussion in Canada through the media and public forums Milner s recent focus has been on civic literacy on the democratic institutions that underly social and economic progress working closely with the movements seeking to reform the voting system in Canada and a number of provinces He and his wife Frances Boylston divide their time between Montreal and the Dominican Republic where they are closely involved with the Meeting Place a not for profit

International Resource Centre they founded to help snowbirds to get to know the country and to provide locals and Haitian migrants with English language and other resources to be better equipped for employment in a tourism oriented economy

Participant Observer is a political autobiography of a generation one that reached maturity in the 1960s and 1970s told through one person's story In concluding Milner holds out hope that this account of his generations successes and failures can be of use to current generations as they face the threat posed by populist and authoritarian forces most dramatically to the capacity of contemporary democracies to meet the challenge of climate change

Black Racialization and Resistance at an Elite University Rosalind Hampton, 2020-05-12 The presence and experiences of Black people at elite universities have been largely underrepresented and erased from institutional histories This book engages with a collection of these experiences that span half a century and reflect differences in class gender and national identifications among Black scholars By mapping Black people's experiences of studying and teaching at McGill University this book reveals how the whiteness of the university both includes and exceeds the racial identities of students and professors It highlights the specific functions of Blackness and of anti Blackness within society in general and within the institution of higher education in particular demonstrating how structures and practices of the university reproduce interlocking systems of oppression that uphold racial capitalism reproduce colonial relations and promote settler nationalism Critically engaging the work of Black learners academics organizers and activists within this dynamic political context this book underscores the importance of Black Studies across North America

educators across Canada **Community Besieged** Garth Stevenson,1999-06-17 In *Community Besieged* Garth Stevenson describes the unusual circumstances that allowed English speaking Quebecers to live in virtual isolation from their francophone neighbours for almost a century after Confederation He describes their relations with Maurice Duplessis and the Union Nationale and their ambivalent response to the Quiet Revolution New political issues language policy educational reform sovereignty and the constitution undermined the old system of elite accommodation in Quebec causing conflicts between anglophones and francophones and creating a new sense of anglophone identity that transcends religious differences The changing relations of Quebec anglophones with the major political parties as well as the role of newer entities such as Alliance Quebec and the Equality Party are also examined Stevenson concludes with a look at the future of anglophones in Quebec Based in part on interviews with more than sixty English speaking Quebecers who have played prominent parts in Quebec s political life *Community Besieged* is a comprehensive and up to date description of the political life of this unique minority at both the federal and provincial level *Inward Conquest* Ben W. Crocker,2022-11-15 Christian organizations have always played a large role in Canadian education By 1949 five provinces had constitutionally protected denominational schools The federal government s responsibility for the education of Indigenous Peoples was effectively contracted out to the churches for more than a century resulting in a history of abuse that has only recently come to light From the 1950s to the 1970s several initiatives in different provinces set the stage for significant reforms to education Some of these tested the limits of denominational protections but could not shake the underlying constitutional structures Patriation of the Constitution and adoption of the Canadian Charter of Rights and Freedoms in 1982 codified fundamental changes in thinking about civil rights The Charter allowed existing denominational rights to be challenged on many fronts However all such challenges were rebuffed by the courts on the grounds that the Charter cannot be used to override other parts of the Constitution By the 1990s it became apparent that another route to reform was available through the amending formula Constitutional amendments were used to end denominational control of schools in Newfoundland and Quebec in 1997 and 1998 The circumstances around those constitutional amendments are discussed in detail as possible precedents for similar outcomes in Alberta Ontario and Saskatchewan This book contends that change will certainly come to these provinces and several paths to reform are explored This reform aims to remove the discrimination inherent in denominational institutions while preserving some form of religious involvement in certain schools

Society,2015-11-26 When the Constitution Act of 1867 was enacted section 93 guaranteed certain educational rights to Catholics and Protestants in Quebec but not to any others Over the course of the next century the Jewish community in Montreal carved out an often tenuous arrangement for public schooling as honorary Protestants based on complex negotiations with the Protestant and Catholic school boards the provincial government and individual municipalities In the face of the constitution s exclusionary language all parties gave their compromise a legal form which was frankly unconstitutional but unavoidable if Jewish children were to have access to public schools Bargaining in the shadow of the law they made their own constitution long before the formal constitutional amendment of 1997 finally put an end to the issue In Honorary Protestants David Fraser presents the first legal history of the Jewish school question in Montreal Based on extensive archival research it highlights the complex evolution of concepts of rights citizenship and identity negotiated outside the strict legal boundaries of the constitution **Quebec Since 1930** Paul-André Linteau,René Durocher,Jean-Claude Robert,François Ricard,1991-01-01 List of Tables List of Maps List of Figures Preface PART 1 THE DEPRESSION AND THE WAR 1930 1945 Introduction Quebec in 1929 The Depression A Troubled Period The Second World War **PAIS Bulletin** ,1987 Learning to School Jennifer Wallner,2014-05-27 Among countries in the industrialized world Canada is the only one without a national department of education national standards for education and national regulations for elementary or secondary schooling For many observers the system seems impractical and almost incoherent But despite a total lack of federal oversight the educational policies of all ten provinces are very similar today Without intervention from Ottawa the provinces have fashioned what amounts to a de facto pan Canadian system Learning to School explains how and why the provinces have achieved this unexpected result Beginning with the earliest provincial education policies and taking readers right up to contemporary policy debates the book chronicles how through learning and cooperation the provinces gradually established a country wide system of public schooling A rich and ambitious work of scholarship it will appeal to readers seeking fresh insights on Canadian federalism education policy and policy diffusion Between Past and Future Norman Henchey,Donald A.
