Imperial Russia, 1689-1917 David Longley, 2014-07-30 This is the first book of its kind to draw together information on the major events in Russian history from 1695 to 1917 covering the eventful period from the accession of Peter the Great to the fall of Nicholas II Not only is a vast amount of material on key events and topics brought together but the book also contains fascinating background material to convey the reality of life in the period *Longman Companion to Slavery, Emancipation and Civil Rights* Harry Harmer, 2014-06-11 This Companion provides the essential background to the defining fate of the African diaspora in the Americas and the Caribbean from the 15th to the 20th centuries Central to the book are detailed chronologies on the development and decline of the slave trade slavery in colonial North and South America the Caribbean and the United States movements for emancipation and the progress of black civil rights Separate sections look at the long running resistance against slavery and the black civil rights movements in the Americas and the Caribbean with a comparative chronology of apartheid in South Africa Supported by biographies of over 100 key individuals and a full glossary providing definitions of crucial terms expressions ideas and events this is required reading for anyone interested in the historical experience of slavery **Forging the Franchise** Dawn Langan Teele, 2018-09-18 The important political motivations behind why women finally won the right to vote In the 1880s women were barred from voting in all national level elections but by 1920 they were going to the polls in nearly thirty countries What caused this massive change Why did male politicians agree to extend voting rights to women Contrary to conventional wisdom it was not because of progressive ideas about women or suffragists pluck In most countries elected politicians fiercely resisted enfranchising women preferring to extend such rights only when it seemed electorally prudent and in fact necessary to do so Through a careful examination of the tumultuous path to women's political inclusion in the United States France and the United Kingdom *Forging the Franchise* demonstrates that the formation of a broad movement across social divides and strategic alliances with political parties in competitive electoral conditions provided the leverage that ultimately transformed women into voters As Dawn Teele shows in competitive environments politicians had incentives to seek out new sources of electoral influence A broad based suffrage movement could reinforce those incentives by providing information about women's preferences and an infrastructure with which to mobilize future female voters At the same time that politicians wanted to enfranchise women who were likely to support their party suffragists also wanted to enfranchise women whose political preferences were similar to theirs In contexts where political rifts were too deep suffragists who were in favor of the vote in principle mobilized against their own political emancipation Exploring tensions between elected leaders and suffragists and the uncertainty surrounding women as an electoral group *Forging the Franchise* sheds new light on the strategic reasons behind women's enfranchisement **Longman Companion to the Formation of the European Empires, 1488-1920** Muriel E. Chamberlain, 2014-06-11 The European empires as they existed from the Age of Discovery until after the First World War shaped the modern world So great has been their political economic and cultural influence that to fully understand

contemporary history and events it is essential to have an understanding of the imperial past This book is an impressive achievement It brings together in one comprehensive volume all the essential facts and figures relating to the process of empire building by the European powers It complements the Longman Companion to European Decolonisation in the Twentieth Century by the same author together they help to explain why different empires had different philosophies dissolved in different ways and left different legacies

The Blair Effect 2001-5 Anthony Seldon, Dennis Kavanagh, 2005-09-29 Tony Blair's strong start to his third term with his role in capturing the Olympic Games for Britain his statesman like handling of the aftermath of the terrorist attacks on London his promise of a new start to the European Union and his leadership of the G8 summit at Gleneagles has brought his relatively lacklustre second term into sharp relief The second term should have been the time when New Labour fulfilled its manifesto promises So what changed between 2001 and 2005 and what was achieved How far was Blair himself responsible and what was Gordon Brown's influence What was the impact of the Iraq war And what of Blair's policy towards Europe Anthony Seldon and Dennis Kavanagh gather together leading academics and journalists to provide an authoritative assessment of Blair's second term including a review of New Labour in government from 1997 to the present
