Yet I do not claim that this method is essentially new It is in the main the hypothetical method of the sciences it has had to be adapted to the treatment of character that is all A complete science of mind would include a science of character The best approach to such a science is through the study of the primary emotions and their connected instincts This study is to be directed to an analysis of tendencies PsycINFO Database Record c 2005 APA all rights reserved **Dr. Francia ; An election to the Long Parliament ; The nigger question ; Two hundred and fifty years ago ; The opera ; National exhibition of Scottish portraits ; The prinzenraub ; Inaugural address at Edinburgh, 2nd April 1866 ; Shooting Niagara: and after? ; Latter stage of the French-German war, 1870-71 ; Index to miscellanies** Thomas Carlyle,1872
