Associations ,2001 Night Vision Dominic Angeloch,2025-04-10 All his life Wilfred Bion strove to find a narrative form for the traumatic experiences he went through as a tank commander in the First World War The body of his autobiographical and literary works documents his efforts to wrest a biography of his own from the most devastating processes of world history As a whole it is the result of a lifelong struggle to express something unspeakable to restore something destroyed What emerges is something like the prehistory of the psychical catastrophe from which Bion was unable to escape until his death As such however these autobiographical fragments also reflect the prehistory of the historical catastrophe under whose spell the world still stands today This book is the first comprehensive study of Bion s autobiographical and literary writings Drawing on the concepts of experience and thinking developed in his theoretical and clinical works with which they are genetically linked it discusses Bion s strategies of writing and cognition and for the first time systematically places a hitherto unexplored part of his work in the context of his entire oeuvre Following the chronological thread of his life from childhood in India through youth in England to his experience of the First World War in France and Belgium the book traces how Bion developed his unique method of writing Detailed narrative analyses reveal the painful work of coming to terms with the war experiences which had haunted him throughout his life a crippling trauma whose causes extended far beyond the individual and private The book thus provides deep insights into Bion s life his thinking and his writing and offers the reader a portrait of the primal catastrophe of the twentieth century and its devastating effects *Whitaker's Cumulative Book List* ,1982 **Radical Science** ,1984 British Books in Print ,1985 **A History of Group Study and Psychodynamic Organizations** Amy Louise Fraher,2004 Many people hold a piece of the puzzle of group relations yet few people are able to put them together in a meaningful way In this breakthrough study Amy L Fraher provides the most comprehensive account yet written of the history of institutes of group study The book draws on original documents as well as extensive interviews with key practitioners The result is a fascinating story of the complex dynamics of organizational life Developing the construct of idea organizations organizations designed to generate intellectual concepts rather than to produce goods or services Fraher examines the psychodynamic workings of the National Training Laboratories Tavistock and A K Rice Institutes as well as early psychoanalytic societies She shows how the innovatory forces that energize these idea organizations can become the focus of inter group rivalries creating a cycle that puts the organizations themselves at risk Fraher details the cycle of idea organizations through the contributions of experts in the field such as David Armstrong Gordon Lawrence Isabel Menzies Lyth Laurence Gould Eric Miller and Kathleen Pogue White and others She also uses A K Rice s previously unavailable field notes and director s reports to provide a documented overview of group relations theory and conference methodology not offered since Rice s own *Learning for Leadership* in 1965 This is an accessible and absorbing study suitable both for experts and those new to the study of groups **The Edinburgh International Encyclopaedia of Psychoanalysis** Ross M. Skelton,2006 The Encyclopaedia caters for readers who require knowledge at a
