Marilyn Lewis, Hayo Reinders, 2008. This book has a clear message for classroom teachers: student learning improves when teachers introduce their students to strategies for learning as well as teaching them specific language skills. In practice, however, many of the students themselves are more teacher-centered, finding it easier and preferable to depend on their teachers rather than to take on greater responsibility for their own learning, especially if their educational and cultural backgrounds have not prepared them for this new role. *Using Student-Centered Methods with Teacher-Centered Students* is packed with suggestions for bringing about a successful match between teachers' preferred ways of teaching and learners' preferred ways of learning while gradually encouraging increased learner autonomy.
