Long The Imperial Way:

Hawaii Under the Rising Sun John J. Stephan, 2001-10-31 This lively provocative study challenges the widely held belief that the Japanese did not intend to invade the Hawaiian Islands Choice A disquieting book which shatters several historical illusions that have almost come to be accepted as facts It will remind historians how complex and ambiguous history really is American Historical Review Long the Imperial Way Hanama Tasaki, 2024-06-12 **Inside the Bataan Death March** Kevin C. Murphy, 2014-10-27 For two weeks during the spring of 1942 the Bataan Death March one of the most widely condemned atrocities of World War II unfolded The prevailing interpretation of this event is simple American prisoners of war suffered cruel treatment at the hands of their Japanese captors while Filipinos sympathetic to the Americans looked on Most survivors of the march wrote about their experiences decades after the war and a number of factors distorted their accounts The crucial aspect of memory is central to this study how it is constructed by whom and for what purpose This book questions the prevailing interpretation reconsiders the actions of all three groups in their cultural contexts and suggests a far greater complexity Among the conclusions is that violence on the march was largely the result of a clash of cultures undisciplined individualistic Americans encountered Japanese who valued order and form while Filipinos were active even ambitious participants in the drama **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1951 Includes Part 1A Books and Part 1B Pamphlets Serials and Contributions to Periodicals *American Prisoners Of Japan: Did Rank Have Its Privilege?* Major Michael A. (Buffone) Zarate, 2014-08-15 This thesis examines the story of American POWs held by the Japanese in WWII to see if there were significant differences in treatment based on rank It examines how the Japanese treated the prisoners according to international law and also distinctions made by the officers themselves simply because of higher rank The thesis begins by discussing the historical framework for POW rank distinctions by looking at past wars and the development of rank distinctions in international rules It then covers the American WWII POW experience in the Far East from Bataan and Corregidor to the war s end Special emphasis is placed on distinctions made in food housing pay medical care camp administration work requirements escape opportunities transportation leadership problems and overall death rates The study concludes that there were significant differences in treatment based on rank These differences caused extremely high enlisted death rates during the first year of captivity The officers fared worse as a group however because the Japanese held them in the Philippines until late 1944 because international rules prevented the Japanese from using officers in Japan s labor camps During shipment to Japan many officers died when the unmarked transport ships were sunk by advancing American forces **The Massacre in History** Mark Levene, Penny Roberts, 1999 The role of massacre in history has been given little focused attention either by historians or academics in related fields This is surprising as its prevalence and persistence surely demands that it should be a subject of serious and systematic exploration What exactly is a massacre When and why does it happen Is there a cultural as well as political

framework within which it occurs How do human societies respond to it What are its social and economic repercussions Are massacres catalysts for change or are they part of the continuity of the human saga These are just some of the questions the authors address in this important volume Chronologically and geographically broad in scope The Massacre in History provides in depth analysis of particular massacres and themes associated with them from the 11th century to the present Specific attention is paid to 15th century Christian Jewish relations in Spain the St Bartholomew's Day massacre England and Ireland in the civil war era the 19th century Caucasus the rape of Nanking in 1937 and the Second World War origins of the Serb Croat conflict The book explores the subject of massacre from a variety of perspectives its relationship to politics culture religion and society its connection to ethnic cleansing and genocide and its role in gender terms and in relation to the extermination of animals The historians provide evidence to suggest that the massacre is often central to the course of human development and societal change

Tracking Bodhidharma Andy Ferguson, 2013-06-11 The life of Bodhidharma the founder of Zen Buddhism has with the passing of time been magnified to the scale of myth turning history into the stuff of legend Known as the First Patriarch Bodhidharma brought Zen from South India into China in 500 CE changing the country forever In Tracking Bodhidharma Andrew Ferguson recreates the path of Bodhidharma traveling through China to the places where the First Patriarch lived and taught This sacred trail takes Ferguson deep into ancient China and allows him to explore the origins of Chan Zen Buddhism the cultural aftermath that Bodhidharma left in his wake and the stories of a man who shaped a civilization Tracking Bodhidharma offers a previously unheard perspective on the life of Zen's most important religious leader while simultaneously showing how that history is relevant to the rapidly developing super power that is present day China By placing Zen Buddhism within the country's political landscape Ferguson presents the religion as a counterpoint to other Buddhist sects a catalyst for some of the most revolutionary moments in China's history and as the ancient spiritual core of a country that is every day becoming more an emblem of the modern era

Unthinking Collaboration A. Carly Buxton,2022-03-31 Unthinking Collaboration uncovers the little known history of Japanese Americans who weathered the years of World War II on Japanese soil Severed from the country of their birth when the attack on Pearl Harbor abruptly halted all passenger traffic on the Pacific these Nisei faced the years of total war as members of the Japanese populace yet as the target of anti American propaganda and suspicion Whereas their white American counterparts were sequestered by Japanese authorities placed on house arrest or sent home on exchange ships during the war American Nisei in Japan were left to contribute to the war effort alongside their Japanese neighbors as soldiers cryptographers interpreters and in farming and manufacturing When the dust of air raid bombings cleared many such Nisei transitioned into roles in service of the Allied occupation and its goals of democratization and demilitarization As censors translators interpreters and administrative staff they played integral roles in facilitating American Japanese interaction as well as in shaping policies and public opinion in the postwar era Weaving archival data with oral histories personal narratives material culture and fiction Unthinking Collaboration emphasizes the heterogeneity of Japanese immigrant experiences and sheds light on broader issues of identity race and performance of individuals growing up in a

bicultural or multicultural context By distancing collaboration from its default elision with moral judgment and by incorporating contemporary findings from psychology and behavioral science about the power of the subconscious mind to influence human behavior author A Carly Buxton offers an alternative approach to history one that posits historical subjects as deeply embedded in the realities of their physical and discursive environment Walking beside Nisei as they navigate their everyday lives in transwar Japan readers unthink long held assumptions about the actions and decisions of individuals as represented in history The result is an ambitious historical study that speaks to readers who are interested in broader questions of race and trust empire building World War II and its legacy on both the Western and Pacific fronts and to all who consider questions of loyalty treason assimilation and collaboration

Bad Water Robert Stolz, 2014-03-12 Bad Water is a sophisticated theoretical analysis of Japanese thinkers and activists efforts to reintegrate the natural environment into Japan's social and political thought in the late

nineteenth century and early twentieth The need to incorporate nature into politics was revealed by a series of large scale industrial disasters in the 1890s The Ashio Copper Mine unleashed massive amounts of copper arsenic mercury and other pollutants into surrounding watersheds Robert Stolz argues that by forcefully demonstrating the mutual penetration of humans and nature industrial pollution biologically and politically compromised the autonomous liberal subject underlying the political philosophy of the modernizing Meiji state In the following decades socialism anarchism fascism and Confucian benevolence and moral economy were marshaled in the search for new theories of a modern political subject and a social organization adequate to the environmental crisis With detailed considerations of several key environmental activists including Tanaka Sh z *Bad Water* is a nuanced account of Japan s environmental turn a historical moment when for the first time Japanese thinkers and activists experienced nature as alienated from themselves and were forced to rebuild the connections
