Bowver Bell,2017-09-29 J Bowyer Bell s Beseiged is built on the premise that as long as men have constructed walls other men have tried to scale them From ancient Jericho and Joshua s trumpet to London and the onslaught of the Luftwaffe people have always devised cunning weapons with all the skills at their command to breach such barriers and invade the camps and fortified places of their enemies Beseiged is the story of seven great modern sieges Madrid in the Spanish Civil War London Warsaw Singapore and Stalingrad in World War II Berlin during the Post World War II Airlift and Jerusalem under Arab attack from four sides in 1947 Bell a veteran historian describes in detail the actual battles involved clearly demonstrating the universality of sieges and siegecraft and showing that all these beleaguered places have things in common and obey

certain basic laws or principles Bell points out commonalities showing for example though no bullets were fired during the Berlin Airlift the city itself was as much under siege as was Warsaw where the Polish Underground fought a fierce but hopeless battle against Hitler's Wehrmacht By the same token Bell shows though no German infantry ever came close to London it was nonetheless besieged by aerial squadrons just as surely as Stalingrad was by both German and Russian ground forces The histories of these sieges are ones of heroism and cowardice meticulous planning and incredible blunders all of which can be studied and used even currently in similar situations in either defending or piercing the defenses of a location in times of unrest or war Beseiged is a must read for those interested in modern conflict pondering the enigma of human endeavor in wall building and breaking involved in siegecraft A must read for everyone from military strategist aficionados and historians to science and technology buffs If it is to be believed the danger of not knowing history is the possibility of unknowingly repeating it then Beseiged should appear on all required reading lists Luftwaffe Bombers vs British AA Defences Donald Nijboer, 2025-04-24 An illustrated study of the British Army's Anti Aircraft AA Command's performance against the Luftwaffe during the Battle of Britain and the Blitz When the Battle of Britain commenced in July 1940 the Luftwaffe committed more than 1 200 medium bombers 300 Ju 87 Stukas and 760 Bf 109 and Bf 110 fighters to the campaign The response from British AA Command mustered 359 4 5in guns 666 3 7in guns and 226 3in guns as well as 3 538 light and medium AA guns to tackle low level Luftwaffe raiders but was under gunned and overstretched struggling to provide sufficient weapons for every key site Nevertheless AA gunners shot down some 300 German aircraft by the end of the Battle of Britain on 31 October 1940 upping this count to 578 before the Blitz finished on 11 May 1941 and leading an estimated 48 per cent of Luftwaffe bombers to turn back because of heavy AA fire In this action packed study World War 2 aviation expert Donald Nijboer examines the capabilities of both sides and explores how British AA Command not only shot down so many enemy aircraft but also forced them to fly higher broke up their formations and decreased their accuracy Tactical diagrams maps archival photographs and newly commissioned artwork provide additional insight and detail helping to bring the bitter struggle over the skies of southern England to life **Samuel Rees Howells, A Life of Intercession** Richard A.
